EXTRACTION OF TEETH WITH "ANAESTHETIC" FINEST DENTAL WORK IN THE CITY.

DRS. HENWOOD & WARDELL
36 LACKAWANNA AVE.

PERSONAL.

O. B. SCHRIEFFER.

O. B. Schrieffer, of the Sixteenth ward, has served continuously on the board of control since 1892 and was on Monday night unanimously elected to succeed as president of that body George Mitchell, who resigned on account of a change of residence. There are but three months remaining of ex-President Mitchell's term, but Mr. Schrieffer will probably be re-elected to serve another year, until the next election of controllers in 1895. He served one year in 1888 and 1889 by appointment, filling the unexpired term of Edward Chamberlain.

Mr. Schrieffer's home is at 411 Myrtle avenue. He is chief clerk in the Delaware county, Lackawanna and Western company's way-bill office. In 1885 he was born in Honnendale and came with his parents to Scranton in 1887. He entered the coal way-bill office of the Lackawanna company as an office boy in 1889 and earned a gradual promotion until he attained his present position of chief clerk. Until his election as president Monday night Mr. Schrieffer was chairman of the board of control's supply committee and a member of the new high school, teachers', text books and insurance committees. He was chairman of the supply committee in 1892 and of the insurance committee in 1891.

Miss Ella Clifford, of Ohio, is visiting her uncle, James J. White, of Harrison avenue.

John L. Salem, past captain of the Sons of Veterans of Hazleton, was in the city yesterday.

Captain Simpson, of Nanticoke, was the guest of his wife, ex-Chief of Police Simpson, yesterday.

Mrs. C. S. Alwood, of Horton, N. Y., is the guest of her sister, Mrs. E. Fuller, of Dickson avenue.

John Flack, chief engineer of the Economy Heat and Power company, went to Lockport, N. Y., yesterday.

Miss Agnes Gilroy, of Fourth avenue, and Miss Mary Gibbs, of the South Side, are the guests of Mrs. J. D. Regan, of Pittston.

Miss Lena Owens, of 645 Madison avenue, left yesterday for Clifford, Susquehanna county, at which place she will spend Thanksgiving.

Miss Annie Murray was married to John P. Collins, of Meyert avenue, in St. Patrick's church, Binghamton, last Wednesday, by Rev. Father.

Cut Flowers for Thanksgiving.
Call at McClintock's, corner of Jefferson avenue and Electric street. Roses, Carnations, Bouvardes, Violets and Chrysanthemums; also fine Palms, Ferns, Draconas and Rubber Plants for house decorations.

A Thanksgiving supper will be served at the Dunmore Presbyterian church Thursday evening from 6 to 10. A first-class orchestra will furnish music during the evening.

Huntington's bakery has a fine line of loaf, layer and fancy cakes. Leave your order early for Thanksgiving, 308 North Washington avenue.

Foot Ball Thanksgiving Day.
Scranton vs. Wyoming Seminary at Base Ball Park.

ABOUT MAKING GAS FROM COAL DUST
Letter Sent by J. Gardner Sanderson to the Engineering News

COMMENT THAT CALLED IT FORTH
Editor of the News Asked What Kind of Gas It Is That Can Be Obtained From Anthracite Culin in Such Large Volume as 110,000 Cubic Feet Per Ton—Mr. Sanderson Gives Him the Desired Information.

In relation to The Tribune's recent article relative to J. Gardner Sanderson's patent for producing gas from anthracite culm, the Engineering News of Nov. 21, says:

The making of gas from anthracite culm is being exploited in Scranton, Pa., by the Anthracite Gas Producer company, Mr. J. Gardner Sanderson, the inventor of the gas producer, and a partner before the Scranton board of trade on Oct. 19, describing the process in which he made the following statement:

"Now as to what we are able to do, with the millions of tons of waste coal stock piled about the mines, and with the great quantities of gas which can be obtained from anthracite culm in such large volume as 110,000 cubic feet per ton, and the statement that this gas is a large allowance, might also be made more definite, if the quality of the gas were stated. The number of pounds of coal to the ton is not stated, but if we assume 2,300 we obtain the following results: Culm 100 lbs., 2,300 horsepower for one hour, which is equivalent to 2,300 divided by 2,300 equals one horsepower per ton of culm. This heat is not what is claimed for the Bates Thermic engine, described in our issue of Nov. 25, and we beg to be excused from believing it without further proof than the statements of the inventor.

WHAT KIND OF GAS?
The figure 230 is probably a misprint for 28. It would be interesting to know what kind of gas it is that can be obtained from anthracite culm in such large volume as 110,000 cubic feet per ton, and the statement that this gas is a large allowance, might also be made more definite, if the quality of the gas were stated. The number of pounds of coal to the ton is not stated, but if we assume 2,300 we obtain the following results: Culm 100 lbs., 2,300 horsepower for one hour, which is equivalent to 2,300 divided by 2,300 equals one horsepower per ton of culm. This heat is not what is claimed for the Bates Thermic engine, described in our issue of Nov. 25, and we beg to be excused from believing it without further proof than the statements of the inventor.

In reply to the foregoing article Mr. Sanderson a few days later forwarded the following letter:

Scranton, Pa., Nov. 18, 1894.
To the Editors of Engineering News, New York, N. Y.

Gentlemen: I have received a marked copy of your paper calling my attention to an extract from a paper recently read by me before the Scranton board of trade. The article therein given in your issue of Nov. 19, 1894, and the article in your issue of Nov. 21, 1894, were not for the request of the secretary of the board of trade by whose solicitation the paper was prepared and read. As the board of trade has no jurisdiction over the matter, I am sorry to find that some of your correspondents have taken it upon themselves to publish a portion of the extract without my consent, and to make a statement which is entirely untrue.

THE CHEMICAL ANALYSIS.
Your assertion that "it would be interesting to know what kind of gas it is that can be obtained from anthracite culm in such large volume as 110,000 cubic feet per ton, and the statement that this gas is a large allowance, might also be made more definite, if the quality of the gas were stated." I have the honor to acknowledge the receipt of your letter of the 11th inst. and in reply to inform you that the chemical analysis as made at the laboratory of the Lackawanna Iron and Steel company is as follows:

CO ₂	3.80
O ₂	0.40
H ₂	28.80
CH ₄	0.85
N ₂	64.15
.....	100.00

I should get about 170,000 cubic feet of this gas from 2,300 pounds of culm. Notwithstanding many leaks, after washing and cooling, I collect in the holder about 10,000 cubic feet. You can verify this by sending an agent to investigate—but, perhaps, if you will consult authorities on this subject my opinion is unnecessary.

H. L. Steel, Chief Engineer, November 18, 1894, Page 48, tables 2, 3 and 4, give volume of anthracite culm from steam-blown producer per 100 pounds culm, varying from 7,500 to 12,149 cubic feet.

Mr. W. J. Taylor gives about 170,000 cubic feet per ton of coal as his experience. Now as to the allowance of fifty cubic feet of gas per horsepower per hour, there are responsible gas engine builders who guarantee their engines not to consume more than seven cubic feet illuminating gas per horsepower per hour. Prof. J. C. Smith, in his "Tables of Illuminating Gas," gives the following figures for gas engines, using lighting gas, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 584, 586, 588, 590, 592, 594, 596, 598, 600, 602, 604, 606, 608, 610, 612, 614, 616, 618, 620, 622, 624, 626, 628, 630, 632, 634, 636, 638, 640, 642, 644, 646, 648, 650, 652, 654, 656, 658, 660, 662, 664, 666, 668, 670, 672, 674, 676, 678, 680, 682, 684, 686, 688, 690, 692, 694, 696, 698, 700, 702, 704, 706, 708, 710, 712, 714, 716, 718, 720, 722, 724, 726, 728, 730, 732, 734, 736, 738, 740, 742, 744, 746, 748, 750, 752, 754, 756, 758, 760, 762, 764, 766, 768, 770, 772, 774, 776, 778, 780, 782, 784, 786, 788, 790, 792, 794, 796, 798, 800, 802, 804, 806, 808, 810, 812, 814, 816, 818, 820, 822, 824, 826, 828, 830, 832, 834, 836, 838, 840, 842, 844, 846, 848, 850, 852, 854, 856, 858, 860, 862, 864, 866, 868, 870, 872, 874, 876, 878, 880, 882, 884, 886, 888, 890, 892, 894, 896, 898, 900, 902, 904, 906, 908, 910, 912, 914, 916, 918, 920, 922, 924, 926, 928, 930, 932, 934, 936, 938, 940, 942, 944, 946, 948, 950, 952, 954, 956, 958, 960, 962, 964, 966, 968, 970, 972, 974, 976, 978, 980, 982, 984, 986, 988, 990, 992, 994, 996, 998, 1000.

CULM IS VERY PURE CARBON.
Now as to the quantity of culm consumed per horsepower per hour, Culm is very pure carbon—the liner it is the freer of slate, and the gas we produce with it is higher in CO and H and lower in N than that from prepared coal.

The "Dawson Gas" has become celebrated in Europe as a cheap power and fuel gas. It is made with anthracite coal.

Will You Catch On?
We Place On Sale FOR THIS WEEK
300 pair Men's Best Made Calf, double soles Shoes, formerly sold at \$4.00 a pair, **will sell for \$3.00**
All styles and every pair warranted.

SCHANK & SPENCER,
410 Spruce Street.

The accompanying cut shows the front elevation of a handsome business block which is being erected on Penn avenue by T. C. Snover. The building occupies a lot on the east side of Penn avenue, adjacent to the Baptist church on the south-east side. It is a four-story structure with a frontage of forty feet, and extends through to Oakford street. The plans were drawn by Architect Fred J. Amaden and contractor Schuchman & Sons. The work of construction will be in hand and expects to have the building completed by Jan. 1. The style is Renaissance. The front will be of Forest City stone, relieved by buff Indiana stone trimmings, and the building when completed will be an ornament to the city. The first and second floors will be occupied as a furniture warehouse. The third and fourth floors will not be completed at present.

FOR FAST RUNNING.
Traction Company Defendant in a \$10,000 Damage Suit Resulting from the Death of a 4-Year-Old Child.

Yesterday afternoon, in civil court, was begun the damage suit of Allan Lawrence, leader of Lawrence's band, against the Scranton Traction company. Mr. Lawrence is asking \$10,000 for the death of his four-year-old son who was killed by a Suburban car, April 4, 1894.

The boy, Merrit Lawrence, on the afternoon of the day in question, started from his home on Adams avenue near Olive street, to go to Everett's store to buy a penny's worth of candy. He rode on the rear of a market wagon as far as the store and then jumped off and ran directly in front of a Suburban car, which was going in the same direction as the wagon, and which was only about a rod behind it. The motorman saw the boy run from behind the wagon and dash across the tracks, but could not stop the car in time to prevent him from being struck. The little fellow was instantly killed and his body badly lacerated. The motorman and conductor were arrested at the time but were discharged upon the order of the coroner's jury which ruled that "the motorman of the car did all in his power to prevent the accident."

The contention of the plaintiff is that the company was negligent by reason of running its cars too fast. Before the case went to trial Attorneys Horace E. Hand and Major Everett Warren argued for a continuance on the grounds that one of their principal witnesses, George Thompson, Jr., was at West Point, and could not be reached by a subpoena. They also stated that they did not learn of his absence until yesterday morning. Messrs. Hulstader & Vosharg and John F. Scragg, attorneys for the plaintiff, respectively, and

AMUSEMENTS.
Probably no play has been received, during the last two seasons, with such universal commendation as the "Pennsylvanian comedy, 'A Romance of Coon Hollow.'" On its original production in Chicago the critics, while noting many minor defects, were a unit in predicting its successful career. The "Romance of Coon Hollow" reveals magnificent scenery and effects, novel and unique electrical features, and carries a troupe of singing and dancing darlings, who in their respective parts furnish its musical adjuncts, and a well selected dramatic company interprets its roles. All the scenery used is carried by the show, which is the largest on the road. "A Romance of Coon Hollow" is announced for the Academy of Music Thursday, Nov. 28. Grand family matinee performance commencing at 2:30 p. m. Evening at 8:00.

EYES EXAMINED FREE.
You can save money by buying spectacles of Silverstone, the eye specialist, at 309 Lackawanna avenue, only one flight over the Lehigh Valley ticket office. The following prices will satisfy you that they are the cheapest in the city: Solid gold-rimmed spectacles at \$3.50 per pair; filled bows at \$2; nickel bows from 50c. to \$1.50; aluminum bows from 75c. to \$2.00; colored glasses from 50c. to \$1.25. We have a large line of reading glasses, the best in the market, at 25c. per pair. Opera and magnifying glasses at reduced prices. Office hours, 8 a. m. to 12 m.; 1 to 6 p. m. Remember that your eyes will be examined free and satisfaction is guaranteed.

Underwear That Will Wear.
We are giving the best bargains possible in Men's Underclothing in fact, when the fit and quality are taken into consideration ours are much cheaper than many "so-called" bargains.

Men's Heavy Jersey Ribbed..... 50c
Men's Natural Wool..... 75c

MEARS & HAGEN,
415, 417 Lackawanna Avenue, Scranton, Pa.

diff. argued against the continuance, holding that the testimony of the witness in question has been taken by a court stenographer at the coroner's inquest and could be read at the trial. Judge Gunster refused to allow a continuance and directed them to proceed. Over an hour was spent in selecting a jury. This is all that had been done in the case up to adjournment.

The Sowka-Snyder case was not given to the jury until 3:15 o'clock p. m. At adjournment no verdict had been reached. The case is for the recovery of five feet of land. Sowka and Snyder bought a 140-foot lot which had a ten foot reservation in front of it. When Snyder divided the lot Sowka, who received the rear part, got only 70 feet. He thinks he ought to have 75 feet as the lot is with the ten-foot privilege 100 feet in length. The roughly estimated cost of conducting civil court is \$50 an hour. This suit occupied about ten hours, which means an expense to the county of \$500. The actual value of the land in dispute is \$25.

Judge Gunster yesterday granted a rule to show cause why a new trial should not be allowed in the case of John Kelly, administrator, against the Metropolitan Life Insurance company, of New York. The case was tried Monday, and was won by the defendant, the judge affirming the contention of the defendant's counsel, Major Warren, that pneumonia is a form of pulmonary disease, and consequently as the insured in question had died of pneumonia within one year after the issuing of the policy, the plaintiff could only recover one-half the amount of the insurance, as stipulated in the policy.

Hulstader & Vosharg and W. F. Boyle, attorneys for Mr. Kelly, give as their reasons for a new trial that the court erred in holding as a matter of fact that "pneumonia is a pulmonary disease," and in not submitting this question to a jury; also, in refusing to receive the evidence of Dr. Sullivan under the offer made by the plaintiff; also, in refusing to allow the common and ordinary meaning and acceptance of the phrase "pulmonary disease" to be proved; and, also, in directing the jury to find a verdict for the plaintiff only for the amount for which the verdict was taken.

DINNER SETS
We have an open stock pattern of Laughlin Semi-Vitreous China, of which you can select such pieces as you wish, or buy a 100-piece set for \$15.00. It is not a print, but painted in three colors, full gold. We stake our reputation on these goods. They will positively never craze. You can match it at any time.

Nut Pick GET them in time for Turkey Day. Which means you'd best come buying today, before they're gone—6 picks and a crack, 25c.

Child's Silver-plated Child's Sets—knife, fork and spoon in a satin lined lined box. Buy them now for baby's Christmas tree. Somebody lost money making these.

Plated on steel. Sets that ought to sell for a quarter, 1 gross go today for a dime, 10c.

Here's another: A fifty cent set if everybody had their ordinary profit. 1 gross go today at 10c a set.

And another: A plated child's set that would find many buyers at 75c. We'll be surprised if they last the day out at a quarter—25c a set.

Last—and best—A truly good set, good enough for anybody's dollar. Knife plates on the best of steel. Fork and spoon on white metal. 1 gross go today at 35c a set.

"Rogers" Teaspoons Seconds, to be sure. But don't ask us to point the flaws. We strongly suspect that the maker himself couldn't find 'em. 50 sets go on sale today at 65c a set. A trifle over 10c each for genuine "Rogers" teaspoons.

Lamp and Shade Brass and Onyx Lamp, real onyx pillar 6 inches high. Round burner, fully warranted. On this we sell an 18 inch all silk shade and set the few we've left for \$2.90. Five dollars' worth of lamp in anybody's land. Lamp and Shade for \$2.90.

Brush and Comb, Trays Another lot—the last of them we'll be able to get. We ordered all the importer had and here they are—few, indeed, for so many wasters.

75 cents worth of real china brush and comb tray for 25c. Only 7-2 dozen in the lot.

LAMPS, ONYX-TOP TABLES, SILVERWARE, ETC.

CHINA HALL,
MILLAR & PECK,
131 Wyoming Avenue.

"Rogers" Teaspoons Seconds, to be sure. But don't ask us to point the flaws. We strongly suspect that the maker himself couldn't find 'em. 50 sets go on sale today at 65c a set. A trifle over 10c each for genuine "Rogers" teaspoons.

Lamp and Shade Brass and Onyx Lamp, real onyx pillar 6 inches high. Round burner, fully warranted. On this we sell an 18 inch all silk shade and set the few we've left for \$2.90. Five dollars' worth of lamp in anybody's land. Lamp and Shade for \$2.90.

Brush and Comb, Trays Another lot—the last of them we'll be able to get. We ordered all the importer had and here they are—few, indeed, for so many wasters.

75 cents worth of real china brush and comb tray for 25c. Only 7-2 dozen in the lot.

LAMPS, ONYX-TOP TABLES, SILVERWARE, ETC.

CHINA HALL,
MILLAR & PECK,
131 Wyoming Avenue.

WALK IN AND LOOK AROUND.
DENTAL WORK.

If you have any Dental Work you want done you will save money by seeing me before going elsewhere. When I say I am inserting gold and silver fillings Guaranteed to save the teeth from further decay, I mean it. I am doing the very best dental work at low prices than others can and prove it by calling at my office. Examination costs you nothing. If you want a gold crown or

TEETH WITHOUT A PLATE
Call on Crown and Bridge Work. Remember, I make the one made—the very best 25c, gold and good weight—and the price is right.

DR. BARRETT, DENTIST
316 Spruce Street,
Next Door to Hotel Jermyn.
