#### PARK SCHEME HAS COLLAPSED.

East Side Land Company Withdraw Their Offer of Land.

It is well known that an offer of nine acres of land for public use was made by the East Side Park Land company. This condition was attached to the of fer that an amount should be spent by the city each year sufficient to maintain it in a suitable condition. The proposition was made to the councils last fall, A committee visited the land and gave a favorable report. The city solicitor re-ported that there was no legal objection to accepting the offer. About \$500 would be the yearly expenditure. But as there was some opposition by mem bers of the councils to taking it under the conditions, and as no decision was made, Messrs. Walker and Stocker. who represent the company, have for mally notified the city officials that the offer is withdrawn.

It is said that the offer will not be again made, but the land will be divided into lots for building purposes.

#### Lucenti Surrenders Himself.

Some six weeks ago one Lucenti, belonging to the Italian colony on the West Side, shot his partner. There was a quarrel about a difference of 20 cents in the reckoning of the receipts of their little store. After shooting Perri, with whom he was associated, Lucenți fied. Constable Neary has been looking for him since the shooting, and had reason for believing him to be somewhere near Old Forge. Lucenti finally decided that he must surrender, as he had not money sufficient to take him from the country. He was accordingly taken on Thursday evening before Alderman Jones and held in \$500 bail.

#### Social and Reception.

Mesdames Luther Bates and Joseph Deitrick received their friends at the home of the latter on Thursday afternoon and evening. It was a pleasant social gathering, in no way formal, and the guests enjoyed the occasion. Refreshments were served and the time passed in social recreation. Among the its were the Mesdames I. Petherick Milo Gardner, W. Whitelock, D. M. Schoonover, Milo Carlton, George Dimock, A. Kinback, W. Bates, F. Osborne, L. Bennett, G. Horn, F. Terwilliger, J. Deitrick, jr., C. Chase and E.

#### Efforts Made to Clean the Streets.

The city councils passed a resolution some time ago authorizing the city engineer to have the streets cleaned when it seemed to him necessary. Accordingly Mr. Frick has men at work upon the streets. Church street has been much improved and the Main street crossing have been cleared. The work will go on rapidly until all the

#### PECKVILLE.

The Rem which appeared in the Peckville department yesterday regarding the arrest of John Jordan and B. F. Hightown appears to have been erroneous to a certain extent. Jordan states that he was not intoxiated at the time and that his horses were frightened by an electric car, when they ran on the sidewalk. He further states that the constable who arrested him offered to settle the case for \$2.25. Jordan refused to pay this and the two were taken before the burgess, who discharged them without

About seven years ago he moved with his parents to Bell Flace, Peckville, and soon he secured a position as blacksmith for the Ontario Coal company which he filled for five years. In January, 1896, he was promoted under the same company to the position of weighmaster and mining clerk, which he helds at present. His father was killed in the year 1892, thus leaving his widowed mother dependent on him, and for the last eighteen months she has been confined to her home, suffering from a severe illness. #### TAYLOR.

Great excitement prevailed here early yesterday morning, when the fire alarm was turned in from box No 25, of the First ward. When discovered the water tank owned by the Delaware, Lackawanna and Western company was in a blaze, A number of freight cars standing opposite tank were slightly damaged, but were immediately moved away. An effort was made by the citizens who were present at the time to fight the fire with a bucket brigade, which was done until the fire company responded. The fire was then quickly gotten under control, and the upper part of the tank was saved. No one knows how the fire originated. A small building owned by the same company, situated about 100 yards distant from the tank, was also burned to the ground.
