MR. MORGAN BECOMES CAUSTIC

He Makes Cutting Remarks Concerning the Proposition to Scud a Minister to Central American State. Priceless Autographs Stolen from the Congressional Library .- Examination of the Archives Ordered.

Washington, Feb. 11 .- A curious illustration of the extremely loose busi-ness methods of congress was furnished in the senate today, when Mr. Vest, of Missouri, reported back from the committee on commerce a house bill which had been referred to that committee and stated that the same bill precisely had passed both houses at the present session, had been approved and signed by the president and was now a law. The diplomatic and consular appro-

tic remarks by Mr. Morgan, of Ala-bama, on an item of \$10,000 for a min-Nicaragua, Costa Rica and Salvador. Two of these states, he said, had, according to newspaper reports, formed, with Honduras, a new government, called the Greater Republic of Central America, sending a minister to Washington who had been formally The recent r received by the president and closing their respective foreign offices, so that an American minister could hold no diplomatic relations with them indito congress or the people.

Mr. Morgan spoke of the state of af-

awkward complication; but he said that he had no proposition to make made by St. Louis stove makers. about it. Neither had Mr. Hale, of Maine, who was in charge of the bill, and who recognized the force of Mr. Morgan's observations, but said that the committee on appropriations had thought it better to leave the usual item in the bill and let the state department arrange the difficulty in a way that might seem best to it. An agreement was reached to have

the vote on the conference report to the immigration bill taken at 4 p. m. next Wednesday. At 1.30 o'clock the senate went into executive session on the arbitration

treaty, and continued to sit with closed doors till 4.45 p. m., when it adjourned.

### THE LIBRARY ROBBERY.

It has been ascertained that the robbery of priceless autographs perpetrated at the congressional library was effected by means of duplicate keys. It has been in progress since last August. A partial examination discloses over 100 documents missing. The room in which they were kept was one of the upper chambers of the library, low figures were in circulation, some and the confusion incident to the putting the price down to \$15. The agchange of quarters to the new building is believed to have facilitated the thefts. The two clerks of the congressional library, Philip McElhone and Louis McKay Turner, who disposed of some of the missing documents in New York, and who are accused of the theft, waived examination before the United States commissioner this morning. Turner was committed in default of bail and McElhone was redefault of bail and McElhone was released on \$3,000 ball.

The discovery of the abstraction of these documents has led to an order Wrote Four Statements Concerning for general examination of the archives of the library, which is now in

# A BIMETALLIC DEBATE.

A misplaced semicolon in the bill providing for the refunding of the bonded indebtedness of the several territories was the innocent cause of a wholly unexpected debate on the monetary question in the house today, lasting two or three hours. Two or three years ago congress authorized Arizona to sell some "gold bonds" upon the request of M. A. Smith, then a delegate from that territory, because the territory could get better terms for such bonds than for "lawful money" bonds, The bill under discussion authorized the refunding of these particular bonds in gold bonds, but the presence of a semicolon in the text suggested to the mind of Mr. McMillin, of Tennessee, the possibility that the bill could be so construed as to warrant the issue of gold bonds for all the bonds mentioned. From Mr. Payne's, New York, declara-tion that he could see no harm that would arise if all the bonds were made payable in gold, a lively discussion sprang up in which many members took part, and which took a wide range. The most important statements in the course of the debate were those by Mr. Knox, of Massachusetts, in charge of the bill to the effect that the country was upon a gold basis, that it would doubtless continue on that basis, that it would not initiate any international bimatallic conference and that there was sufficient statesmanship in the Republican party to provide for the largest possible use of silver, and that it would not be through the unlimited coinage of the metal.

At. Mr. Knox's suggestion the semicolon was replaced by a comma; on Mr. McMillin's suggestion the bonds, other than the Arizona gold bonds named, were made payable in the "lawful money of the United States," and the

bill was then passed.

The sundry civil appropriation bill for the year ending June 30, 1898, was reported by Mr. Cannon, of Illinois, and placed on the calendar.

Mr. Bartlett, of Georgia, presented the unanimous report of elections com-mittee No. 1 upon the contest of Thos. E. Watson vs. J. C. C. Black from the Tenth district of Georgia in favor of Black and stated he would call it up at the first opportunity. The bill making appropriations (a total of \$9,253,325) for fortifications for the year ending June 30, 1898, was considered and

# MME. EAMES' HEALTH IMPAIRED.

# A Surgical Operation Successfully

Performed on the Singer. New York, Feb. 11.-Madame Emma Eames-Story will not be able to sing in opera in this city this season. She had been in poor health for several weeks, and on Sunday last she overtaxed herself at rehearsal, and contracted a severe cold. Yesterday she underwent a surgical operation, which Dr. Cleveland says was entirely successful. Her voice is in no way impaired. She now re-

quires quiet and rest. Manager Grau expects that she will be able to sing in Chicago, Ill., on Feb.

lourney. The regular opera season in his city closes next week.

### RUSSIAN PEASANTS STARVING.

Compelled to Eat Horses and Rats to Keep Soul and Body Together. London, Feb. 11.-A dispatch to the Daily News from St. Petersburg gives

harrowing accounts of the distress caused by the famine in the provinces of Cherson, Bozsarabok, Pskov, Asrakhan and other sections of Southern Russin.

The peasants are eating horses and rats, and appealing to the local authorities to save them from starvation. It will require many thousands of roubles to enable the authorities to grant even the miserable allowance of a pound of rye bread daily, necessary for a mere existence.

### TRADE IS IMPROVING.

### Collapse of the Steel Pool Has Imparted New Life to the Business-Opinions from Trade Journals.

New York, Feb. 11.—Bradstreet's Saturday will say: The more favorable priation bill, carrying an aggregate of features of the business week include sales of 300,000 tons of steel rails on sales of 300,000 tons of steel rails on ister plenipotentiary to the states of come; the advance in the price of print cloths, following the sale of 750,000 pieces from accumulated stocks, and the starting up of a number of important metal and other industrial establishments throughout the eastern and

The recent reduction in the price of steel billets of \$5 a ton while rails were reduced only \$3 foreshadowed another to 1% per cent. cut in rail prices or the breaking up of the pool. The later finds prices from \$8 But, of this change, the to \$9 lower than last week. One effect president of the United States had not will be to stimulate exports of rails,depresident of the United States had not condescended to give any information and for domestic bessemer pig iron and for ore, and consumption of iron and steel generally. There is a moderfairs as having brought about a very ate increase in demand for pig iron at

The movement of prices in general trade, on the whole, are favorable. January gross railway earnings reflected the quieter trade during the month than in January, 1896. Every group of American roads shows a falling off from January a year ago.

Gross and net returns of leading rail-

roads for the calendar year 1896 show a striking similarity as to volume and those of 1895 showing a falling off of only about \$2,000,000, or two-tenths of one per cent: In gross receipts, while net earnings show a decrease of ninetents of one per cent. Pittsburg, Pa., Feb. 11.—The Amer-

ican Manufacturer in its edition tomorrow will say concerning the out-

look in the iron and steel trade: "Had it not been for the break in the steel rail pool, the week in the iron and steel trade would have been very monotonous. The dissatisfaction in the rail pool which culminated this week caused an immediate and decided slump in the market and the price of rails went from \$25 to \$17 per ton. In the excitement rumors of remarkably

Grand Island, Neb. Grand Island, Neb., Feb. 11.-At 11

clock this morning a servant girl at the Palmer house discovered gas escaping from a room occupied by two strangers who arrived last night.

The room was entered and the two men were found dead in bed. One of the men registered as R. A. Newcomb, Billings, Mont. The other did not register and his name is unknown. The coroner's jury this afternoon brought in a verdict of suicide.

## MARKETS AND STOCKS.

Wall Street Review. New York, Feb. 11 .- Weakness characterized the dealings during the greater part of the days session at the stock exchange. Two or three rallies occurred but they were short lived, the bears renewing their attacks, especially upon the industrials at every opportunity. It is to be said that the rall-may list as usual of late were relatively firmer than the Industrial group red but they were short lived, the bears firmer than the Industrial group and in the cases of the Grangers. Louisville and Nashville, the coalers and Missouri Pacific, the losses were only 1/4 to 5/8 per cent. Chicago Gas was mparatively firm. The total sales were almost entirely professional, and aggregated only 123,500 shares. Speculation was practically at a standstill. The market closed rather weak in tone. Net changes show losses of 14

# THEY RIDICULE IT.

MANY PEOPLE RIDICULE THE IDEA OF AN ABSOLUTE CURE FOR DYSPEPSIA AND STOMACH TROUBLES.

# Facts Are Stubborn Things.

Stomach troubles are so common and in many cases so obsiding to cure that peo-ple are apt to look with suspicion on any remedy claiming to be a radical, perma-nent cure for dyspepsia and indigestion. Many such pride themselves on their acuteness in never being humbugged, especially on medicines.

pecially on medicines.

This fear of being humbugged may be carried too far; so far, in fact, that many persons suffer for years with weak digestion rather than risk a little time and money in faithfully testing the claims of a preparation so reliable and universally used as Stuart's Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines for the reason that they are not a secret patent medicine, no secret is made of their ingredients, but analysis shows them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids,

oughly before it has time to ferment, sour and cause the mischief. This is the only secret of their success.

Cathartic pills never have and never can cure indigestion and stomach troubles because they act entirely upon the bowels. whereas the whole trouble is really in the stomach.
Stuart's Dyspepsia Tablets, taken after

meals, digest the food. That is all there is to it. Food not digested or half digested is poison, as it creates gas, acidity, healtaches, palpitation of the heart, loss of flesh and appetite, and many other troubles which are often called by some other
