Grip Here Again Dread Baccilli which came from Russia in 1889 still at work.

If You Have a Stubborn Cough and Sore Throat, You Are a Victim.

Epidemic Checked by "77"

Grip is here again but it is here in a much milder form than it was in 1889 and 1890, when it counted its deal by the thousands on both sides of the At-

Inntic.

The malady has been prevalent for perhaps a month, but it is only within the last few days that it has been recornized as our dread visitor from Russia, who came in December, 1889. At first the doctors passed the cases off as colds, but they have found them rosubborn and unyielding to treatment that they now are taking the more serious view.

LIKE A COLD, ONLY STUBBORN. Take a Cold, only Stubborn.

The symptoms as described by physicians in all parts of the city are first a slight fever with chilis, followed by a catarrhal condition of the head, determing to the throat and even to the harynx and bronchial tubes. In most cases there is a most distressing and stubborn cough. The severer cases run for weeks unless checked by the use of Dr. Humphreys' Specific "77."

"77" meets the epidemic condition and is the cure for all its manifestations, Taken early, cuts it short promptly.

"72" breaks up a Cold that hange on

'77" breaks up a Cold that hangs on. A small bottle of pleasant pellets, fits your vest pocket; sold by druggists or sent on receipt of 25c.; or five for \$1.00. Hum-phreys' Medicine Co., Cor. William & John Sts., New York.
