

DOINGS OF A DAY AT WASHINGTON

Senate Hears Speeches on the Pacific Railroad and Nicaragua Canal.

MR. VILAS KEEPS UP THE BATTLE

Enters Upon His Third Day's Talk on the Canal—An Election Contest is Decided in the House—The Secretary of the Interior Presents Statement Regarding Gold in Alaska.

Washington, Feb. 2.—The two resolutions offered last week by Mr. Allen, of Nebraska, looking to the impeding, or preventing of the sale of the Union Pacific railroad property under a judicial decree of foreclosure, were today discussed at much length by Mr. Thurston, of Nebraska. He argued in contradiction of Mr. Allen's contention that the right of the attorney general to appear for the government in the foreclosure proceedings was absolutely beyond question. He also declared his belief that the people of the United States, were not, and never would be, ready to enter upon government ownership and operation of railways. The morning hours expired before Mr. Thurston finished his speech and the resolutions went over till tomorrow.

Mr. Vilas occupies the floor all the time in the delivery of his third day's speech against the bill.

The Nicaragua canal bill was before the senate for the remainder of the day's session. Mr. Vilas occupied the floor all the time in the delivery of his third day's speech against the bill. The speech was varied with quotations from the lives of the past and present, and as it was apparent that Mr. Vilas was "talking against time," the friends of the bill made a rather feeble effort to "sit it out" but eventually yielded to the inevitable and agreed to an adjournment which took place at 12.30.

CORNETT-SWANSON CONTEST.

The discussion of the contested election case of George W. Cornett vs. Claude A. Swanson from the Fifth district of Virginia, occupied nearly the whole of today's session of the house and by an overwhelming vote Mr. Swanson's title to the seat was confirmed by the house. The case came from the committee on elections No. 2 which reported in favor of Swanson. Three Republicans, favor the majority membership, however, recommended that the seat be declared vacant on the ground that the Virginia election law, under which the election was held, was unconstitutional and therefore that there was no valid election. This view was advocated by Mr. Thomas, of Michigan, and antagonized by Messrs. Jones, of Virginia, and McCall, Mr. Thomas was unable to get a yeas and nay vote on the question, only twenty-one seconding his demand for a vote, 127 against it.

GOLD IN ALASKA.

The secretary of the interior today sent to the senate the geological survey report on the gold deposits in Alaska. It shows the presence of a gold belt 300 miles in length, which enters the territory near the mouth of the Yukon creek and extends westward across the Yukon valley. It is the opinion of the geologist that it is practicable to prosecute quartz mining throughout the year in this region. Large areas of bluminous coal was also reported in the river. The report says there can be little dispute as to the boundary line where it crosses the gold belt, as it is cut in two by the 141st meridian.

THEY'RE STILL AFTER PINGREE.

Fight to Oust the Mayor of Detroit is Transferred to Local Courts.—Detroit, Mich., Feb. 2.—The fight to oust Governor Pingree from his office of mayor of this city, was transferred to the local courts today. D. W. H. Moreland, a member of the board of public works, today applied for and obtained a mandamus from the circuit court for common council to show why it has not recognized that by accepting the office of governor, Hon. Hazen Pingree vacated the office of mayor and directed that the vacancy be filled at the charter election in April. The order is returnable Feb. 12.

DYNAMITE CASE CONTINUED.

Winterstein Cannot Go to Trial on Account of Absent Witnesses.

Blountsburg, Pa., Feb. 2.—The case of Clinton Knorr and Lloyd S. Winterstein, who are charged with an attempt to blow up with dynamite the residence of Hon. Levi E. Waller, a prominent lawyer of this place, came up this morning, on a motion of the defendants to quash the indictment. Judge Metzger, of Williamsport, was on the bench, he having been requested to hear the argument by Judge Keeler, who in consequence of his intimate business and social relations with the defendants had declined to sit as a referee in sitting on the bench in the case. Knorr in his confession when arrested

PROTECT AMERICAN LABOR.

From the Philadelphia Ledger. Congress is to be called, it is confidently stated, to meet in its special in extraordinary session for the purpose of passing on the statute books a tariff act more amply protective of American capital and labor than the present one. The attainment of this object will be secured, it is declared, by imposing such additional duties upon foreign goods as will be sufficient to discourage their importation. The result of which will be the lessening of alien competition in our home markets. That such a course is expedient should be a source of higher duties would be indubitable if the importation of foreign cheap labor itself were discouraged; but our immigration laws, which are not so strict as they should be, do not, it is contended, encourage, promote and foster it. These laws were originally based upon the magnificent idea of the free and untrammelled entrance and asylum of the oppressed of all countries, that upon its broad and hospitable hearth and about its generous table there should be room and welcome for all. The theory is beautiful—as a theory—and it was wise and commendable as an actual condition at the time it was formulated by the founders of the Republic.

That, however, was a long while ago; the founders have passed away and new conditions have arisen and a welcome for all comparatively a few years, under the limited restrictions of the early laws the character of immigration was such as to render it desirable and the committee is welcome. They were commonly fairly intelligent, hardy, industrious, frugal folk from England, Scotland, Wales, Ireland, Germany, France, Switzerland, the Netherlands, Norway and Sweden. They were not without means; they were more or less educated; they were people of energy and notable. They were, as a rule, widowers, cleared it, set up their homes, created farms, factories, cities, beginning generally by building cottages and school houses here to room and welcome for all their home, their country. They quickly assimilated with the native born; they learned our language, adopted an eastern mode of dress, and, in the various occupations, they became in deed and fact American citizens. In ever lessening numbers they continued to come, and are still coming, but there are also coming in every ship hordes of a different sort, who represent the dregs and scum of Old World civilization. In great proportion they represent vice, ignorance, abject poverty, sloth, quarrel and in part, Socialism and Anarchism in their most dangerous forms. They are not so welcome as the cheap labor, which they bring here and put in active competition with our domestic labor.

CAN CLAIM BIG TAXES.

Important Decision of the Supreme Court That Will Place Corporations at Mercy of State Legislatures.

Washington, Feb. 3.—States have the constitutional right to tax the entire capital stock of interstate corporations doing business within their limits, and such a tax falling within the decision of the supreme court Monday in what is known as the Ohio and Indiana tax cases. There were three dissenting justices—Field, Harlan and White. The decision is a surprise to lawyers and will be a source of anxiety to owners of stock in telegraph and telephone corporations. It is one of the most important decisions rendered by the court in many years, as it not only involves grave constitutional questions, but will place interstate corporations at the mercy of state legislatures everywhere.

MR. BAYARD'S DINNER.

He Entertains the Prince of Wales and Earl and Lord Salisbury.

London, Feb. 2.—Hon. Thomas P. Bayard, United States ambassador, gave a dinner in honor of the Prince of Wales this evening at his residence. Besides the guest of the occasion, the list of those present included Cardinal Vaughan, Lord Salisbury, the Marquis of Lansdowne, Lord Halsbury, Lord High Chancellor of England, the Earl of Leven and Melville, Earl Stanhope, the Earl of Capotown, the Earl of Northbrook, Earl Carrington, Lord Esher, Lord Balfour, Hon. Thomas B. Ferguson, United States minister to Sweden, Lord Playfair, Lord Russell, Lord Chief Justice of England, Sir William Courtenay, Sir William Russell, Sir Charles Hall, General Clarke, J. R. Carter, secretary of the United States embassy, and Lieutenant Commander W. S. Cowles, naval attaché to the American embassy. The dinner was given in the evening of the official dinner of the speaker of the house of commons this evening prevented the ministers, who are members of the house of commons, from attending Mr. Bayard's banquet. A small but curious crowd, chiefly composed of women, gathered near Mr. Bayard's residence and watched the arrival of the guests. The weather was wet and disagreeable. Mr. Bayard sat at the head of the table, with the Prince of Wales, who was in a most genial mood, upon his right, and Lord Salisbury upon his left. The only decorations of the dining room and the table were made up of lilacs of the valley. The dessert was served at 10 o'clock, when the conversation of the guests became spirited. In the course of the evening Ambassador Bayard in a few well chosen words offered a toast to her gracious majesty, Queen Victoria, and the Prince of Wales proposed the health of President Cleveland, speaking in generous terms of America's chief magistrate. The guests took their departure at 11 o'clock. Mrs. Bayard did not make her appearance during the evening.

SPANISH BRUTALITY.

Soldiers Maltreat and Butcher Defenseless Women at Guanabacoa, Key West, Feb. 2.—No counteracting the Cuban victories in the field, Major Fanduel's troops are making reprisals at Guanabacoa. Last week a family named Jose Rudolph, consisting of himself, wife, three sons and four daughters, were taken by the patrols. Old man Rudolph was accused of being a Cuban guide, and the patrol went to arrest him. As the troops entered the house his eldest son attempted to leave by a side door and an outside sentinel shot him dead. This made the other sons furious, and they attacked the soldiers with daggers, but were shot. Old Rudolph was then killed by machetes. Mrs. Rudolph and the girls were then seized and taken to the furniture in the room. The girls were subjected to various indignities. In the morning one of the girls, who seemed half dead, was released for a moment. She seized a knife from the table, and before she could be restrained stabbed two of the soldiers and the officer in command, the latter only slightly. She was cut down by machetes. The other girls were then taken with the band, despite the mother's entreaties. The girls have not been heard from since. The mother is a fanatic.

TESTING A WATCH.

How English Timepieces Are Tried as to Their Correctness. From the Jeweller's Review. There has been watchmaking at Coventry as long as there has been a watch in England, which is for the last two hundred years or thereabouts. There used to be three centers of the English trade, these being Liverpool, Coventry and London. Now there are practically but two—Coventry and Birmingham. The test of good watches is that it should obtain a Key certificate, and of these watches that go to Key seventy-five per cent. are from Coventry.
