The True Reason of General Lee's Re-

PRESIDENT WANTED INFORMATION INFORMATION INFORMATION

It is Believed in Washington That Mr. Cleveland Intends to Devote a Large Part of His Message to the Island Rebellion.

300 Yards. Washington, Nov. 8.—A red letter chapter in the history of amateur ath-letics was written at Georgetown yes-terday, by Bernard J. Wefers, who beat two world's records for 100 yards, and for 300. The first was made in the remarkable time of 9 3-5 seconds, and the second in 30 2-5. It was Wefer's last appearance of the year after a most remarkable campaign. The hun-dred-yard race was a special event, and was done on the spur of the mo-ment. As he snapped the cord at the finish the timekeepers' watches record-ed 9 3-5 seconds, or one-fifth better than the run he had made in the inter-national competition in New York, a year ago last summer. The timer's announcement was greeted with wild Washington, Nov. 8.-The fact has come to light that Consul-General Lee is there in obedience to a summons from the state department. He did not come on a mission of self-convenience. This piece of information is of much inter-est. It was announced this week at the White House that President Clavelant had been work on his mes-Cleveland had begun work on his mes-sage to congress. General Lee's com-ing just now must, therefore, be to acquaint the president with the true sit-uation in Cuba. The general has never submitted a report to the state department on Cuban affairs, except on min-or and routine matters. It is learned that he did not, as has

been announced, leave a written report at the state department yesterday when he called on Secretary Olney. The intelligence conveyed to the secre-tary and later to the president was communicated verbally again today. The consul-general was at the White House in conference with the presi-House in conference with the presi-dent. He was also a visitor at the mavy department, being in consulta-tion with Secretary Herbert for more than an hour. This latter call has oc-casioned no little speculation, as the naval branch of the government is not mixed up in Cuban affairs. With stud-ied resolution Secretary Herbert has endeavored not to have the navy in-volved one way or the other in refervolved one way or the other in refer-ence to Cuba. As is well known, the home squadron has not been south of

That General Lee should reach Wash-ington at the time when the president is engaged in writing out the first pages of his annual report—which, according to custom, will refer to the country's Burke, a local newspaper man, some months ago agreed to leave the country in the event of McKinley's election. foreign relations-is significant. In the judgment of well-informed persons, the consul-general is here to inform the president that the revolution in Cuba

 When this method of carrying on an agressive campaign is considered by military men, it is no wonder to them that the war in Cuba has been prohonged so far, or that its end, without intervention by the United States, cannot be seen.
 POSTAL STATISTICS.
 Report of First Assistant Postmaster Frank H. Jones.
 Washington, Nov, 8.—First Assistant Postmaster-General Frank H. Jones.
 Washington, Nov, 8.—First Assistant Postmaster-General Frank H. Jones, in his annual report for the fiscal year ending June 30, 1896, says that there has during that time been a saving of \$3, 553. and also shows an improvement in the service of delivering the volume of mail matter. The number of presidential postoffices is 3, 651, the salaries of the postmasters being \$6,205,900 and the total gross receipts from these offices were \$85,282.384.
 Mr. Jones recommends that \$17,000,000

the total gross receipts from these offices were 35, 22, 354. Mr. Jones recommends that \$17, 000, 000be appropriated to compensate post-masters for the next fiscal year. He only asks \$11, 000, 000 for elerk hire. The delivery service has been estab-lished at twenty-four cities during the year and there are now but sixty-three entitled to it, but on account of the ex-pense, the remainder could not be been fitted. Experimental free delivery in towns and villages has shown a reduivery into in gross receipts in a majority of offices. An estimated expenditure of \$13, 226, 500 is made on account of free delivery service for the fiscal year 187-98. Negotiations are now pending for an exchange of money orders with Mexico. Mr. Jones recommends that a pen-alty be prescribed for the unlawfus uses of the frank of a member of congress and suggests \$200 fine in each case. He says the law was disregated during the campaign just closed. Wefers Makes New Time for 100 and 300 Yards. is making no headway, that there is no promise of an early ending of the struggle, and that as long as hostilities con-tinue American trade with the island will be seriously injured.

INJUSTICE TO AMERICANS.

A private letter received here today from Havana says that there has recently been exasperating interference there with American commercial inter-ests, and that Spanish officials have been accused of injustice and pecuniary irregularities in the cases of Amer-ican vessels. This subject, it is said, is of such importance as to demand the attention of the state department. The letter says that General Lee is familiar with the facts, and has promised to lay them before Secretary Olney. This must be another and a new topic which the consul-general will discuss with the authorities. Of course, these matters are only a few of those which make this government deeply interested in what is going on in Cuba.

It can be said that the president pur-poses to discuss Cuban affairs some-what exhaustively in his message to congress. The resolution of the senate and house relating to the recognition of the belligerents has never been referred to by the president. Since its adoption the resolution has been in a pigeonhole at the state department. The subject will, indeed, be the most important fea of the message, not excepting the relations of the country with Turkey. It would be the merest speculation to say just what the president will write, say just what the president will write, but the prediction seems a safe one from what can be learned that he will recite some interesting facts, and that his statements will be based upon the reports which General Lee has made or his two visits to the White House ycs-terday and today. A high official expressed the opinion

this afternoon that the President will speak rather emphatically on the Cuban speak factor emphatically on the Cuban ciltuation in so far as the rebellion on the island affects American interests, particularly those of a commercial na-ture. The official said that the prece-dent established by Generai Grant in this relation would be a guide to Mr. Cleveland. He also said that the Presi-dent of the disc said that the president had never favored the idea of recognizing the belligerents, as he doubted both the right and the advisability of this country thus incertering with the domestic affairs of a friendly Power. He believed that Mr. Cleveland Power. He believed that ar, cleveland would lay the facts before congress and say, in his message, that he now left the sottlement of the question to the wider discretion of that body. This was the course pursued in the case of Hawaii, after the failure of the attempt to restore the ex-Queen to the throne. The official was asked what he thought Congress would do, what action it would take, if the President's message showed that the situation in Cuba was as bad for American interests as has been reported. He replied:

"Congress will give directions to the President which will be quite positive in terms. Having submited the case to Congress for a decision, the Presi-dent will corry out the new direction." dent will carry out the new directions."

HOW THE WAR IS BEING FOUGHT. Today General Lee gave out some roday General Lee gave out some interesting information relative to the strength of the Spanish army in Cuba, and that of the insurgents. The army now under General Weyler has been as-sumed to overshadow that of the struggling men under Maceo, but that it consisted of such overwhelming it consisted of such overwhelming numbers was not imagined. General Lee shows that at present the total forces under the insurgents do not ex-ceed 45,000 men. Opposed to them are 210,000 finely armed, will-drilled, regu-210,000 finely armed, will-drilled, regu-lar soldiers of the Spanish army. These men are not actively in the field engaged in chasing and fighting insur-gent bands, but comfortably quartered in the towns and villages of the island. General Lee shows that possibly not 5,000 men of the Spanish army are to-day beyond sight of the towns, and this has been the case since the war be-gran two years ago. The insurants on gan two years ago. The insurgents, on the other hand, are always to the front,

WEDDING DEPENDENT ON M'KINLEY.

W. E. Kiner Claims His Bride on the Success of the Ohioan.

Ligonier, Ind., Nov. 8.-A unique election bet was paid yesterday in La Grange county in the marriage of W. E. Kiner, a Milwaukee traveling sales-man, and Miss Grace Dawes. The couple had determined to marry October 20. The announcement cards had been issued, the bride's trosseau had been prepared and the officiating clergyman gaged.

The couple were so interested in Mc-Kinley's success that both agreed in writing that if the Ohio man failed of election their engagement would be broken, the unique compact further providing that neither was ever to marry. Kiner returned to Milwaukee to await the result of the election, and yesterday returned to claim Dawes for his bride. Miss
