At Drug Stores, or will be sent by U. S. Agent, F. F. ALLEN CO., 306 Canal St., New York, post paid, upon receipt of price. Book free upon application.

EFFECTS OF THE NEW STEEL POOL

It Will Force Outsiders to Manufacture Their Own Billets.

DEBARRED FROM COMPETITION

Cleveland Companies Will Probably Put Up New Mills in the Future. Opinion of the Editor of the Iron Age—Impossible for the Outsiders to Pay Billet Price and Keep Their Heads Above Water.

New York, Nov. 16.—The agreement which has just been entered into by the companies forming the steel pool has practically driven those outsiders who have heretofore been customers of the pool into a combination to manufacture their own steel. The agreement provides that the rolling mills for the product is so high that they will either be forced to shut down or do their own manufacturing. It is therefore considered more than likely that the Cleveland companies will soon put up mills of their own, as under the change they are debarred from competition.

The new agreement was entered into by the companies Friday night at a meeting in the Manhattan hotel, and differs radically from the agreement in both bills and of crude steel and the finished product. The former contract only dealt with crude material. In speaking of the agreement, Charles Kirschoff, editor of the Iron Age, said today:

"I regard the proposal to put up mills by the Cleveland companies as more than possible, but it is not sheer necessity that they do so. They are practically forced into a fight for their existence. The Cleveland companies are the one which started the movement, and I believe that all but one of the manufacturing concerns will not enter. The company will put up another hearth plant. The Union Rolling Mills will also stop buying billets of the furnaces in the combination.

"This matter has been in the wind ever since the old agreement was entered into, but it was delayed because it was not believed that the agreement would last long. There were too many weak spots in it. It was fallen apart, as was expected, because it was unjust to those who were not members of the pool because they did not make their own product. This injustice was the ailment which the agreement was made with crude steel in the form of billets. At the last meeting, however, the agreement was so changed as to take in the finished product also. In the old system, rolling mills which had a plant capable of turning out finished stuff sold this cheaply that it crowded out the finished product of those who had no steel plants. As the agreement exists at present, everything is included, except steel rails, which are a product of their own.

"The position of the outsiders is simply this: They must under the new order of things buy billets from the works in the pool, but the billet price has been lifted so high that it is impossible for them to pay it and keep their heads above water. What is the result? Just this—They must make themselves able to compete or go out of business.

"A change in the percentage of production to be allotted was also made at the Manhattan meeting, which is much more satisfactory to all members of the pool than it was before. Formerly it was based on a production of 2,000,000 tons a year of steel, but now the basis is 4,800,000 tons.

"None knows what his percentage is until the end of the month, when the commissioner of steel through whose hands all the transactions must pass has determined it. All mills can now sell freely what they please and to whom they please, but if the commissioner said that one has overran his percentage it must pay into the pool \$2 per ton on the over production, making \$2 per ton on all that it falls below its allotted percentage. A penalty fund of \$500,000 has been deposited by every company in the agreement to abide by these conditions. The new agreement had made no change in the price scale which has Pittsburgh as its basis, where the charge is \$20.25 per ton.

MR. GRISCOM INTERVIEWED. Pittsburgh, Pa., Nov. 16.—Secretary George S. Griscom, of the American Bessemer Steel association, which is better known as the billet pool, was at his office in the Carnegie building this afternoon, having returned from the meeting of the association in New York. Mr. Griscom said:

"We had a harmonious meeting lasting four days, during which we changed the specifications of the association to include all articles manufactured from billets instead of the billet basis. An ingot basis was not adopted, the finished product being deemed a better method. Of course, the changes apply only to the members of the pool who are engaged in the production of billets. The action was taken to make the agreement more satisfactory and for the purpose of forming a more solid contract.

In answer to a question Mr. Griscom said that the members were in harmony, one with another, and that no rupture occurred. "The price of billets," Mr. Griscom said, "will be not checked, and they will be sold as before. We think that price is a fair one. It was held all during the depression and no billets, or not many, were sold at that figure. No more would have been sold had the price been lowered to \$15, while the price being kept up steadied the market."

THE ONLY CONCERN OUT OF THE POOL. Mr. Griscom said, is the Shenoberger company. Another mill is being built at Troy, N. Y. He added, but it is not a factor in the market as yet and is not to be considered.

MISS TAYLOR ACCUSED OF LIBEL. Publisher of Truth Sued by Judge James Schoonmaker. St. Paul, Nov. 16.—Miss Rebecca L. Taylor is editor and publisher of Truth, a weekly paper of this city. A warrant was issued for her arrest on the charge of criminal libel today, the complaint being Judge James Schoonmaker, a Republican politician. The publication upon which the charge is made appeared in Truth Oct. 12 last, just prior to the Republican county convention.

Miss Taylor claims that she secured Schoonmaker to go to West Superior

WILLIAM J. BRYAN HAS BEEN TALKING

Opinions Expressed on the Eve of a Hunting Trip.

DEMOCRACY COMMITTED TO SILVER

The Boy Orator Thinks That the Gold Democrats Can Never Return to the Party Except as Silver Men, and That Education Improves the Silver Cause—He Will Remain in Lincoln.

Kansas City, Nov. 16.—William J. Bryan was in Kansas City a short while this morning, arriving at 4 o'clock from Lincoln, Mo., leaving at 8:45 for a two weeks' hunting and fishing trip in the Ozarks, in Yancy county, Missouri. He will join a party consisting of Governor LeCombe, Senator James K. Jones, of Arkansas; Congressman W. Campau, of Michigan; George H. McCann, Springfield, Mo.; Hon. Stacy S. Cook, of Mexico; Major Harvey W. Salmon, of Clinton, Mo.; and Colonel M. C. Wetmore, of St. Louis. The two weeks will be spent upon a seven thousand acre game preserve in Yancy county, right in the heart of the Ozarks. The preserve is stocked with deer, bear, turkey and game.

WILL STAY IN LINCOLN. During his brief stay in this city Mr. Bryan gave the United Associated Presses' representative a short interview. He said:

"I have no intention of removing from Lincoln. I so much as to necessity, I propose to do all I can for the cause of free silver. I don't want to be regarded as a leader, but simply as an ordinary workman, confident that the sentiments I advocate mean prosperity for the country. The copperhead party will grow daily. When the people are enlightened on a just cause they will see their duty. Education is the only way to the cause of silver. This year we got the heaviest vote in states where free silver has been introduced. The Democratic party presented to the people only in a limited way. In an instance, when the Democrats lost 4,000 votes, the vote was almost a tie. The people, seeing the light and will vote for themselves.

"The people who come back to the Democratic party, must come as silver men. There is no room for two Republics. The gold Democrats cannot come back to the party and run it on a Republican basis. They must come as silver men. The Democratic party is committed to silver and will continue to fight for it."

Mr. Bryan is looking well and outside of his voice, which is yet weak, is in remarkably good health.

PREACHER TO TAKE A NEW ROLE.

Rev. Mr. Pressler to Leave the Pulpit and Study Osteopathy.

Hamilton, Ohio, Nov. 16.—Rev. Mason W. Pressler, pastor of the United Presbyterian church, of this city, a brilliant and popular young clergyman, will resign his pastorate Jan. 1. He takes up the study of the new healing science of osteopathy at the original seat of the art in Missouri.

Mr. Pressler's interest in the new treatment grew out of the wonderful cure it worked on his wife. One of whose legs was about to be amputated, and whose health had been so ruined, evidenced a remarkable interest in the treatment, but his step occasioned great surprise among his parishioners.

It is the same treatment that Mrs. J. B. Foraker and other prominent Cincinnati ladies are employing. Mrs. Foraker's health has been so ruined that she is also quick and shifty. The easy manner in which the Irishman polished off O'Donnell and Slavin was fresh in the memory of local followers of the sport.

Mother stated to the representative of the United Associated Presses just before the opening bout that he never felt better for a contest, while Choyinski also declared himself in splendid form.

SKULL BROKEN WITH A HAMMER.

Nels Lucasohn Likely to Die from a Blow Given by E. H. Mosher.

Racine, Wis., Nov. 16.—Nels Lucasohn, a mechanic, lies at St. Luke's hospital with his skull badly fractured and will probably die. Eugene H. Mosher, a young attorney of this county, and a son of Thomas Mosher, assemblyman-elect from the Second district, is in jail on the charge of inflicting the injury with a hammer. Mosher recently purchased a house of the injured man, who has been occupying quarters in the basement while Mosher lived overhead.

This afternoon at 2:30 o'clock the two men had a quarrel about some window sash and Mosher alleges that Lucasohn assaulted him and frightened and threatened to strike his wife. He managed to get the man out of his apartment and he came back a second time, when he struck him with a hammer.

Lucasohn states that he walked out of the place and when eight feet away Mosher threw the hammer, which struck him. Doctors state that the skull is so badly shattered that the bones are sunk in the brain. Mosher's bond was fixed at \$1,000.

ATTACHED A PASSENGER TRAIN.

Plucky Sheriff Chained the Pulling Engine to the Train.

Columbia, S. C., Nov. 16.—Some time ago a Fairfield farmer's horse was killed by a train on the Charlotte, Columbia and Augusta road. The authorities of the road were in no hurry to settle and last evening the matter was put in the hands of the sheriff. When the passenger train arrived at Winesboro, Sheriff Ellison and Deputy Elliott were on hand.

While the latter presented a pistol at the engineer's head the former chained the drivers to the track. When the south bound New York and Florida vestibule main train came up, loaded with passengers, it could not pass. A north bound train from Columbia was also stopped. After a blockade of six hours the authorities paid the claim.

LOVER SHORTENS HIS NAME.

Oshkosh Young Man Cuts Off a Few Paragraphs to Please a Woman.

Oshkosh, Wis., Nov. 16.—Clemens F. Lucaschenski, of this city, is a young man and has a sweetheart. She objected to his name, averring that it was too long.

Today the county board passed on his petition an ordinance changing his name to Clemens F. Luck. This is satisfactory to the lady, and the wedding will soon follow.

RHEUMATISM CURED IN A DAY.

"Myetic Cure" for rheumatism and neuralgia radically cures in one to three days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by Carl Lorenz, 418 Lackawanna avenue, druggist, Scranton.
