## **BOWIE'S INJURIES** RESULT IN DEATH

Died Yesterday Afternoon in the Moses Taylor Hospital.

WAS INJURED ON SATURDAY LAST

Supervising the Work of Constructing the New Colliery Engineer Building When He Fell from a Window--Sketch of His Carcer--Was a Well-Known Business Man.

Contractor Edward Bowle, of the firm of Muldoon & Bowle, died at 5.30 o'clock yesterday afternoon at the Moses Taylor hospital from the injuries sustained Saturday afternoon in falling nearly 50 feet from a window near the top of the new building of the Colliery Engineer
Co., in the rear of Wyoming avenue
between Mulberry and Vine streets.
Mr. Bowle was born in Wexford county. Ireland, 47 years ago, and came to
this country with his parents when he

When Burke Bros, embarked in busi-ness for themselves he became their superintendent and retained that position until a few years ago when he as-sociated himself with P. Muldoon and organized the firm of which he was a partner at his death. The firm has done some of the largest work in masonry in Scranton. The abutments of the Roaring Brook and Linden street bridges and the heavy masonry of the Mears' building were built by it, and the contract for the building of the Colliery

Engineer company was about completed when he met his death.

### cemetery. FENDER SAVES SEVERAL LIVES.

All the Lives Possessed by One Tough West Side Boy.

There is at least one West Side urchin who has as many lives as a cat. He miraculously escaped what seemed certain death beneath the wheels of a trolley car last night and then got away in the excitement before his name could be learned.

As an inward bound car was speed-

ing at the usual rate past the Central Railroad of New Jersey depot on West Lackawanna avenue one of three boys who were playing on the street darted toward the track and attempted to cross it ahead of the car. The motorman clanged the gong and threw his weight upon the brake lever with such force that the quick stoppage of the car was a signal to the passengers that some-thing had happened,

Something did happen, The fender struck the lad and sent him into the air with such a business-like motion that when he landed he bounded up against the headlight and smashed the glass. He then rolled off the fender in front of the car which was yet moving. It stopped with the boy beneath the fender. The motorman, conductor and sev-

eral passengers and pedestrians rushed to gather the lad's bruised and bat-tered remains together, but he did that himself and scampered off before a hand could be extended to help him.

## NOW FOR THE TURNPIKE.

Abington Farmers May Use the City' \$1,500 for a Road.

William Streator and Norman Leach. the Abington farmers, who propose to build a turnpike parallel to the Provdence and Abington thoroughfare can now go ahead with their project as far as Scranton is concerned. Mayor Bailey yesterday signed the ordinance accepting the proposition of the two men to build the turnpike and appro-

priating \$1,500 for the purpose.

According to the ordinace there is to be a 16-foot roadway and the city is not to contribute its \$1,500 until the city solicitor shall have been satisfied that the warrants making the road free for all time are clear and the street com-missioner shall have approved the construction of the road.

at the Frothingham. Herrmann, otherwise known as "the Great," pleased, astonished and thoroughly mystified a large audience at the Frothingham last night. It is many years since Herrmann last appeared in Scranton and during that period he has aged somewhat and his face has grown several shades paler. Last night it seemed almost ghastly by contrast with his raven black hair and satanic look-ing moustache and imperial.

He began the evening's entertainment with thirty minutes of legerdemain during which time he did a number of very neat card tricks, caused watches to fly through the air in an astonishing to fly through the air in an astonishing away and in general prepared his audi

MERIT MAKES IT FAMOUS. The Only Remedy in the World, Except a Surgical Operation, That Will Certainly Cure Any Form of

The study of physicians, the experi-ments of chemists, the loudly adver-tised pretensions of quacks, have been for years expended in one direction; to find a pile cure that would cure. The results have been a number of harmless and inmost cases useless ointments, suppositories and even in-

ternal remedies, which the public have weighed in the balance of experience and found wanting; nearly all of them gave some relief, but nothing ap-proaching a radical cure resulted from these preparations. The remedy required is one which will immediately stop the pain so severe in many cases of piles, and then by contracting the small blood vessels (capillaries) to their normal size, produces a radical cure by reducing and finally absorbing the tumors and heal-ing the inflamed, raw mucous surfaces. Until two years ago, no such remedy had been produced, but at that time a suppository was placed upon the market, which has since proven itself to be the long sought permanent cure for this common and distressing troubles.

bie; it has rapidly become famous throughout the United States and Canada, and is now sold by nearly all druggists under the name of the Pyramid Pile Cure.
It is now the best known, because its merit and safety have advertised it wherever used. It has been advertised by word of mouth, from one suf-ferer to another; people who have tried everything else, even submitting to painful and dangerous surgical opera-tions without avail have finally found that piles may be cured without pain and without expense, practically, as the Pyramid Pile Cure is sold for the

nominal price of 50 cents and \$1 per The Pyramid instantly stops all pain and at the same time contain no co-caine, morphine or narcotics; the acids and healing properties contained in the remedy speedily remove, cause a healthful, natural contraction and absorption of the tumors it will cure any form of rectal trouble except cancer and advanced fistula, which, by the way, nearly always result from neglecting proper and timely treatment above stated, can furnish you

follow. Then came his hypnotic won-der "Trilby." He placed Mme. Herr-mann on a board after having hypnotized, or at least pretended to hypnotize her, and then after a few passes with his hands the board containing the body of the woman was drawn upward from the chairs on which it rested and for several minutes remained suspended in mid-air without apparently any thing to hold it.

The "Asiatic Trunk Mystery," in which in the course of ten seconds he caused a wenderful substitution, and The Artist's Dream" astonished the audience. Mme, Herrmann gave four of her beautiful dances with marvelous electrical effects and the evening's entertainment closed with another short season of legerdemain by Herrmann.

The magician travels in princely style. He has one car luxuriantly fitted up in which he journeys from place to place. In another he has a well ap-pointed stable containing five horses pointed stable containing five horses which are carried about for the use of himself and Mme Herrmann. They are all blooded animals and the magician takes great pride in them. He enjoyed a ride about the city yesterday after-noon behind two of them.

## Tours to California.

California has been most fittingly termed the "Italy of America." All the delicious balm, the cloudless sky, and the rich verdure of the great European peninsula are duplicated in this sunny land of the Pacific. Here nature heaks in the sunshine of her own ture basks in the sunshine of her own beauty; and here she has established her own sanitarium, where eternal spring inspires everlasting youth. With the snow-mantled peaks of the Sierras upon the one hand, the calm Pacific with its soft breezes upon the other and a veritable paradise, of flowers, fruits, and plants between, man can find and needs no lovelier land. To

visit such a country is a privilege, a blessing.

The Pennsylvania Railroad company, recognizing the need of a more com-fortable and pleasant way of crossing the continent has inaugurated a series of annual tours to California, running a through train of Pullman palace cars from New York to the Pacific coast, and stopping at the principal points of interest en route. The great popularity of these tours demonstrates the wistern of the receptor.

the wisdom of the movement.

For the season of 1897 three tours have been arranged to leave New York Philadelphia and Pittsburg, January 27, February 24, and March 27. The first tour will run direct to San Diego via St. Louis and the Santa Fe route, and return from San Francisco via Salt Lake City, Denver and Chi-cago, allowing flye weaks in California
