He has spent the season chiefly in Paris, London and Switzerland, sending occasional letters to the Louisville Courier-Journal, and working as consider sourced upon a life EUROPE INDIFFERENT TO CUBA "It is perfectly certain," he replied, "that we are suspected in Europe of harboring the intention to annex Cuba. Scalloid. Columbus, Ga., Nov. 29.—A special from Seale, Ala., says: Jackson Young, a negro, was hanged at the county jail here yesterday. The murderer as-cended the scaffold smoking a cigar, seemingly indifferent to his fate until the trap was being adjusted. Then he showed signs of some fear. The man neither confessed nor denied his guilt, but said that he was ready and willing to die. Washington, Nov. 29.-Secretary Herbert has published to the navy in gen-eral orders, a decree of the govern-ment of France prescribing regulations for the entrance and solourn of vessels in the seaports of that country in time of war. Although intended for willing to die. The crime for which Young was hanged was one of the most brutal and revolting that was ever commmitted in this county. His victim, a young girl, about sixteen years of age, was his sister. She was found unconscious, with her skull combined and elastered in time of war. Although intended for the information and guidance of com-manding officers of United States naval vessels, the new regulations are of im-portance to the masters of all ships, and they have the additional interest to the general public of showing what store to protect ports are believed to with her skull crushed and shattered with an axe and her face mutilated. steps to protect ports are believed to be necessary by a great naval power, as well as the significance their enact-ment proclaims that France is omitting The girl recovered consciousness long ough to tell that her brother Jack had done the deed.
