INCREASE IN TRADE IS STEADY

Marked Gains Are Shown Each Succeeding Week.

SOME, HOWEVER, ARE DISAPPOINTED

Many Who Expected to Leap from Dull Times to Sudden Prosperity Are Impatient Over Results Which, Though Encouraging, Are Not Entirely Satisfactory.

New York, March 19.-R. G. Dun & Co. will say tomorrow in their weekly

Review of Trade: Though steadily increasing, business is still below its volume in former years of prosperity, and many express disappointment. Yet there is some gain every week, with more hands at work and more mills in operation, and the sure result, larger purchases for consumption, cannot be long delayed. In some branches it is felt already. There is larger distribution of finished products, and the demand for commercial loans has sharply increased, especially in dry goods and the iron and steel branches.

The progress of the iron and steel industry is hindered by uncertainty regarding the cost of lake ore for the coming year, though the repeated adjournment of products' meetings is interpreted as evidence that agreement would be ultimately reached. While there is no great activity in finished products, the demand steadily increased.

The volume of business indicated by clearing house exchanges is smaller than last year. The average of dally exchanges for the month is 3.3 per cent. less than last year.

Failures for the week have been 215 in the United States against 261 last year, and 50 in Canada against 49 last

It seems as though the "Caesar" class up at Keystone got in somewhat of a hurry to bury "Caesar," for it low looks as though Caesar, or some of the class, was in a trance, when they attempted to bury the image last week. Anyhow, there was a terrible rumbling noise issuing from the sepulthere, where Caesar was supposed to be buried, on examination day, and Caesar has been resurrected again and s still a bosom friend to three or four of the most industrious students that have been unable to say "au revoir" yet to the good old book.
