HANNA'S STATEMENT.

New York, Nov. 5.—The following statement was given out this afternoon at Republican national headquarters by Chairman Mark A. Hanna:

Chairman Mark A. Hanna:

Official returns have been received to satisfy me that the following states have been carried by Mcikinley and Hobart without a doubt:
California, 9; Connecticut, 6; Delaware, 2; Illinois, 21; Indiana, 15; Iowa, 13; Maing, 6; Maryland, 8; Massachusetts, 15; Minn&sota, 9; Michigan, 14; North Dakota, 3; New Hampshire, 4; New Jersey, 19; New York, 3; Ohlo, 23; Oregon, 4; Pennsylvania, 22; Rhode Island, 4; South Dakota, 4; Vermont, 4; West Virginia, 6; Wisconstia, 12; Wyoming, 1. Total, 265—which insures McKinley's election by a majority of 85 in the electoral college if every other electoral vote goes against us.

Another most significant fact of this victory is that McKinley and Hobart's election has been secured by a plurality of over one million of the popular vote—the largest ever given.

MR. M'KINLEY'S HOLIDAY.

The President-Elect and Mrs. McKinley Will Seek Rest and Repose at Cleveland.

Canton, Nov. 5.-Major McKinley, yielding to the pressure of friends and physician, has at last decided to ab-sent himself from Canton for a time and will, with Mrs. McKinley, leave for Cleveland within a few days. Mrs. McKinley has been suffering from a severe cold for more than a week and is now convalescent. Her physician thinks a change of air and scene will benefit her and that is one reason why Major McKinley is going to leave Canton so soon. Major McKinley has done more work in the last six months than any other malic man in the country or any other public man in the country or in the world. He has not only made 250 speeches since his nomination, but has greeted more than haif a million people and talked with and shaken hands with half that many. In addition to this he has been in touch with next week. political leaders throughout the country and has had to meet, consider and solve many of the difficult problems of the campaign. He has been compelled to live in the public view and for five months has scarcely had an hour between 9 in the morning and 10 at

night which he could call his own. Major McKinley's health is excellent, but his friends, heedful of the great task which confronts him, think he ought to have a season of rest and so he will spend a week or so quietly with Colonel M. T. Hefrick, who was on his staff, at the latter's home in Cleve-land. He has made no engagements and expects to control his time absolutely. He is going away for rest and his object in going to a friend's house in Cleveland instead of visiting one of the larger cities, is to be able to make disposition as he wishes of his time and not to be at all in the public view. and to escape public functions or elab-orate entertainments.

The telegraph companies are compelled to keep six or eight operators at work in order to handle the large num-ber of telegrams of congratulation which are pouring in upon Major Me-Kinley. All through the night they have been coming and every state in the country has sent through its citizens messages of greeting to the Republi-can candidate. Many Americans abroad are cabling their congratulations.

WASHBURN SATISFIED.

Chairman of the People's Party Finds Victory in Defeat--- Rejoices at the Departure of Traitors.

Chicago, Nov. 5.—Chairman Wash-burn closed the Chicago headquarters of the People's party national commit-tee tonight and will depart for his home in Boston tomorrow morning. In about ten days he will go to Washington to conter with Senators Jones and Butler in regard to the future policy of the allied silver forces. In this connection Mr. Washburn said to a reporter for the United Associated Bryan Thinks That His Defeat Will

"As a result of the present campaign we find victory in defeat. The fact that so much was accomplished in so short a time with the limited means, inspires the belief that we can win four years hence. We are confronted with a united army and an unparalleled campaign fund, while our own forces were divid-ed, with secret foes in our midst as well as fusion difficulties and the annalga-mation of opposing forces to contend with. Mr. Bryan made the greatest campaign recorded in political history and stands unrivalled as a leader. Revolutions never go backward and the momentum of this campaign will be continued by the allied silver forces.
"I believe this election will result in separating the gold chaff from the sil-ver wheat and force the traitors in the silver ranks to unite with the Republi-cans where they belong. It is worth all our effort to shake off these barnacles and start afresh with renewed hope. In order that all the elements constituting the movement—the silver Republicans, the silver Democrats and the Populists—may be satisfied, it may become necessary to merge all these forces into one great army under a new name. It is rarely that a new great issue succeeds under an old par-

ty name. "We begin the congressional fight of "We begin the congressional fight of 1898 and the presidential fight of 1900 tomorrow. We shall have a conference of our national leaders within a short time, when the plans of the contest and the policy of the future may be determined upon. Let no one believe that silver is defeated. The movement is simply purified and regulated. In a that silver is defeated. The movement is simply purified and regulated. In a new form, with new hope and vigor, and with the gold bug traitors eliminated from the movement we emerge from this contest stronger than ever, to march forward to victory which awaits us."

PROSPERITY AT NORTH TOWANDA North Towanda, N. Y., Nov. 5.-One of the biggest demonstrations ever wit-nessed in Niagara county took place here this afternoon, when the Niagara Iron foundry, at Ironton, was formally opened and 300 additional men given employment at the new plant.

The event marks the beginning of an era of prosperity here, and it was fittingly celebrated. At 2.30 o'clock a procession was formed and preceded by a brass band, marched to the iron works. There the furnaces had been prepared for lighting and promptly at 3 o'clock President-elect McKinley touched a button in his house at Canton and the electric wire connecting it with the fur-nace emitted a spark which ignited the inflammable material and the new blast furnaces were put in operation. Not Affect Cause of Bimetallism. They had been in-doors all day and after supper decided to take a little needed exercise Just as the clock in the library of the Democratic candidates cozy little home was striking the hour, husband and wife returned. Mr. Talbott, Mr. Bryan's law partner, who has just been elected to the Nebraska legislature on the Republican ticket and sev eral newspaper men were in the library at the time. Mr. Bryan read the bulletin without showing any signs of feeling and remarked as he finished: "I'll wait to hear from Senator Jones before saying anything." Then he put on a velvet house jacket and began chatting pleasantly with some personal friends who were with him in the partor. There was nothing of the nathests. lor. There was nothing of the pathetic in the scene. Mr. Bryan had not clung to the hopes held out to him by some of his enthusiastic followers and was prepared for the news. His wife, too, knew that nothing encouraging was to be expected. Her good nature came to the fore when she realized that the strain was over and she laughed and strain was over and she laughed and joked with those about her while Mr. Bryan also chaffed the newspaper men during the wait for the official message from Senator Jones. Half an hour later, a telegraph messenger handed a dispatch to the defeated candidate. "You may say," said he, turning to the newspaper men after reading the telegram, that the election of McKinley is conceded and I will issue a statement tonight."

JONES FREES HIS MIND.

Democratic National Chairman Takes Occasion to Score the Republicans in Acknowledging Defeat.

Chicago, Nov. 5 .- Chairman Jones formally conceded the defeat of William J. Bryan tonight and made his last presidential campaign statement to the public. The free silver standard was really lowered late last night so far as the election of 1896 is concerned, when advices were received at headquarters from West Virginia conceding the electoral vote of that state to McKinley, but it was decided not to make a public announcement of the fact until today. In the meantime Governor Stone arrived in Chicago from Missouri in re-sponse to Senator Jones' telegram. The national committee chairman, the gov-ernor and campaign chairman Campau were in conference this evening in the senator's room and at its conclusion the following statement was given to the

senator's room and at its conclusion the following statement was given to the press:

The result of the presidential election is apparently no longer in doubi. It has been one of the closest contests that the people have been called on to determine in recent years. We have claimed the election on our advices from states that were admittedly in doubt, in which we knew there had been many frauds and from which there were evidences of tampering with the returns. It seems now to be apparent that while Mr. Bryan, after making the most brilliant campaign in the history of our country, has carried most of the states claimed to be doubtful, but has not carried enough to assure him success in the electoral college. Bryan electors have been chosen in all the states south of the Potomac and Ohio, except West Virginia, and all those west of the Missouri, except California and Oregon. He has 190 electoral votes and this number may be increased by final returns from states yet in question.

This remarkable campaign closes with the election of William McKinley. The result was brought about by every kind of coercion and intimidation on the part of the money power, including threats of lockouts and dismissals and impending starvation; by the employment of by far the largest campaign fund ever used in this country and by the subordination of a large portion of the American people to continue the gold standard, and by its operations to restore prosperity to this country. As chief executive Mr. McKinley will have the cordial support of the millions of patriotic Americans who have cast their votes for William Jennings Bryan. They bow to the majesty of the office and abide by the result with none of the mutterings that would have come from the money power had it been unsuccessful. They are confident the gold standard cannot give the promised prosperity, but will gladly welcome it if it comes. They will continue the gold standard cannot give the promised prosperity in the establishment of an American monetary system. And the Democrat

Senator Jones and his family excepting his son Kimbrough, will leave for their Arkansas home tomorrow morn-ing, his son remaining to wind up the affairs of headquarters. National Com-mitteemen Johnson, Walsh and Cammitteemen Johnson, Waish and Cam-pau will depart for their homes by the end of the week, when there will be nothing left but a memory of both Re-publican and Democratic headquarters.

Explains the Position of the Western Farmers on the Currency Question. Also Gives an Opinion of Major Mc-Kinley's Views of the Tariff -- Vice-President Hobart Congratulated. The Claims as to Wyoming.

New York, Nov. 5 .- Mark Hanna arrived in this city at 11 o'clock this morning, having come from Cleveland to wind up the affairs at the Republican national committee's headquarters. He first went to the Waldorf, where he greeted his family, and then hurried down to the headquarters. When seen he was in a rather talkative mood, and of course expressed his perfound pleasure over the enterment. profound pleasure over the outcome of the election. "From the very start,"
he said, "I was confident of the outcome of the election. I never for a moment doubted the result. The minimum vote McKinley can have in the
electoral college is 277, and I think 286 is a conservative estimate. Senator Jones claims that he has carried In-diana and other of our states, and that Bryan is elected are absurd. I was much pleased with the result in New

York city."
"How do you account for the heavy vote for McKinley in the western farming districts?" "Many western farmers were misled about our attitude. They confused gold monometallism and the gold standard, and were in many cases led to believe that the gold standard for which we have fought meant that we would use gold money only, and that silver money would go out of use. When they learned that under the gold standard we would continue using silver as we do today, their ideas changed and they deserted the free silver and they deserted the free silver cause."
"Do you think that the boom in

business will continue?"
"I do. I see that the market is up from 6 to 12 points. I think it will stay there. Of course, there will be fluctations in speculative stocks, but the general tendency is for a general betterment of conditions."

"What do you think Mr. McKinley's present idea is of the tariff?"
"Major McKinley's ideas on tariff, which may give a clue to what he will endeavor in the future to accomplish were best expressed by him in his speech of February 12. He illustrated his views by an anecdote of Lincoln. It seems that Mr. Lincoln was asked how long a man's legs ought to be. He how long a man's legs ought to be. He replied that he had long pondered over that question, and finally concluded enough to reach from his body to the ground. Major McKinley's idea of what a tariff ought to be is on a par with this. According to his own speech, he believes that we should have sufficient for revenue and to protect American labor against pauper labor of Europe, and to allow capital a fair remunera-

Chairman Hanna was asked upo what grounds he based his claim to one electoral vote in Wyoming for Mc-Kinley. Mr. Hanna replied: Our claim is based on a telegram we received this afternoon from United
