Brief Mention of What Is Doing in the Pleasure Way.

BEN HUR RECEIVES MUCH ATTENTION

The Spectacle Has Prevented the Ordinary Number of Social Events. A Week of Banquets and Minor Parties -- Few Announcements of George, from Wilkes-Barre; Mr. and Future Affairs -- Personal Paragraphs About Movements of Well-Known Persons.

Ben-Hur and the demands upon the time of the participants have prevented the usual indulgence in social pleas- more. ures this week. Society isn't objecting, however, as the spectacle has proved an admirable source of pleasure to two large audiences and will be as well patronized this afternoon and evening.

Scranton gave an evidence of the compliment expressed by Rev. Dr. Arthur F. Pierson, editor of the Missionary Review, at Wednesday night's interdenominational missionary meeting in the Elm Park church. He contrasted the

meeting with one two-thirds its size held recently in Carnegie hall, New York city, and said Scranton indeed seemed to be the Christian community that he had always pictured. It was a grand meeting in which Rev. Dr. James McLeod, Rev. Dr. Joseph K. Dixon, Rev. E. L. Miller, Rev. Dr. S. Logan and Rev. Dr. Charles E. Robinion participated.

Captain and Mrs. S. M. Johns have taken charge of the West Side Volunteer corp and during the past week they have revived the corp which of late has been noticeably inactive. Our System of Education Fails in the Development of Character.

From the Citizen.

Reade schools, if it is to have much com-mercial value. A good foundation of character will last through life and prove its usefulness in many unexpected ways, much is a school of the Nothing reveals more clearly how great has been the dependence of ethics upon religion than the fact that when religious caching ceased in the schools the itea of eaching ceased in the schools the itea of eaching ethics separately was hardly en-tertained, and has received to this day but cant acceptance. It was the very depth of proviction about religious principles and There is a pathetic absurdity in the universal acceptance of the formal proposi-tion about virtue, while in practice it is conviction about religions principles and forms which excluded religion from school instruction. The feeling of each sect was better no religion than non-conformity to theirs, although there would have been o theirs, although there would have been are quite contented with anything less. Some of us have a little feeling about our souls, but in our secular lives it is shown tore philosophy in such a maxim as any cellgion rather than none. So it came about that the elementary schools were levoted to instruction which ignored rec. mostly in a decent regret that other things have actually such a preponderating im-portance. The clergyman's living depends ognition of the greatest force in human facts having chieffy a commercial utility. Ethics, morals, attention to the founda-tions of character were disregarded, in arranging programmes for the disciplin-ary hours of child life, because it was so much the habit to connect these things with religion that they were banished with it as a matter of course. This heads affairs, that they might teach methods and facts having chieffy a commercial utility. with it as a matter of course. This indi-rect consequence of lack of religious unity has borne its fruit in a somewhat me-chanical system resulting naturally from the absence of the highest possible motive underlying the educational plan. To equip children with certain tools for use in winning a livelihood, and to give them access to whatever knowledge may come from the reading they chance to do, is a good motive, but it is not comparable to a conscious purpose to develop advantage to the standards. These standards the stan conscious purpose to develop character thoughtful people who will not admit that our higher intellectual and spiritual life has suffered in the sharp struggle for and encourage morality. The idea that the proper places for children to be taught religion are at home, in church, and at material prosperity; that we have accept-ed too frankly in business, politics, reli-Sunday-school, is well enough in theory and it must serve in practice, as applied to gion, and education, standards which are celligion only; but the accentance of , effnot the highest. This feeling, that with all our material success there is still soms-thing left to be desired, has never been religion only; but the acceptance of tell-glous precepts is much easier than the practice of morality in the common af-fairs of life, and it is deeply to be re-gretted that the ethical influences which go with home and church teaching-where entirely wanting, and it has been quiek-ened by the threatenings of the last few years. Consciences are awakening with such influences exist-are not supplement. the perception that a certain kind of suc-cess has not succeeded as well as we fan-cled. Our people have at bottom too much ed by an education in school which has for its principal atm the development of moral sense, too much faith in what is same and sound in public and private life,

a sense of responsibility. If the schools must leave religion alone, it does not fol-low that they are problisted from incul-cating that morality which is common to the Paganism of Plato, Epictetus, and Marcus Aurelius, to all Christianity, and to Judaism Dr. J. M. Rice says in The Forum for December, 1894, that "there is substan-tially an agroement to the effect that the general aim of the elementary schools of our country is to develop a moral indi-vidual; endowed with the power of im-demendent thought, the ability to earn an vidual, endowed with the bower of a dependent thought, the ability to earn an honest livelihood, culture, refinement, and a broad and intelligent interest in human content. There is not the order of the state of t a broad and interingent interest in function affairs." There may be such a general some way by which the public school can segreement among those who have thoughtfully constructed a theory as to doctrines about public and private virtues.
