four hours at a time, was more active,

Besides, the market for commercial paper has undergone quite a change for the better. There has been practically nothing doing in this branch of the money market for a long time past. as manufacturers and merchants have not required extensive accommodations while the banks have refused to purchase paper of any kind. Today, how chase paper of any kind. Foday, now-ever, makers of paper were in the mar-ket more extensively and the banks were eagerly absorbing all the good names tendered, thus indicating a far more healthy condition of affairs in the mercantile situation.

There were several other matters which told of the revival of confidence and the broadening aspect of general business, potent among which was a more active demand for sterling exchange from uptown importers. The increased inquiry from that quarter, coupled with the decidedly easier condition of the money market, gave the foreign exchange market a firmer as well as more active appearance, and actual selling quotations early in the day were fully one-quarter higher to the pound sterling than at the close yes terday.

TRIED THE NEW MACHINES.

All Votes Registered Satisfactorily i Rochester, N. Y.

Rochester, N. Y., Nov. 5.-The Myers ballot machine was tried on the largest scale, and put to the severest test yet attempted in this city on Tuesday. On the whole, the result was very satisfactory. Heretofore the machine has been used only in small and unimport-ant town elections. The common council here was induced to try it only at the last moment.

Voters were surprised at the ease and rapidity with which they were able to make their political preferences known. Those that voted the straight ticket, and had, therefore, to push only one knob, met with no perplexity what-ever. They could march in and out at the rate of from two to four a minute. Those voters that voted a split ticket required a little more time. They had required a little more time. They had to push a knob for each candidate they voted for. Still they voted with surprising rapidity. Sometimes the were at the average rate of two a minute. But sixty and seventy votes

an hour was the average. One of the most satisfactory fea-tures of the machine was the rapidity and accuracy with which it permitted the result of the election to be known. Within twenty minutes after the closing of the polls the company's centra office was in possession of the result of the voting for presidential and guber-natorial candidates in all the districts except half a dozen. These were ob-tained by 6 o'clock. By 9 o'clock the result of the election in all districts on all the candidates was known accurately.

NEGROES KILLED BY WHITE CAPS.

HOBART'S COUSIN KILLED.

While Celebrating the Republican Victory, a Veteran Meets Death.

New York, Nov. 5.—The Journal prints a despatch from Highstown, N. J., stating that Garret A. Vandoran, a cousin of Vice President-elect Hobart, died this morning from injuries that he received by the explosion of a can-non which he was firing to celebrate the Republican victory. Solomon denies that he stole the money, and says that he never saw the bag until Spangler discovered it un-der a rafter. The money now awaits an owner, and if none appears it will be turned over to the man who found it.

Con-ners was struck on the head with a stone fracturing his skull, concussion of the brain causing inframmation.

New York, Nov, 5.—Percy E. Arnold was found dead from asphyxiation by gas in his room in New York city. The escaping gas came from th end of a rubber tube running directly from a meter, and usually connected with a vulcanizer. The end which should have been con-nected with the vulcanizer was de-tached, and it is thought that a play-ful pussycat may have caused the ac-cident. Twenty-two persons were arrested in connection with the riot in which several persons were injured. The stone thrower is not known.
