Cities Are Overcrowded, with a Surplus in Every Kind of Labor.

From the Youth's Companion. An American who had lived in Mexio for twenty years came back to this ountry a few months ago and visited the places and people that were one familiar to him. His opinion of his native land, as reported by the Mexican orrespondent of the Boston Herald, is by no means flattering. There are "nice people" here yet, but he thinks that the prevailing tendencies in American life favor extravagance, pretension, hurry and worry, and along with the overdriven man we have the lazy man also

"Just to test this labor question," the disitor told the correspondent, "I went to plantations in Virginia and to farms in Ohio, dressed in my old duds, and asked for work. There was plenty of it. The planters and farmers were all willing to give me \$10 a month and good board and a clean bed all the year round. I reckoned it up that could save \$100 a year at that rate and get fat, too. I have worked hard in my time in rough employments, and HOT WATER HEATING have no fear of sweating.

"Well, then, I met some young fel lows in Washington, loafing around the barrooms and in front of the hotels, talking about hard times. "Boys." I said, "there is no need of loafing and grumbling. I'll tell you where you can get work; go over to Alexandria, and there's Mr. So-and-So wants a man; another wants three and another two. Wages \$10 a month

Concerning a Mother's Duty to Her Young Daughter. Together with a Chat with Miss Marie Johnson.

The balance wheel of a woman's life is menstruation. On the proper performance of this function depends her health. Irregularity lays the foundation of many diseases, and is in itself symptom

of disease. It is of the greatest importance that regularity be accomplished as soon as possible after the flow

is an established fact. Disturbance of the menstrual function poisons the blood. In young girls suppression develops latent inherited tendencies to scrofula or consumption, and no time must be lost in restoring regularity. Many a young girl goes to her grave because this difficulty has been thought lightly of, and mother has said, "Time will bring about a cure; she is young, I don't worry about her." Mother, when you see your daughter languid and indifferent to things that usually interest a young girl, when you note that flush on her cheek, that glassy appearance in her eyes; when your daughter tells you that even the weight of her

"My health became so poor that I had to leave school. I was tired all the time, and had dreadful pains in my side and back. I would have the headache so badly that everything would appear black before my eyes, and I could not go on with my studies. I was also troubled with irregularity of menses. I was very weak, and lost so much flesh that my friends became alarmed. My mother, who is a firm believer in your remedies from experience, thought perhaps they might benefit me, and wrote you for advice. I followed the advice you gave, and used Lydia E.
