What Sarah Bernhard says

We Lead the March

And All the Fashionable Ladies Fall in Line.

We make no clearance sale announcements in order to get rid of a lot of unde-sirable stock. It seems somewhat strange that so many of our neighbor merchants come out with flaming announcements of remarkable reductions in all their line of goods about this season of the year. Do you not think those clearance sales some-what deceptive? Not that our merchants would do it intentionally, but they are simply resorting to a custom that has become popular and catches the eye. We have an extraordinary advantage in that we at all times sell our goods at the low-est possible figures, and as a result command a big trade, winter, summer, spring and autumn, dull seasons and brisk seasons. The immense business that we do enables us to sell the newest articles in the market. We do not walt until an ar-ticle is shop-worn before we reduce our
