ELECTRICITY IS KING.

DR. GREEN'S ELECTRO-THERAPEUTIC INSTITUTE

607, 608 AND 609 MEARS BUILDING

Corner Washington Avenue and Spruce Street, Scranton, Penna.

The late ROBERT BARTHOLOMEW PROFESSOR OF MATERIA MEDICA, GENERAL THERAPEUTICS, and HYGIENE of JEFFERSON MEDICAL COLLEGE of Philadelphia, said in his last work on Galvanism: "The time is not far off when electricity for medical use will take the place of many drugs with the same phenomenal success that has marked the progress of this science in the moving of cars, lighting of streets and houses and for general motive power." It was in 1791 that GALVANI discovered the action of galvanism on the nerves by experiment on a frog. For 100 years galvanism has continued to grow in prominence as a cure for disease.

LET IT BE THOROUGHLY UNDERSTOOD that Dr. Green is a graduate in medicine and pharmacy, he has prescribed thousands of patients who have never had an application of electricity, but experience and study has convinced him, as it has Marton, Rockwell, Massey and others of prominence that electricity is the KING OF MEDICAL REMEDIES. Bear in mind that proper electrical treatment with first-class appliances, is NOT PAINFUL.

If you wish to know the result of Dr. Green's treatment for rheumatism write to E. E. Bostick, 207 East Cumberland street, Philadelphia, Pa. or care Seabury & Johnson, New York.

The best of references, no charge for consultation, an institute equipped with the latest achievements of Marton, Edison, Ranney, Rockwell, McBride, McIntosh and others. Electro Static Machines, Galvanic, Faradic, Sinusoidal (Magnetic), Galvano Vauteries, and electrodes of every description.

We have the finest X-Ray apparatus made.

With electricity as a basis of treatment we are successful in cases of Rheumatism, Gout, Paralysis, Eczema, Tumors, Skin Troubles, Indigestion, Dyspepsia, Wasting of Muscles, Poor Circulation, and all Nervous Diseases for which electricity is doing so much of late.

The blood clot causing Apoplexy and Paralysis can be dissolved and carried away by proper application of Galvanism and Faradism.

Cures of Catarrh are being made by the inhalation of ozone from the electrostatic machine.

We might mention hundreds of troubles which are amenable to electric treatment, but space will not permit.

Dr. Green treats all cases amenable to electrical treatment, is a graduate and experienced practitioner of medicine, has the best of references, and will charge nothing for consultation.

Those who cannot call should write for information.
