## TUNKHANNOCK.

Today closes the two-weeks' session of court, and the temple of justice will resound no more to the "Hear ye, Hear ye" of the crier, or the "Now, gentlemen of the jury," of the pleading attorney, nor the dignified "Ninety days in the county jail and costs," of the judge until the year 1896 has passed into the great sea of eternity and a new year has dawned upon this great, restless, throbbing world. "Court" is a welcome diversion in the otherwise monotonous life of the farmer who complains the home and sines, as well as the majority of this county's population. For three or four days he can banish grubbing toil from his mind, till his chair against the wall, watching the barbers at the hotel and away their stories or talk politics. The occasional "man" at the court house into which he is drawn is tedious, for he is not sitting in one place or putting his mind to one subject for any great length of time, but the days are not so long as on the farm, and the evenings, while the wife makes and makes it very tedious. Courts are expensive machinery, but the farmer pays the court of appeals to exonerate, and he is entitled to the luxury of being a juror as often as he can get his name on the list.

A sad funeral procession wended its way to the railroad station yesterday afternoon to take train No. 4 for Pittston. It was Butcher D. E. Hess and family, who were hearing away their young child, little Gertrude, of the age of three years. She was accidentally burned on Wednesday by her clothes catching fire while playing about a heap of burning rubbish. Her sufferings were excruciating, but death came to her relief in about eight hours. The funeral services were conducted by Rev. S. C. Fowler, pastor of the Presbyterian church.

## UP AND DOWN THE RIVER.

The daring robbery at Meshoppen last Saturday evening is still a topic for conversation in that little town, Benjamin Shannon, a Wilkes-Barre man, was the victim. It is said that he displayed his money in public places, and when he started after dark to pass through the narrows, which separate Meshoppen from the bar, a couple of desperadoes of Dick Turpin thumped him on the head and toted away his pocketbook containing \$80. He sustained a bad scalp wound, and was unconscious for some time, but is now said to be recovering. The thieves are still at large.

The Towaco Review says that the Brainin Messenger is the best local paper in Wyoming county. It is, with one exception, as all the editors in the county, except Mac, will agree.

The time of the second express, between New York and Buffalo was shortened five minutes by the new winter schedule. A still greater reduction will probably be made next spring. Winter is not a favorable time for fast running.

Rev. J. C. Leacock was in attendance at the Epworth League conference at Avoca yesterday. The Avoca sub-district takes in Tunkhannock, Eatonville and some of the lesser places all the way down to Pittston.

The remains of the late Mrs. Richard Gunton, formerly of Wilkes-Barre, are now on their way east from Colorado Springs, and will be buried at her former home in this city.

## JERMYN.

James Lutey, an employee of the Delaware and Hudson mines, sustained a severe injury yesterday while engaged in the work of standing a prop to secure the roof. A piece of rock dropped from the roof and struck him on the back of the head, inflicting a deep gash. Dr. E. H. Hostler, of the hospital, delivered himself from the nose and mouth. It is thought that he will recover.

The entertainment and supper at the Congregational church last night, under the auspices of the Sunday school, was a success in every way. There was a very large attendance and the little ones did well under the training of Miss Jones, who should have great praise for her excellent work.

Wilcox, of Scranton, and several members of the society that dwell here in "Tunkhannock."

"It is but just to write about my daughter Cora, aged 19. She was completely run down, declining, had that tired feeling, and friends said she would not live over three months. She had a bad

and nothing seemed to do her any good. I happened to read about Hood's Sarsaparilla and had her give it a trial. From the very first dose she began to get better. # ELECTRICITY IS KING.

## DR. GREEN'S ELECTRO-THERAPEUTIC INSTITUTE

607, 608 AND 609 MEARS BUILDING

Corner Washington Avenue and Spruce Street, Scranton, Penna.

The late ROBERT BARTHOLOMEW PROFESSOR OF CLINICAL MEDICINE, GENERAL THERAPEUTICS AND HYGIENE OF JEFFERSON MEDICAL COLLEGE OF PHILADELPHIA, said in his last work on medical electricity: "The time is not far off when electricity for medical use will take the place of many drugs with the same phenomenal success that has marked the progress of this science in the moving of cars, lighting of streets and houses and for general motive power." It was in 1790 that GALVANI discovered the action of galvanism on the nerves by experimenting on a frog. For 106 years galvanism has continued to grow in prominence as a cure for disease.

LET IT BE THOROUGHLY UNDERSTOOD that Dr. Green is a graduate in medicine and pharmacy, he has prescribed for thousands of patients who have never had an application of electricity, but experience and study has convinced him that it has Marton, Rockwell, Massey and others of prominence that electricity is the KING OF MEDICAL REMEDIES. Bear in mind that proper electrical treatment, with first-class appliances, is NOT PAINFUL.

If you wish to know the result of Dr. Green's treatment of Rheumatism, refer to E. E. Hostler, 201 East Cumberland street, Philadelphia, Pa., or care Seabury & Johnson, New York.

The best of references, no charge for consultation, an institute equipped with the latest appliances, Electro-Static Machines, Galvanic, Faradic, Sinusoidal (Magnetic), Galvano-Vacutric, and electrodes of every description.

We have the finest X-Ray apparatus made.

With electricity as a basis of treatment we are successful in cases of Rheumatism, Gout, Paralysis, Eczema, Tumors, Skin Troubles, Indigestion, Dyspepsia, the Wasting of Muscles, Poor Circulation, and all Nervous Diseases for which electricity is doing so much of late.

The blood clot causing Apoplexy and Paralysis can be dissolved and carried away by proper application of Galvanism and Faradism.

Cures of Cataract are being made by the inhalation of ozone from the Electro-static machine.

We might mention hundreds of troubles which are amenable to electric treatment, but space will not permit.

Dr. Green treats all cases amenable to electrical treatment, is a graduate and experienced practitioner of medicine, has the best of references, and will charge nothing for consultation.

Those who cannot call should write for information.
