KING OSCAR MAY

But Will Probably Name the Fifth Jurist for the Venezuelan Court.

Importance of Salisbury's Admission Recognized by the English Newspapers -- Barrister Wheeler's

London, Nov. 12.—An official of the Foreign Office said to-day that it was not likely King Oscar of Sweden and Norway would be chosen to sit with the four Venezuelan arbitration jurists, ap-parently intimating that he would be represented by a fifth jurist to be nom-inated by himself.

In regard to the report published here morning that the cief justices of United States and Great Britain would not select natives of the United States, to act as arbitrators, it is said that this report is untrue, and it is added that the chief justices will have nohing to do in the matter. The St. James's Gazette, this after-

noon, publishes a leading article head-ed. "An Historic Moment," during the course of which it says: "Lord Sallsbury's great admission of the principle that the United States have the right to intervene in frontier disputes of the American powers and to compel the disputants to arbitrate altogether transcends in importance the question of the Guiana boundary. It is a formal recognition of the hegemony of the United States on the American continent and gives the president a position in the new world which the medieval popes and emperors tried vainly to claim in Europe."

G. F. Wheeler, the eminent barrister and chief clerk of the privy council, in an interview on the subject of probable composition of the Venezuelan arbitration tribunal, as far as Great Britain is concerned, informed a representative of the United Associated Presses to-day hat it was an unusual thing for judges to sit on arbitration tribunals It was more than likely, he thought, that eminent international jurists, such as Sir W. R. Anson, Warden of All Soul's College, Oxford, and Lord Davey. Lord of Appeal in Ordinary, would be appointed, though the latter would possibly refuse to serve.

FOR HIGHER TARIFF.

Tin Plate Makers to Fight for Protection.

Pittsburg, Nov. 12.—A conference was held by a number of tin plate manufacturers today to discuss the proposed reorganization of the associa-tion and talk over the prospects of a higher tariff on tinned plate.

It is claimed by members of the as-sociation that they do not need a rate as high as was fixed by the act of 1899, but that there should be an ad-vance of about one-half cent on the present rate of one cent a pound. An effort will be made to convince mem-bers of the ways and means committee of congress that this should be done.

FARMERS' CONGRESS.

The Third Day's Session Held at Indianapolis is Addressed by General Benjamin Harrison.

Indianapolis, Ind., Nov. 12.-The third days' session of the Farmers' National congress had two important features. One was an address by General Harrison and the other was the adoption of

a memorial to congress.

General Harrison was in a happy mood, and when he arose to speak he was greeted enthusiastically. In part he said:

he said:

I came here to make an acknowledgment of the compilment you have shown men by inviting me to appear before the congress. I supposed that politics is barred, as this is an agricultural meeting. I'm not an agricultural though born and reared on a farm. My education was paid for by the proceeds of corn and hogs. It is a custom of the time for men of a particular occupation to associate themselves together, to develop and cultivate mutual interests. Such organizations are to be encouraged, but we must not forget that lawyers, farmers and laborers all have interest, and that no class shail try to get the better of other classes. We are rejoicing that you are getting a little more for your wheat and corn, though it is at the expense of us who have to pay a little more for the thing we consume.

Then the general ventured a little Then the general ventured a little piece out into political waters. I have no patience with those people who are always fighting the air," he said. He advised men who believe that legislation is prejudicial to them to go about a fight in a systematic way, not "nghing the air." It was plain that the general was referring to a situation in the recent campaign. He advised that the recent campaign. He advised that public sentiment be focussed on whatever gestion of unusual import was brought before people, and that men go straight after what they want.

straight after what they want.

The memorial to congress was prepared by a special committee. After the memorial was read C. M. Hogg, of Ohio, moved that the paragraph asking that the duty upon wool as prayed for by the National Wool Growers association on year ago and embodied in the tion one year ago, and embodied in the memorial, be stricken out, and also that the time of holding imported wool in bond be extended thirty days.

The motion brought a wrathful reply from Judge Lawrence, of Ohlo, who charged that Mr. Hogg's interests were with the manufacturers rather than with the wool growers. He charged that the Dingley bill discriminated in favor of the manufacturer and against the wool grower. Mr. Hogg, in replying, said that 95 per cent of the manufac-turers were in sympathy with the American wool growers, and that the discrimination against American wools is because of the faulty condition in which they are but upon the market. The memorial asks congress to see to it that no trusts are organized that can extort exorbitant prices for farm products, favors the protective tariff policy, and asks, regarding wool, these changes in the Dingley bill; that the "skirtling clause of the act of 1890 shall not be applicable to the bill; that the pledge therein that it shall continue in opera-tion, "until August 1, 1898," shall be stricken out; that the duties on woollen rags, shoddy, mungo, flocks, nocks, wartes and other adulterants shall be made prohibitory, and that wool and woollen manufactures imported under its provisions shall not remain in bond-ed warehouses more than ten days.

SPAIN NOT IN A FIGHTING MOOD

Denials from Madrid of Alleged Signs of a Conflict.

WAR REGARDED AS MOST REMOTE

The Facts as to Spain's Proposed Note to the Powers--Withheld at Our Minister's Wish -- No Offense Was Intended to the United States Government.

Madrid, Nov. 12.-With reference to the dispatches from Washington re-ferring to the possibility of trouble be-tween the United States and Spain, it is semi-officially denied that the Span-ish premier, Senor Canovas del Castil-lo, has communicated with the powers in the sense indicated, that of seek-ing support against the United States. It is explained that the story is probably a rehash of the report circulated in August last, when Spain prepared a memorandum on Cuban relations with America, suggesting that the powers assist Spain in bringing amicable pres-sure to bear on the United States, But, on the advice of the ambassadors of the powers, the Spanish minister for foreign affairs consulted with the United States minister before sending the memorandum, and the latter had no hesitation in saying that the dis-patch of such a note directly after Presno nestation in saying that the dis-patch of such a note directly after Pres-ident Cleveland's proclamation calling for observance of the neutrality laws would be calculated to seriously affect relations between Spain and the United

States. The Spanish minister for foreign af-fairs thereupon assured Minister Tay-lor that the memorandum would be withheld, also stating that no offense was intended to President Cleveland or to the government of the United States. and that Spain had only desired to sound the powers with the view of contingencies which might arise out of

the presidential election.

It is now added that the possibility of war between the United States and Spain is regarded as being most remote, and it is pointed out that so far as desiring to force trouble with the United States, Spain remained perfectly neutral during the presidentia

DISASTER AVERTED.

The Presence of Mind of Charles Coppeck Saves Many Lives.

Chester, Pa., Nov. 12.—The prompt action of Charles Coppeck prevented, in all probability, great loss of life and the derailment of a north bound ex-press train at 7.10 tonight on the Pennsylvania railroad. He drove two of them back, but one of the became entangled in the ties and could not liberate itself. from Wilmington was approaching the
