SELECT COUNCIL IT WANTS TO KNOW

Mulberry Street Paving Matter Is to Be Investigated Some More.
DECIDED CHANGE OF SENTIMENT
When the Columbia Bid Was Before the Upper Body, Originally, There Was Little or No Opposition to It Now a Large Majority of Council Are Desirous of Satisfying Themselves Further on Question—Other Doings of the City Fathers.

By a surprisingly large vote and a vote that evoked much surprise select council, last night, declined to concur in the resolution awarding to the Columbia Construction Company the contract for paving Mulberry street for the reason that they wanted to look into the matter before taking final action. It was referred to the paving committee. The vote to refer to committee was as follows:
Ayes—Messrs. Finn, Kearney, Williams, Clarke, Roche, Burr, Manley, McCann, Follows, Schroeder, Burns, Frable, McAndrews—13.
Nays—Messrs. Thomas, Chittenden, Wagner, Gannon, Cogan—10.
Absent—Messrs. Ross and Robinson. President Sanderson did not vote.
When the resolution came up Mr. Lansing, with Mr. Chittenden as second, moved to concur in the action of common council. Mr. Manley, seconded by Mr. Roche, moved to amend that it be referred to the paving committee in conjunction with the city engineer.
Mr. Lansing said he hoped the amendment would not pass. The sentiment of the council was almost unanimous in favor of the bid when the matter was originally introduced, and the usual form and the city clerk instructed to advertise for new bids. There is no question but that select council would have awarded the contract to the Columbia company then if it could have done so and there is no reason advanced why its sentiment should have changed in the meantime.
ACTION OF COMMON COUNCIL.
The paving committee of common council, he went on to say, had conducted a most thorough and searching investigation of the question and several of the members of select council's paving committee sat with them by invitation. After satisfying themselves thoroughly on the subject, the committee made an unanimous report favoring the Columbia bid and common council after rigid inquiry and a thorough discussion, almost unanimously approved of the committee's recommendation. Many of the select councilmen have been present at the meeting and heard the whole debate.
The councilmen representing the three wards affected by the resolution want the Columbia pave 50 per cent, of the property holders of Mulberry street have signed a petition for it. It will save them \$36,000 and in the matter of responsibility of the bidder there is no question, all of which, Mr. Lansing contended warranted them in passing the resolution without unnecessary delay. Mr. Lansing also called attention to the fact that the pave can be guaranteed for ten years for \$220 a yard and for fifteen years at a price much lower than the Barber bid. Mr. Cogan echoed Mr. Lansing's sentiments and added that there was no reasonable excuse for referring.
"What is the reason for having the resolution referred?" asked Mr. Chittenden, addressing himself to Mr. Manley.
Mr. Manley, in answer, said that he was a member of the paving committee and so was Mr. Roche and neither of them had attended the meeting of the common council paving committee because they felt they had no business there. While it might be true that the matter had been satisfactorily explained to some of the members, it had not been explained to the satisfaction of others, and they proposed that it should be.

ARGUED AGAINST DELAY.
Mr. Chittenden argued against delay, saying it was dangerous because of the spring time that the present council has to live. These arguments were unavailing.
The board of trade's communication conveying the resolutions advising the paving of the central city alleys and courts, suggesting the changing of the names of these highways to "streets" instead of courts, etc., and suggesting that the tax on telegraph and other poles be increased from 50 cents to \$1, was read and referred without discussion to the streets and bridges committee.
Ex-Patrolman T. V. Lewis' offer to settle his \$225 claim for \$150, which common council approved of, was referred to the judiciary committee. The ordinance providing for the construction of a lateral sewer on Washington avenue, between Stafford Meadow brook and Beech street, passed third reading. Adjournment was made while Mr. Frable was endeavoring to have his plan for a lateral sewer ordinance called up. Adjournment was made until next Friday night, when the appropriation ordinance will be considered.

COMMON COUNCIL.
In common council the business transacted was rather common place. There was an apparent effort to hurry through a number of ordinances in order to get them disposed of before the council's reorganization two weeks hence.
Mr. Nealis reported for the special committee appointed to ascertain the status of the work of viewers on the Limerick court lateral sewer. He reported that two of the three viewers and one of the two major reports of the city collector and that it would be at once presented to court for confirmation. A minority report might be forthcoming, but there was no probability that it would be favorably considered.
The appropriation ordinance was subjected to another twisting by Mr. Nealis and Mr. Reagan and was then passed in its amended form on second reading. On motion of Mr. Nealis the item of \$4,500 for repairs of asphalt pavement was reduced to \$4,550, and the \$100 thus gained was added to the \$900 estimated salary of the mayor's clerk. Mr. Reagan's amendments prevailed to reduce from \$5,500 to \$3,775 the amount appropriated for repairs to bridges and culverts and to devote the cut of \$125 toward an iron railing on the Railroad avenue bridge.
The ordinance creating the new sewer district No. 19 in the Fifth, Sixth, Fifteenth and Eighteenth wards, was

reported favorably by committee and passed two readings. Other ordinances passed second reading as follows: Providing for sidewalks, gutters and curbs on the south side of Pine street between Monroe and Quincey avenues; providing for a sewer on South Washington avenue from Stafford Meadow brook to Beech street.
Two common council ordinances passed third reading as follows: Providing for sidewalks on the west side of Ninth and Robinson streets; an amendment providing for the issue of permits for sewer connections before assessments are paid in certain cases.
Resolutions introduced and approved were: By Captain Moir, requesting the park commissioners to submit to council an estimate of cost of the improvements necessary in Nay Aug park; by Mr. Wenzel, directing the city engineer to prepare plans and the estimated cost of a lateral sewer on Prescott avenue between Pine and Ash streets.
The resolution awarding to W. P. Connell & Sons the contract for erecting gas and electric fixtures in the new Nay Aug Engine house was approved by both branches.
Common council will meet in regular session next Thursday night; the select branch adjourned to meet the following night.

DEADLOCK IS BROKEN.
Olyphant Borough Council Can Now Get Down to Business.
The deadlock which has existed for more than a year, was broken last night by the election of Mr. Patten as chairman of the borough council. One year ago, after the spring election, there was a deadlock, which continued for several months, neither of the two factions in which the council was divided being able to elect a chairman or secretary.
By a clever piece of engineering W. H. Davis, a Republican, was elected chairman, and although much litigation followed, the court held that the organization affected was legal and existed during the year. Each of the two factions had six votes in the council, and as a result it was impossible to get any legislation of any kind, and the borough council did little or nothing for the borough.
The recent election did not relieve the situation and when the council met for organization soon afterwards, it was discovered that Mr. Patten and Thomas P. Curran, the rival candidates for chairman of the council, had each six votes. Thus the situation continued until last night, over 200 ballots being taken without a result of any kind.
At last night's meeting Mr. Gannon withdrew the name of Thomas P. Curran as a candidate for chairman and Mr. Patten was unanimously chosen. The fight in the council has aroused great interest in the borough and nearly every man of prominence was arrayed under the banner of either Davis, the leader of one of the factions, or else was warmly championing the other side, which was known as the O'Brien faction. After electing a chairman last night the council re-elected W. J. Adams and James C. McLoughlin treasurer. John Dempsey was chosen street commissioner.

GRIER WILL HAVE TO FIGHT.
John T. McNamara Files a Contest for the Third Ward Seat.
As foreshadowed in The Tribune, Common Councilman James J. Grier of the Third ward, will have to fight to keep his seat to which he was on the face of the returns, re-elected at the February election. Yesterday his opponent, John T. McNamara, filed a contest with Grier, the rival candidates for chairman of the council, had each six votes. Thus the situation continued until last night, over 200 ballots being taken without a result of any kind.
At last night's meeting Mr. Gannon withdrew the name of Thomas P. Curran as a candidate for chairman and Mr. Patten was unanimously chosen. The fight in the council has aroused great interest in the borough and nearly every man of prominence was arrayed under the banner of either Davis, the leader of one of the factions, or else was warmly championing the other side, which was known as the O'Brien faction. MR. KINSLEY IS NOW TO RESIGN

One Result of Common Council's Committee of Inquiry.
STREET COMMISSIONER SAYS SO
Verbal Report Is Made by the Special Committee Chairman, Mr. Flanagan—He Failed to State That Mayor Bailey Believes Mr. Kinsley Innocent of Any Misappropriation of Funds of the City of Scranton—The Mayor Will Report.

Street Commissioner Kinsley will resign his office April 20. Such was contained in the verbal report made to common council last night by Mr. Flanagan, chairman of the special committee appointed a week ago to confer with Mayor Bailey and ascertain from him his conclusions on the evidence heard during the investigation.
Mr. Flanagan, Mr. Keller and Mr. Zeldner, the committee, were closeted with the mayor yesterday afternoon. Commissioner Kinsley was present a portion of the time. From him it was learned that his resignation would take effect on the date mentioned.
Mayor Bailey told the committee that he would address a communication to council on the matter next Thursday night. These facts were briefly reported by Mr. Flanagan last night and he explained that in view of the mayor's proposed letter the committee deemed it unnecessary to report finally.
One important fact was overlooked by Mr. Flanagan. It was stated by Mayor Bailey that the city had been defrauded out of any money by the street commissioner. If he had sold the city material or had furnished it horse and other labor he had not on that account misappropriated funds nor had he done anything which had not signified the administrations of his predecessors in office.
Whether Mayor Bailey will communicate these opinions to council is something which has not been determined, at least the special committee made no reference to them.

AMUSEMENTS.
The Gormans will appear at the Academy of Music this evening and tomorrow afternoon and evening in the "Gibboney's Abroad." The Gormans, with all their former success, never made a more pleasing hit than they are making this season in farce comedy. They sing well and their fun is spontaneous and their exhibition of eccentric dancing brings down the house. The entertainment they are providing for the benefit of the local government is supported by a strong company, and the specialties are all good.
Comedian William Barry does not believe in taxing the good will and loyalty of his public to an extreme degree. "Therefore in the zenith of his popularity," he says, "I have concluded to shelve, for a time at least, 'The Rising Generation,' and produce a new play entitled 'John Bradley's Money,' which he and a most excellent company will present this and tomorrow evenings at the Frothingham and at the Lyceum tomorrow. The efforts of Billy Barry to always please need no comment. Whatever he has done he has invariably done well. He is without a peer in his line, and like one who has been often tried and never found wanting, we believe him when he says that 'John Bradley's Money' is the best play he has ever had and that he will produce it with the best players and the most elaborate scenery. The sale of seats indicate the crowding of the handsome Frothingham at every performance.

On Monday evening next Tim Murphy will be seen at the Academy of Music as a benefit for the Crystal Hose company. The first half of the programme consists of the sweetly pathetic three-act comedy, "Old Innocence," adapted from the French, "Les Petites Oiseaux," a story simple and touching, the principal character being one of those lovable old philanthropists, disposed to listen to every tale, true or otherwise, that is told to him, and willing to assist everyone who appears to him in need of sympathy. In the dramatic hit "Sir Henry Hypnotized," Mr. Murphy introduces his latest and most sensational impersonations of the following celebrities: Henry Irving, John T. Raymond, Joseph Jefferson, S. J. South, Russell Lawrence Barrett, Stuart Robson and by special request the famous William

DISHEARTENED.
"Judge," said the prisoner, solemnly, "ye don't mean it?"
"Of course I mean it," was the response.
"Not the 'ee' for talkin' on the street corner last night?"
"That's it. You were charged with being loud and boisterous."
"Ten dollars—an' 'ee' for talkin'?" Well, judge, I'll work it out. But you have destroyed a patriot. You have druv the iron of cruel reality into a soul that was hitherto free. You have put the wings of the Goddess of Liberty. Freedom of speech is the bulwark of our country, an' when speech gets ter costin' 'ee a crack, judge, I pass out. NO FAITH CURE

ABOUT STUART'S DYSPEPSIA TABLETS.
They Cure Stomach Troubles and Indigestion Anyways, Whether You Have Faith in Them or Not.
More faith will not digest your food for you, will not give you an appetite, will not increase your flesh and strengthen your nerves and heart, but Stuart's Dyspepsia Tablets will do these things, because they are composed of the elements of digestion, they contain the juices, acids and pepsines necessary to the digestion and assimilation of all wholesome food.
Stuart's Dyspepsia Tablets will digest food if placed in a jar or bottle in water heated to 98 degrees, and they will do it much more effectively when taken into the stomach after meals, whether you have faith that they will or not.
They invigorate the stomach, make pure blood and strong nerves, in the only way that nature can do it, and that is, from plenty of wholesome food well digested. It is not what we eat, but what we digest that does us good.
Stuart's Dyspepsia Tablets are sold by druggists all over the country, or by mail from the Stuart Co., Marshall, Mich.

D. AND H. BRANCH ROAD.
Officials Say None Is to Be Built on the Gravity Line.
Delaware and Hudson officials deny the truth of the rumor that the company proposed to make Elk lake, four miles from Waymart, a summer resort. It had been stated that a branch road would be built from the gravity road at Waymart to the lake.
The report gained credence in railroad circles here where it was inferred that the company wished to provide a resort supplementary to Farwell and which would relieve the congestion of dates and crowds at the latter resort.
Delaware and Hudson officials at Carbondale are. The Tribune's authority that the company contemplates no such move. It was further stated that it was not intended to build a branch from any point on the gravity line.

SOMETHING ABOUT GREECE.
It has a population of 2,127,208. By its inhabitants Greece is called "Hellas."
The mean temperature of Greece is 61 degrees Fahrenheit.
No part of Greece is 90 miles from the sea, nor 19 from the hills.
About one-half of the population are agriculturists and stock raisers.
It has an area of 21,977 square miles, or a trifle over one-half that of Pennsylvania.
It is the only country in the world whose arms are provided with the Gras guns and paper-covered cartridges.
The Greek flag is a white cross on a blue ground, the Bavarian colors and the Greek cross.
It is more thickly populated than any other country in Europe, with the exceptions of Sweden and Prussia.
It has few rivers and many hills. None of the former are navigable, and many of the latter are fortified.
In the complexity of its make and the variety of its natural features Greece excels every country in Europe.
Its present boundary limits were determined by arrangement between Great Britain, France, Russia and Turkey, concluded at Constantinople on July 21, 1832.
Only about 7,000 of the inhabitants speak a language other than Greek, and only about 20,000 profess any religion other than the Orthodox.
The chief characteristics of the average Greek are his inquisitiveness, fondness for excitement, love of discussion, desire for knowledge, an aptitude for learning and aggressive patriotism.
Gell once remarked that in traveling through the Morea in March he found "summer in Messolia, spring in Laconia and winter in Arcadia, without having moved beyond a radius of 50 miles."
The climate has two striking peculiarities—the heat in summer and the cold in winter are far more intense than those of any other country in the world (lying in the same latitude).
Though not much more than one-half the size of Portugal, it has coast line greater than that of Spain and Portugal together.
There are three distinct races within its confines, speaking different languages, wearing different costumes and holding little social intercourse with each other—the Greek, the Albanian and the Wallachian, or Roumanian.
The present King, George I, came to the throne in 1833, in his 18th year.
He draws an income of \$200,000 annually, including \$200,000 from Great Britain, France and Russia.
He is the son of the present King of Denmark, Christian IX, and brother of the Princess of Wales, and the Dowager Empress of Russia.
He married in 1867 the Grand Duchess Olga, eldest daughter of the grand-duke to the present Emperor of Russia.
She has had six living children—five sons and one daughter.
The King has a palace at Athens, built by Otto, at a cost of \$2,500,000, and a summer residence at Corfu.
He shares the legislation with a single chamber, called the Boule, the members of which are elected by the people every four years.

THE ENGLISH LANGUAGE.
Not So Easy to Learn as It Looks to Unwary Foreigners.
Foreigners who attempt to learn the English language will appreciate the embarrassment of a Frenchman who boasted that he had mastered the English tongue. He was asked to write from dictation the following choice specimen of our choice eccentric vernacular: "An Hugh Hughes was hewing a yule log from a yew tree a man dressed in garments of a dark hue came up Hugh and said: 'Hase you seen my ewe?' To which he replied: 'If you will wait until I hew this yew I will go with you to look for your ewe.'"
After an attempt the Frenchman admitted his mistake. He used to imagine he was used to English speaking, but he was so much more careful how he used the language in future.

You Can Make \$100
By buying your piano here. We want you to know that since we opened our piano department last June that we have sold nearly one hundred pianos. Mr. Rexford, who has charge of this department, was in the piano business in Philadelphia, Pa. for 12 years. Knowing how to buy, coupled with the fact that pianos bear but one-fifth of the entire expense of this great store explains the saving. Several reliable makes to choose from, we like however to talk about the "Fischer," they started to manufacture in 1840 and have made over one hundred thousand pianos. Perhaps there is another make as good. None better.
Price Right. Terms to suit. We Also Mention
Hallet & Davis Piano.
\$90.
Used, but in perfect order, cost new \$500. Another, an upright, good make, only two years in use, \$175 cost new \$450.
