SCRANTON, PA., MONDAY MORNING, NOVEMBER 23, 1896.

TWO CENTS A COPY

Handkerchief Week OPENS Saturday, Nov. 21.

If you are a buyer of fine Handkerchiefs, you will let this opportunity pass without paying us a visit. A finer line never was laid on a counter, and there isn't one among the thousands offered that has not been selected especially for this.

Many bits of exquisite Daintiness will be found among the higher grade members, but even in the medium qualities there is much more prettiness than you'd ever expect to find for the prices asked.

THE GOODS ARE PERFECT In every instance, while the styles are the very latest out.

PRICE FACTS.

250 DOZEN Ladies' sheer. All linen handkerchiefs very fine weave, with the finest of 50c goods. Sale Price, 25c

500 DOZEN Ladies' Swiss Embroidered Handkerchiefs. The loveliest new designs imaginable. A big value surprise at the Sale Price, 25c

500 DOZEN Ladies' Swiss Embroidered Handkerchiefs. This is identical with our regular leading 25c quality, which is admittedly the best 25c value in the city today. Sale Price, 17c

500 DOZEN Ladies' Swiss Embroidered Handkerchiefs. Pretty goods that it is safe to say are worth 25c. Sale Price, 2 for 25c

100 DOZEN Ladies' all-linen hem-stitched Handkerchiefs. Half inch to one inch hem. As good as any ever offered for 20c. Sale Price, 2 for 25c

150 DOZEN All-linen hem-stitched Handkerchiefs, extra fine cambric, 1/2 and 1-inch hem. The best handkerchiefs ever offered at the Sale Price, 25c

If you want lower priced Handkerchiefs don't be afraid to ask for them. These quoted on above are FINE GOODS FOR FINE BUYERS.

GLOBE WAREHOUSE

ANNUAL REPORT OF SECRETARY MORTON

Economy Has Been Practiced in the Agricultural Department.

BIG EXPENSE FOR FREE SEEDS

The Secretary Calls This an Unnecessary and Wasteful Expenditure of Public Money and Hopes Congress Will Put a Stop Thereto.

Washington, Nov. 22.—In his fourth annual report the secretary of agriculture shows that with \$284,000,000 which may be saved from the appropriations for the current fiscal year, there will have been converted back into the treasury since March 7, 1895, over \$2,000,000,000. That this great economy was effected without any loss of efficiency he attributes in a large degree to the improvement in the personnel of the service under the civil service.

He states that during the past few years no less than thirty-two skilled men in the department service have left to take positions in institutes of learning at salaries averaging fully 50 per cent. higher than they were getting from the government.

The testimony of the department representatives abroad is that cattle from the United States arrive in English ports in excellent condition. The Glasgow market is especially recommended to American shippers, as in that city cattle from the United States compete with the very highest quality of British animals.

American packers are not participating in the proffered of the present importation of swine flesh and hog products in Great Britain as much as they ought to, because they do not care to meet the British demand.

The shipment of American horses to England is steadily increasing, and during the first nine months of 1896 more American horses were shipped into England than in any previous twelve months.

The seeds distributed gratuitously by the government during the present fiscal year weighed 230 tons and occupied thirty rail cars in transit. It cost the government to transport and distribute this seed, which was sent out gratuitously to plant 115 square miles of garden. Each congressman received enough to plant 16 2/3 acres. For the current year, the secretary calls this an unnecessary and wasteful expenditure of public money and hopes congress may in good time put a stop thereto.

REFUTES THE CAMPAIGN LIE.

Secretary Morton refutes the idea prevailing that the farmers of the West and South are more heavily burdened with mortgages than those of the East and Northeast. States along the North Atlantic, he says, present a picture of a country where farm mortgages, and New Jersey carries a debt of this kind greater in proportion to its farm valuations than any state in the Union.

Referring to the impression that greater rates of interest are charged for money loaned upon farms than for that loaned upon other kinds of real estate, Secretary Morton states that the rate of interest charges on mortgages upon residential property other than farm averages eighty-four hundredths of one per cent. less than the rate of interest charged upon farm loans. In seventeen states the average rate charged on the latter is less than that demanded for loans upon residential property. In two states the rates are the same upon urban and rural real estate.

During the fiscal year just ended the exported products of American farms aggregated \$570,000,000, an increase of \$1,500,000 over the preceding year. In spite of this there was a falling off in the percentage of agricultural products exported to the total exports, but this was due to the unprecedented sale abroad of American manufactured goods.

The principal market for American products is found in the United Kingdom of Great Britain and her colonies. Secretary Morton asks if a nation, which like the United States, possess the greatest power and facilities for producing and manufacturing things which the world demands, is not destined to monopolize the markets of the globe.

GEORGE FERRIS DEAD.

The inventor of the Famous Wheel Expires at Pittsburg.

Pittsburg, Pa., Nov. 22.—George W. G. Ferris, the inventor and builder of the Ferris wheel, died today at Mercy hospital, where he had been lying for typhoid fever for a week. The disease is said to have been brought on through over-exertion in his mechanical matters. He leaves a widow in this city, and friends in mechanical and building circles all over the country.

Mr. Ferris was born at Galtsburg, Ill., lived his early life on the Pacific slope, and was educated at Carson City and San Francisco. In 1876 he entered the Ferris Brothers' technical institute, New York, and graduated with high honors as an engineer. He first worked at locating coal mines and railroads in West Virginia, and then was employed by the Louisville Bridge company, at Louisville. In the capacity of inspector, he came to Pittsburg to inspect the structural work for the Louisville and Nashville railroad bridge at Henderson, Ky. After the completion of this work he engaged as an inspector on his own account. He organized the firm of G. W. G. Ferris & Co. in 1893. Ferris conceived the wheel which made him famous and which was one of the particular features of the World's fair at Chicago. The wheel was constructed in Pittsburg under the supervision of the inventor, and shipped to Chicago, where he watched the erection of it. Its capacity was 1,400 passengers, and thousands made the revolution in it. The wheel made a fortune for Ferris and gave him fame as an engineering genius all over the world. After the fair closed the wheel was erected in one of the Chicago parks for a time. Later Ferris sold his interest in it.

TURKEY AND THE POWERS.

The Report That Europe Will Manage Turkish Affairs Discredited.

LONDON, Nov. 22.—The statement that the powers were considering a scheme for the financial control of Turkey under European management, not believed by the best informed British and Continental newspapers. According to the report, Sid Edgar Vincent, governor of the Ottoman bank, was to be minister of finance, a Russian officer was probably to be minister of war, while a Frenchman was to be minister of the interior. The Grand Vizier was to remain president of the council of state. It was stated that the scheme provided for the raising of

a loan of £5,000,000, the placing of the police under European control, and a reduction of the army.

There is no doubt that Sir Edgar Vincent is making tour of the European capitals, trying to rearrange the Turkish finances. He has, however, no authority from the sultan beyond the right to extend European control of the revenues of Turkey on condition that a loan be raised. The sultan is willing to take the money he can get, and he will not abandon a shred of his despotic rule.

The supposition is that the powers will do nothing regarding Turkey until the several ambassadors at Constantinople who are now away on leave of absence return to their posts.

SURPRISED ON THE RACK.

Two Thieves Are Captured After a Desperate Struggle.

Buffalo, Nov. 22.—The two men arrested in the postoffice by Detectives Devine and Callahan, after a desperate fight, were surprised "on the rack" at police headquarters, and admitted they were George and Arthur Hawkins, the brothers who were arrested for robbing the jewelry firm of Hermann & Co., in Masonic Temple, that city, Nov. 9.

All but a few of the diamonds and other precious stones stolen and remaining to be accounted for, were recovered.

The thieves arrived here from Cleveland Saturday morning and rented a room at 128 West Eagle street. They had the stolen jewelry with them, except several diamonds which they had pawned in Detroit and Cleveland. After taking possession of the room they hid the gems and went to the postoffice to get their mail. The police detected the detectives and were arrested.

Arthur, who is 22 years old, and the younger of the two, when questioned, acknowledged that he and his brother were the men who robbed Jeweler Hermann, and said that he realized the fact that he was caught and was ready to confess.

Inspector Fitzpatrick, of the Chicago police force, was immediately informed and replied that officers would be sent with requisition papers.

ARMENIANS AT WAR.

Foes of the Sultan Pummel Each Other at Lynn, Mass.

Lynn, Mass., Nov. 22.—A meeting of the Benevolent Armenian Relief Association, which was held in Lynn, and the meeting was called to consider the advisability of combining. Some 250 Armenians were present, including a traveling organizer who had just returned from London, where he had been in consultation with the European heads of the revolutionary movement.

Several of the speakers who addressed the meeting in favor of amalgamation were interrupted. One became angry and asserted that those resisting the cause were not members and should not be allowed in the meeting. This was the signal for hostilities. Men in the gallery picked up the seats in which they sat and hurled them at their countrymen on the floor below, who were not slow to respond in kind. The row was becoming very serious. The speaker who had just returned from London, after the speeches there will be a musical entertainment by Prof. E. Pfaff, Huber de Blance, Mrs. German, Mrs. De Varna, and Dr. F. F. F.

The shooting of the Havana medical students was an atrocious example of Spanish barbarity in Cuba. On Nov. 22, 1871, the class was in the Spanish Spain's BARBARITY IN CUBA.

Shooting of the Eight Medical Students in 1871 to Be Commemorated.

New York, Nov. 22.—The Cuban pro-republican club, Oscar Primelles, will commemorate on Friday the twenty-first anniversary of the shooting of eight medical students by the Spanish volunteers in Havana. At 10 o'clock a. m., a religious service will be celebrated at the church of St. Leo. Father De Varna will officiate and pronounce a funeral oration. At 8 o'clock in the evening a meeting will be held at Chickering hall. Speeches will be delivered by Dr. Ricardo Gaston, president of the club; Manuel Sanguliy, Charles A. Dana, W. Bourke Cockran, Dr. Enrique Pons, and Dr. Varna. After the speeches there will be a musical entertainment by Prof. E. Pfaff, Huber de Blance, Mrs. German, Mrs. De Varna, and Dr. F. F. F.

GENERAL WEYLER IS INTERVIEWED

Perfectly Satisfied With the Results of Cuban War.

EXPECTS TO END IT IN A FEW DAYS

Claims to Have Had the Enemy on the Run in the Pinar Del Rio-Lle Locates Maceo Near Cristofol, Spanish Cruelty.

Havana, Nov. 22.—After a somewhat lengthy silence Captain General Weyler has at last been heard from, and in an interview he expressed himself as being confident of soon putting an end to the insurrection. General Weyler was interviewed in the Jaca camp, which is located in the town of Cristofol, Province of Pinar Del Rio. He said, after declaring that he was satisfied with the operations that have been carried on up to the present time, that he believed the insurgents did not have in the hills supplies sufficient to last them for more than three engagements. After these engagements, he believed it would be easier to estimate the resources of the rebels, but he believed it would then be found that the ammunition of the insurgents was exhausted. He added that he had still fifteen or twenty days work to perform at the camp to complete his preparations for an advance on the rebels, but that he would wait until after Christmas before he moved his troops forward. Then he would strike a mortal blow at the insurgents. When questioned concerning the position of Maceo, the rebel leader, General Weyler answered: "The last news I received from Maceo was that he had crossed the western railroad, (on which San Cristobal is located). He is unwilling to meet out advances, even when his forces are in good positions. We will see." This indicates that so far the results of the campaign of General Weyler are still indistinct.

Some distance to the west of San Cristobal are mountain passes, where a comparatively few rebels would be able to hold their own against any force that might be sent against them, and it is thought that General Weyler will not meet the elusive Maceo until he comes upon him unexpectedly in some of these mountain passes.

SPAIN PROTESTS.

London, Nov. 22.—A dispatch to the Central News from Madrid says that the Duke of Tetuan, minister of foreign affairs, has cabled to Senor De Pando, Spanish minister in the United States, to make an energetic protest to the American government against the insult recently offered to the Spanish flag at New Castle, Del.

what I have written on the subject for the American Israelite. As Jews had been taught to pray several thousand years before Jesus was born, they do not bow to him, but thank their own accord this time. President Cleveland has until now shown himself exceptionally broad minded, and it is with amazement that we see him pandering to the passions of those bigoted sectarians who have been endeavoring to unduly influence the secularism upon which this government is based."

MINE STRIKE SETTLED.

The Workers in Eastern Ohio Will Receive the Sixty-one Cent Rate.

Columbus, O., Nov. 22.—President M. L. Hatchford, of the Eastern Mine workers, notified Secretary Peabody yesterday that he has succeeded in restoring the sixty-one cent rate in Eastern Ohio, and tomorrow will mine along the line of the Baltimore and Ohio from Delaware as far west as Glencoe will resume on full time.

The miners in that district refused to work for forty-five cents on the ground that the coal mined did not come in competition with that mined at Pittsburgh. The Jackson miners are in the south sympathizing with the Hooking Valley district, but it is believed that they will be influenced by the action of Eastern Ohio miners to go to work soon and that the Hooking Valley operators will be forced to pay sixty-one cents.

LEADVILLE DIFFICULTY.

A Sympathetic Strike is Threatened in the Mining Camps.

Leadville, Col., Nov. 22.—The report of a probable sympathetic strike of miners in other camps in aid of the Leadville strikers is declared to be unfounded. Union officers declare no such move is contemplated at present by the western federation of miners or any other body. The Leadville strikers from Denver have just been added to the National Guard of Colorado, which is still engaged in guarding the mines which non-union miners are employed.

According to the present muster roll the Guard consists of 750 uniformed men, including officers, and about 200 emergency men who are not uniformed. This assembly is kept at an expense to the state of about \$2,000 per day.

KNIGHTS ADJOURN.

Annual Sessions at Rochester Close With Installation of Officers.

Rochester, N. Y., Nov. 22.—At yesterday's session of the Knights of Labor a new degree for meritorious work was adopted.

The new officers of the order were installed by retiring General Worthy Foreman Bishop. The finance committee reported on the good condition of the order's journal. The journal of the Knights of Labor. The general assembly took steps to place the Portland Wagon company in which it is interested, under the management of the order, and will secure it from financial loss. Adjourned.

BLOWN TO ATOMS.

A Piece of Skull Was All That Was Left of William Porter.

Pittsburg, Pa., Nov. 22.—William Porter, 13 years old, was blown to atoms by a charge of nitro glycerine this afternoon on the farm of Samuel DeLennough near Millerstown. Porter, in company with several boys of his age, went to where DeLennough is sinking an oil well.

The quantity of nitro glycerine, which was being used for drilling purposes, Porter in some way exploded it. All that the family has left is a piece of skull and the boy's shoes.

WRECK ON THE VALLEY AT AVOCA.

Fast Freight for the West Run Through an Open Switch.

At about 7 o'clock yesterday morning a big wreck occurred on the Lehigh Valley road at Avoca, in which several freight cars loaded with sugar enroute for Chicago, were thrown off the track and the big engine was wrecked. The engine lay beside the track a complete wreck and in what manner the engineer and fireman escaped could not be ascertained. The wrecking train was in a chaotic manner in which the engine was piled up against an embankment.

The fast freight for the West in charge of Engineer Bagley, of Pittston, and Fireman Houser, also of West Pittston, due in Avoca at 5 o'clock, was about one hour behind time and was running at a fair rate of speed when it ran into an open switch, upsetting two gondolas on the rear of a train enroute from the Lehigh Valley colliery for Pittston.

Brakeman Honer, of the wrecked train, saved himself by jumping and Brakeman Michael Kelley, of Pittston, was shaken up and suffered a dislocation of the arm. Wrecking trains were at once transferred to the scene and several hundred employes put to work clearing up the debris. The road for several hundred yards was torn up and it required all day and up to a late hour last night to clear the way for oncoming trains.

It was reported that the engineer and fireman were about the wreck yesterday, supervising the work of clearing it up.

Steamship Arrivals.

New York, Nov. 22.—Arrived: La Gascogne from Havre, Sailed: La Touraine for Havana; Workendam, for Rotterdam; Queenstown, for Li Champagne, at Havre; Sailed for New York: Campania, from Queenstown; Sighted: Southwark from Antwerp for New York, passed the Lizard.

HEBREWS OF CINCINNATI DO NOT LIKE HIS THANKSGIVING PROCLAMATION.

Cincinnati, Nov. 22.—The Hebrew contingent of Cincinnati is displaying a great deal of feeling over President Cleveland's Thanksgiving proclamation. It is claimed that for the first time in the history of the country a state paper contained a direct reference to the Savior. Rabbi Wise said last night: "I cannot do better than quote you

TIGERS AND QUAKERS WERE THE WINNERS

Yale and Harvard Meet Defeat in the Big Annual Games.

SEVENTY THOUSAND LOOKED ON

Princeton Had it Easy With the Sons of Old Eli, but Pennsylvania Had to Resort to the Fiercest Kind of Foot Ball to Win and Then Gained a Victory Only Ten Minutes Before Time Was Called—Games on Local Gridirons.

From a Staff Correspondent.

New York, Nov. 22.—Yale went down before Princeton yesterday because of the unquestionable all around superiority of the Tigers. Yale was not especially strong at any point. Princeton was weak at any point. Individually and collectively Princeton had the better team.

Between forty and fifty thousand people witnessed the games. There were 25,000 in the stands and boxes and on the coaches. Fully 5,000 more stood up along the fence which enclosed the gridiron. The victual, dead-head hill and the head of the crowd numbered 30,000 more. A fine drizzling rain fell all the time, but this had no terrors for the crowd. Every manner of man was there from the Van Der Stuyvesant who came with coach and liveried attendants to the little Harlem street urchin who had saved a dollar after weeks of great effort and sacrifice and made it up again after getting in by selling soap boxes and blocks of wood at 50 cents apiece to the spectators in the outer fringe of the crowd which stood up along the grid-iron enclosure. Nearly everybody took sides one way or the other and gave token of his partisanship by the display of some emblem or another. Yellow chrysanthemums were the favorites with the Princeton adherents. Yaleians were partial to violets. Many also carried orange or blue flags and a few, say about ten or twelve thousand, were armed with fish horns. It was the usual Thanksgiving Day football game, with all that day's incidents, only that it took place five days before Thanksgiving.

It was Princeton's intention to make it a kicking game as Baird, they knew, could kick fifteen yards better than Hinky. They however changed this style of play and pursued a tight end-and-out line-bucking football when they discovered there was a weakness in their plans for carrying out this style of play. They were the form for protecting the full back when making the kick. Princeton used a very open system. Five men were called back to form the defense. They were posted in the form of a letter "W" and the full back was at the extremities of angles of the letter.

BLOCKED THE KICKS.

The full back stood just back of the middle angle of the "W." When the ball was snapped someone of the Yale team managed as a general thing to dodge the Tiger who was supposed to block him and Baird would have his kick blocked. Three times old this happened at the very outset of the game and it caused Princeton stock to drop. The last time it happened it resulted in a touchdown for Yale. Rodgers blocked the ball and Cochran dove down the line and Bass fell upon it.

After this Princeton decided not to rely on its kicking and when
