### **BOOM IN THE TIN** PLATE INDUSTRY

The Manufacturers Expect Big Sales In That Line.

NOW READY TO PUT ON MORE MEN

Higher Tariff Would Insure a Big Demand for the Product -- Little Protection Now Given -- Only 20 Cents Difference Between the Standard American Grades and the Foreign.

New York, Nov. 23.—Manufacturers of tin plate throughout the country and their agents in this city are lookand their agents in this city are look-ing forward to a season of greater prosperity than has yet been known in the industry, and are making rapid preparations to supply the constantly increasing demand for their product. The impression, held in some quar-ters, that the price is to be advanced 15 to 25 cents a box, as the outcome of the Pittsburg meeting last Friday, is stated to be somewhat wide of the

One of the members of a well known firm said today.
"In view of the various statements made I think it better to make the statement exact. The Pittsburg agree-ment is not to go into effect Dec. I, as has been announced. It is in effect already, and has been since last spring. It was simply renewed at the meeting Friday. The basis of price agreed up-Friday. The basis of price agreed up-on is \$3.65 per box of 14x29, I. C. cokes, which is our standard weight and quality, weighing 107 pounds to the box. There are also proportionate differen-tials from lighter and heavier weights.

This charge covers delivery at New York, Philadelphia, Baltimore, and all intermediate points as far West as Milwaukee. To other points the freight tariff is added to the cost.

This agreement embraces practically every manufacturer, with possibly one exception, in the gas belt, and there is little doubt but that he, too, will enter. As to the outlook for the industry, compared with the foreign products, we pared with the foreign products, we are fully satisfied. The foreign plate today could not possibly be imported under 20 cents a ton over our prices, and it is a mistake to suppose that we are only a fraction below them. With a somewhat increased tariff, we can establish a great demand for the home

"There are few, if any, mills in the There are few, if any, mills in the west which have sold their products as far ahead as June or July, although there may be some instances. Most, however, have orders sufficient to run their mills on full if not over time to the end of the year.

HIGH TARIFF NECESSARY.

"It has been stated that orders have been placed with manufactures aggregating 750,000 tons. I wish this were so, but it is not, for that amount would mean a demand more than double the capacity of the mills. There is no pos-sible way for any one to discover what orders have been placed, as it is not likely that manufacturers will open their books to their competitors. It their books to their competitors. It can, however, be said that there is a largely increased demand, and that is as far as we can go. An increase will be made in the forces of men employed if the tariff warrants it."

A manufacturer of tin plate who has just reached this city, coming from the meeting at Pittsburg, said that he believed there would be a great boom in the industry during the coming administration.

"We had the most harmonious meeting," said he, "that has been held in our history, and the agreement was reached without discord. I believe that this was due largely to the result of the election and the certainty of pros-perity in the trade. It was hoped before the meeting that most manufacturers would enter the agreement, but it within three days. was thought probable that there would be a few opposed to it. We were, there-fore, more than surprised at the practical unanimity of choice."

Despatch from Madrid Concerning

the Spanish Flag Produces Ague. New Catsle, Del., Nov. 23.—The people of New Castle are much exercised over the dispatch from Madrid in reference to the alleged burning of a Spanish flag here last Wednesday night. The incident has been exaggerated. The members of Company H. Delaware national guard, had held a reception and nearly all had gone, when some one called the remarks in a speech

## GIRL BITTEN BY A MAD CAT.

The Animal Died and the Miss is Confined in a Dark Room.

Lock Haven, Pa., Nov. 23.—Three weeks ago Stella, the 14-year-old daughter of Mr. and Mrs. John Smith. of Eagleville, Center county, was but-ten by the old house cat. The girl was playing with several kittens when the mother jumped at her and buried its teeth in the forefinger of the girl's right hand. Three days later, the old cat showed unmistakable signs of hydrophobia and died.

The bitten girl was modes advised.

The bitten girl was, under advice of a doctor, placed in a dark room, where she can neither see water nor hear it running. As yet no symptoms of rab-les have appeared, but the girl will be kept quiet for at least a fortnight

Hundreds of Deserted Wives in a Western Town.

Topeka, Kan., Nov. 23.—The officers of a Topeka charitable institution yes-terday made the remarkable statement that there are over 400 deserted wives in this city of 35,000 inhabitants, and that every day adds to the list of the deserted or divorced women who ap-peal for work or solicit funds with which to buy bread for themselves and their children.

## CRANK ASSAILS A CONVENT.

Assaulted Nuns and When Arrested

Tried to Cut His Throat.

Baitimore, Md., Nov. 23.—A crank, who had tried late at night to force an entrance into the Highlandtown German convent, on the castern suburbs of this city, was captured yesterday evening by Father Dressman, a priest of the Church of the Sacred Heart, near the convent. Two weeks ago, the crank accosted two of the nuns on Highland avenue. He rushed at them and tore the veils from their faces, and escaped. Thursday night he rang the door bell of the convent, and when one of the sisters answered, used such revolting language that she ran away in fright. Last evening the man again Tried to Cut His Thront.

rang the convent door bell, and when Sister Theresa opened the door he demanded money. She slammed the door shut. Then there was a violent kicking at the door, and the air resounded with the curses. "They shut me out." he said, "because I am a Free Mason and an Odd Fellow, but I'm as good a Roman Catholic as any one cise."

When arraigned before the county magistrate the prisoner drew a razur magistrate the prisoner drew a razur when arraigned before the county magistrate the prisoner drew a razer out of his pocket and said, "I'll cut my bloody throat." An officer wrenched the weapon from his grasp. He gave the name of Oscar Andreas, of Wash-ington, D. C.

### SELF-CONFESSED EMBEZZLER.

John H. Hoffer Made Way With \$110,-000 in Six Years.

Lebanon, Pa., Nov. 23.—John H. Hof-fer, for twelve years cashler of the First National bank of Lebanon, is a self-confessed embezzier. An examination of his books show a defalcation amounting to nearly \$110,000. He has confessed judgment to the bank for \$30,000. His bond cannot be found. It is not known what amount it is for, nor who are the sureties. The em-bezzlement covers a period of six years. and the bank has been examined a dozen times since the peculations began without discovery.

Hoffer is under surveillance at his residence in this city and will be ar-rested and taken before the United States commissioner at Harrisburg. Marshall Winchester, United States bank examiner, has reported the short-age to Comptroller of the Currency Eckles, and the bank directors having made good all the money stolen, the bank did business as usual. A statement has been issued by the directors in which they personally assume all the liabilities of the bank. What made the defalcations of Cashier Hoffer so surprising is that he en-joyed the trust and confidence of the community to a very large extent, Although his numerous purchases of real estate frequently occasioned comment no one for a moment thought otherwise no one for a moment thought otherwise than that he was a shrewd business man, a careful financier and strictly honest. In consequence he held a number of positions of trust outside of the bank. He has for years been the secretary or treasurer, frequently both, of several lodges the Mount Lebanon Cemetery association, the Sons of America Hall association and other enterprises. persons.

New York, Nov. 23.-Another motive power—petroleum—is to be experiment-ed with on the Manhattan Elevated railroad. The system has already been used on one of the government torpedo boats, and is now being put into the government tug Nina.

To instal the system in an ordinary locomotive will make no change in its

external appearance. All dust, smoke and cinders will be done away with. and the locomotive can make the same run it has been accustomed to make with just half the weight of fuel, When seen today Inventor J. S. Zerbe, said: "The system has several important dif-ferences from others heretofore operated, particularly in the way that the oil is fed into the fire box. It has been the custom to inject the oil against a wall or within an arch. This system inverts the method. The spray is forced in over a peculiarly formed brick bed and not under it. As engineers says 'an arch never sleeps,' and when used is constantly giving way. This system dispenses with all arches or costly brick structures within the fire box. There will be no vent in the oil tank to give obnoxious inhalitions, as an entirely new system has been devised for preventing this."

Mr. Zerbe also said that a locomotive engineer could learn to take charge of an engine fitted up with the system

The southerner did not mourn much, as he displayed a large roll of bills and had money in every pocket. He began to show the three card trick at which he lost his money last evening. The well dressed and the former bet \$5 with the second stranger, which he won. Then he suggested to Berry that they play for a stake of \$5,000, of which the well dressed to be stranger was to furnish \$2,200 and Berting at the proportion of the course of the regiment will investigate the matter, which attracted no stranger was to furnish \$2,200 and Berting attempted to pour the same stranger was to furnish \$2,200 and Ber-

Berry consented and came to the city and drew the money from the bank. They returned and found the poorly dressed stranger waiting for them. The money was placed in a tin box, and the swindler said he would have to go to Elmira to get the \$2,200. Both the swindlers consented to allow Berry to take care of the lay one, they Berry to take care of the box and they started off. When Berry opened the box he found it contained nothing but a stone and some paper.

## STARVING IN BROOKLYN.

The Claimant to a \$2,000,000 Estate Threatens Suicide.

New York, Nov. 22,-Mrs. J. T. Jarocke, 54 years old, was found starving at home at 43 Smith street, Brooklyn, at nome at 43 Smith Street, Brooklyn, this morning by Police Captain O'Reilly. Last Saturday she wrote a letter to the editor of the Washington Star stating that she was going to commit suicide. The letter was remailed from Washington to Superintendent McKel-vey, who sent Captain O'Reilly to investigate the case.

For more than twenty years Mrs. Jarocke conducted a news stand outside of the old Brooklyn postoffice. She asserts that she is one of seven claimants to \$2,000,000 which she alleges was sent to this country by the Russian government years ago to the relatives of General Pulaski, who was killed at the slege of Savannah in 1781. She has a lot of papers relating to the case, which is now awaiting trial in the United States circuit court. She says the money is in the hands of the gov-ernment. Captain O'Reilly has notified the charities' commissioners, who will investigate the woman's case.

Henry C. Harmon, Who Disappeared in Wisconsin, is Safe and Sound. Superior, Wis., Nov. 23.—Henry C. He went into a thick timber belt and remained at the logging camps for nearly two weeks.

NEWS RECEIVED FROM GEN. GOMEZ

Has at His Command 35,000 Well ment Regarded as an Admission of

Washington, Nov. 23.—The Spanish legation is not likely to make any complaint to this government with reference to the action of the students at New Castle, Del., a few days ago, who destroyed a Spanish flag. There is no Spanish consul at New Castle and the incident, to that extent, was robbed of any official character, moreover both the Spanish and the American govern-ments have reached so perfect an un-derstanding with reference to circum-stances of this character that little if any importance is attached to them. It was said at the state department today, that if a Spanish flag displayed from a Spanish consulate or war ship had been offered an indignity the at-tention of the state department would be at once directed to the matter and a suitable apology demanded. It is re-garded as not unlikely that the "Jingo" press of Spain may attempt to magnify the incident, but there is excellent au-thority for the statement that it will receive no official attention either at the hands of the American or Spanish

authorities,
New York, Nov. 23.—The protracted silence of Commander in Chief Max-imo Gomez, of the Cuban army, which had caused considerable anxiety among Cubans here as to his safety has at last been broken, and the Junta in this city has received a communication from him dated Las Villas, Santa Clara prov-ince. In it General Gomez says that he has at his command 25,060 well requipped men, and that with these he intends to proceed to Havana province. The commander in chief writes that on account of the bad condition of the roads, it took this force of men twelve hours to pass a certain point. General Gomez adds that he is in good health, as are his men, and has every hope of

WEYLER'S STATEMENT.

General Weyler's statement that he will wait until after Christmas before he attempts to strike a death bolw at the insurgents under General Maceo in Pinar Del Rio province, is regarded by Cubans here as an admission that he can do nothing against the Cubans in their present invulnerable position. Madrid, Nov. 23.—Many contradictory statements have been received regard-ing the intentions of Captain General Weyler in his campaign against Maceo in the province of Pinar Del Rio, Cuba. It was stated some days ago that the campaign had resulted in failure and that General Weyler purposed return-ing to Havana. This was denied, and later the statement was made that the government had informed General Weyler that owing to questions of international and domestic politics, it would not be expedient for him to re-turn to Havana until he had won a decisive victory over the rebels. On top of the conflicting statements comes a dispatch today from the Havana correspondent of the Imparcial, who is generally well informed, stating with-out reserve that General Weyler will
