There Was an Abundance of Excitement in This Part of the City on Election Night.

Election echoes are in order. There was plenty of excitement on the West. Side, and from the time the polls closed Tuesday night until the day-break the central portion of this hamlet was rocked in cheers. In St. David's hall a great crowd paid 16 cents each and received the returns over a special wire. As the pays of a Bengh ican wire. As the news of a Republican sweep came in the hall could not con-tain the noise and the atmosphere outside bore the overflow. The Columbian

It was a delightful affair and President W. S. Mears, who was responsible for its success, is justly clated. If West Side Democrats heard the returns no one knew of it.

DUNMORE.

At the last meeting of the school board the following rule was passed: "If any pupil shall be absent six half days, or tardy six times during any time of thirteen weeks, written permis-sion for such pupil to remain in school must be obtained from the superintendent by the parent or guardian in per-son, unless the irregularity be caused by personal sickness, or serious ill-ness of death in the family, when the pupil must present to the superintendent a written statement to such effect. signed by the parent or guardian. Tardiness and irregular attendance are two of the greatest hindrances to a pupil's progress. It not only hinders his prog-ress, but also that of the whole school. The number of males enrolled in our schools last month was 795, with an average attendance of 669.; This shows that 100 boys were absent each day. The attendance of the girls was a little better. The above rule will cause the at-tendance of all, thus causing the formation of good habits of punctuality and regularity and progress. When a puper of times stated above, a printed notice will be sent by the teacher to his parent or guardian requiring him or her to apply in person before the superin-tendent. The object of this rule is to promote an efficient co-operation with the parents in securing the regular attendance of the pupils at school. While this rule may seem severe, yet it is made in the interest of the pupil, and it

is carnestly hoped that it will obtain the hearty approval that a rule with such object in view deserves. It will go into effect Monday, Nocember 9. N. T. Houser, superintendent of public T. ### MURDERED FOR MUSIC.

Peter Hari, a Hungarian, Fatally Assaults a Fellow Countryman.

Wheeling, Nov. 4.-At Raineytown, a mining hamlet, two miles above here in Ohio, early this morning, Andy Tarpin, a Hungarian, was fatally as-saulted with an ax, by Peter Harl another Hungarian.

Tarpin and a party of friends had gathered in Tarpin's house and had spent the night drinking and singing: Hari, who lives near, came home from Martin's Ferry, drunk, about 3 o'clock, and hearing music at Tarpin's went in. Tarpin was playing an accordeon, but quit when Hari came in. Hari demanded that he proceed, and when he refused, kicked the accordeon to pieces. As Tarpin stooped to pick up the pieces Hari seized an ax, and struck him with the blade, crushing his skull

and taking off an ear and part of the cheek. He then drove the blade of the ax into Tarpin's back three times, cutting the ribs through each time, making terrible wounds. It is not pos-sible for Tarpin to recover.

A German Dairyman of Wheeling

Mysteriously Murdered. Wheeling, W. Va., Nov. 4.-There was a mysterious murder on a public road, two miles from this city, today. Henry Kiel, a German milk dealer, 65 years of age, came to town as usual this morn-ing, from his dairy, three miles out the national road. He delivered milk to

his customers as usual.

About 11 o'clock he started home and since then no one can be found who saw him alive. A member of his family became alarmed and started in search of him. He saw the milk wagon at the roadside, the horse eating grass from a fence corner. Kiel was not in the wagon, but everything else was in its wagon, but everything else was in its proper place, the money drawer containing the usual amount of change. A walk of fifty yards brought the searcher upon the dead body of Kiellying by the roadside with a big bullet hole through the left breast, just above the heart. There was no blood in the

but Still Very Great. London, Nov. 4 .- The Viceroy of India, the Earl of Elgin, cables the home Government that in the Punjaub the distress is expected mostly in the Cissutley portion and in Transkari. In some tracts the autumn crops are rather better, and in the Northwest rather better, and in the Northwest provinces the affected area is smaller than expected, but included half the population. The people are now eating autumn millets. The distress will begin about the middle of December.

Continuing, the Viceroy says that the recovery and the property of the continuing of the continui

If she will see that the organs which make motherhood possible are healthy and vigorous, and will keep them so during the period preceding maternity, she may be sure that the baby will be healthy and happy.

A marvelous medicine for young mothers is Dr. Pierce's Favorite Prescription. Taken during the period preceding motherhood it makes strong, healthy and vigorous the organs upon which rest the burdens of maternity. It allays inflammation, soothes pain, and restores steadiness to the nerves. It does away with the discomforts of the expectant period. It insures the health of baby and makes its coming easy and almost painless. It is the discovery of an eminent and successful specialist, Dr. R. V. One of the best-known of American medical men said: "If you want to reform a man, begin with his grandfather." That would be wise if it could be done. Since it cannot be done, try something else. Reform the future grandfathers and grandmothers. Do this through education. The greatest thing for a man or woman to know is himself or herself. To know one-half the capabilities and disabilities of the human body is a liberal education. A good start for this education is Dr. Pierce's Common Sense Medical Adviser.
