The Movements

The primary essentials of any watch must be its qualities as a timekeeper, and, of course, that necessarily depends on the works If these are right, then you are bound to have a good watch, All the movements in the watches to be offered for sale are genuine Elgins and Walthams, and these, as you know, are the standards of America, if not of the civilized world. They are full jeweled throughout the escapements; are stem winders and stem setters. possess all the very latest improvements throughout and are fully warranted by the makers. Who would ask a better guarantee than this? The truth is, it is impossible to find a better,

Two bills affecting insurance companies passed second reading. The first prohibits life insurance companies from using company funds for expense or for any purpose other than that for which they are collected. The second further provides for the regulation of mutual assessment corporations for the insurance of lives as to the act creating a board of gas, electric light and water ommissioners and defining their powers and duties.

Mr. Grady offered an amendment to Mr. Cochran's act amendatory of the act designating days and half days to observed as legal holidays so that Lincoln's birthday is included in the act. The amendment was agreed to and the bill ordered transcribed for third reading.

GOVERNOR'S VETO. When the house met tonight Governor

Hastings sent in the following veto message

I herewith return without my approval concurrent resolution bearing date Feb.

The resolution provides, first, that all materials of every kind and character used in the construction of the proposed capitol building or buildings shall be of Pennsylvania product, whether natural or manufactured; and secondly, that all architects, contractors and laborers em ployed, whether skilled or unskilled, in and about the erection and construction of the proposed new capitol building or buildings shall be citizens of Pennsylva-

I am unable to concur either in the purose or spirit of this resolution. To for-oid by law the citizens of other states competing with the citizens of our own state is unfair to both. Pennsylvania is perhaps more richly endowed by nature than any other state with the materials that would necessarily enter into the construction of our capitol buildings. The evelopment of our native wealth and chergies has given us numberless arri-suns, skilled in every branch of human employment. The products of our mines and factories find a market in every state in the union, thus giving increased nd increasing employment to the labor and capital of our people. It would herefore seem to me to be most unwise, rom a strictly business standpoint, to xclude the citizens of other states from competing with our own people for our public work, when it is so manifestly to or interest that the citizens of Pennsylvania should be permitted to compete freely for the work, both public and private, of other states. If we draw a line around our borders, forbidding the citi-zens of other states to come into competition with our laborers, skilled and unskilled, and halt at our gates the stone, the iron and other materials entering into construction of our public buildings, other states may do likewise and the re-

elves than to them. But, apart from and above our own silvers interests one resolution is secm may and often does, by government-regulations and statutes, grant privi-res to its own citizens not aclowed to citizens of other nations, but parts of the same nation ought not to be permitted to discriminate against each other. No

and its law does not favor legislation givand its law noes not layor legislation giv-ing the people of any one state exclusive rights and privileges because they are citizens of such state, and no principle has been more clearly established than this, nor at greater costs. These rights of all American citizens were guaranteed to them by the constitution of the United States in the provision that the citizens of each state shall be entitled to all privi-leges and immunities of citizens in the several states.

INAUGURAL TRAIN LEAVES CANTON

Major and Mrs. McKinley Bid Farewell to Their Neighbors.

CROWDS WITNESS THEIR DEPARTURE

Many Are Deeply Affected as the Train Moves Away--President-Elect McKinley Addresses the Crowd -- Some of the Excursionists Who Accompany Major Mckinley to Washington.

Canton, O., March 1 .- The presidentlect left Canton at 7 o'clock this evenng, thousands of his fellow citizens oldding him adjeu, in showers of fireworks and Illuminants to the accompaniment of hearty cheers. The citizens, together with business men, had arranged for a public demonstration to bid farewell to their beloved and hon-ored citizen and neighbor. The local militia joined in the demonstration and at 6.30 headed by the famous Grand Army band, marched to the McKinley home, As they countermarched, Major McKinley, excerting the coming first lady of the land, appeared at his from door. Their appearance was the signal for cheers and right heartily were they given. As they walked from the famous front porch to the coach in wait ing, there was a frantic effort to obtain shake of Major McKinley's hand This was impossible, as the programm admitted of not a moment's delay Major McKinley paused but a few seconds ere he entered the cab, to raist his but to the thousands of people, men, women and children, congregated there This was the signal for another out-burst of appliause. Major McKinley then assisted Mrs. McKinley's maid into the cab, following her a second later and the ride to the depot was begun. All along the route, about a mile, the streets were jammed with people, hundreds coming from towns adjacent to Canton to bid the Major good-bye, Cheer after cheer was given them and many women were seen to weep as the president-elect's carriage, drawn by four richly caparisoned white horses passed along. Major McKinley lowered the window in the cab as he left the house and from the opening waved his hat and Mrs. McKinley her handkerchief to the surging, shouting mullution providing for Pennsylvania archititude. The space about the station itects and materials for the new capitol was packed for squares by people who struggled ineffectually to get near the train which was guarded by the companies of militia. As the presidentelect and Mrs. McKinley stepped upon views of the governor, but the resolu-tion in any case would mean nothing shouts and cheers of the people again arose. Major McKinley scated his wife just inside the door and stepped upon

the platform. MAJOR M'KINLEY'S REMARKS.

Wyoming Postoffice Building a Complete Wreck.

IT SINKS A DISTANCE OF 25 FEET Many Miners Are Obliged to Wade in

Water and Quicksand Up to Their Necks in Order to Escape -- Several Buildings in Imminent Danger of 6 Being Wrecked --- Many Narrow Escapes.

Wilkes-Barre, Pa., March A-Shortly after 5 o'clock this afternoon the resi dents of Wyoming, six miles northeast which resembled an earthquake. Houses were shaken on their foundation and in the excitement people ran ing and every factory near the railway out into the street when it was discovwas illuminated and sending forth a ered that the surface over the Mount Lookout mine, operated by Simpson & Watkins, was, caving in. When the crash came the postoffice building on one of the main streets of the town was aroused and paid some tribute of inter- the first to go down. It sank a distance of 25 feet and is a complete wreck.

It was with difficulty that the mails were removed to a place of safety nills and potteries and glass works. John Derbyshires house adjoining, is also a wreck, the foundation being cartimes in the principal towns and the ried down fully 39 feet, the inmate having a narrow escape with their lives lemonstrated their interest and regard | There are at least a dozen other houses tonight that are in imminent danger of being wrecked.

At the time the cave took place there vere many miners in the pit who had to wade through water and quicksand up to their necks in order to escape with their lives. There are 96 mules in and roman candles and scores of the mine and there is little or no hope of saving them as they are separated from the opening of the mine by a barrier of water and quicksand. The damage to the property will be great. Daynumbered several thousand appeared light alone will show just what losses have been sustained to the owners. TILLMAN'S SENSATION.

The South Carolina Senator Makes

Serious Accusations. Washington, March 1.-At this evening's session of the senate during the ensideration of the naval appropriation bill, Senator Tillman, of South Carolina, in the course of a speech, created a sensation among his fellow senators by saying that he hated to think that monopolies had their paid agents in the senate "but it looked "I don't want to say anything harsh," he continued, "but God knows that I believe every utterance I have made is true.

Mr. Hawley of Connecticut, demanded to know whether Senator Tillman dared to make such a charge against the senate.

'I dare say," replied Mr. Tillman, "as far as I can see, and I can explain this on no other grounds Then I say," retorted Mr. Hawley,

'that that is an unworthy slander, unworthy of any gentlemen. "I am bound to put two and two together. I cannot explain it on any other hypothesis," replied Mr. Tillman. Mr. Tillman continued his speech in a more or less similar vein and finally the amendment reducing the cost of armor plate to \$300 a ton passed. The

ernment armor plant was defeated by a

vote of 26 to 30. The bill then passed

and at midnight the senate adjourned until morning.

Resignation Story Confirmed. Washington, March 1.-The correspondence of the department of state with Con-sul General Lee, at Havana, in the case of Charles Scott, an American citizen, which was laid before the senate tonight, confirms the published story that General Lee threatened to resign unless the department supported his demand that Scott be released from solitary confine-
