The ninetcenth annual meeting of the Woman's Foreign Missionary So-clety, of the Presbytery of Lackawau-na, will be held in the Washburn Street Church, on April 8 and 9. It is expected that about 200 members of the society will be in attendance at these meetings. On Thursday evening, April 8 an open session will be held to which all people who are interested in mis-sionary work are invited. Miss Mary Rev. J. J. Messmer, of Newark, who has completed the six-year limit of service as presiding elder of this district. made his report which indicates that the district was in a flourishing and satisfactory condition in religious, financial and other respects. Mr. Messmer was presented with a gold watch by Rev. Philip Haendiges of this city, on behalf of the ministers of the district, sionary work are invited. Miss Mary Corb, a Slamese missionary, will ad-dress this meeting as well as all other Mr. Messmer made a fitting response

Tils successor will be named on Monday. Reports were made by the ministers of this district.

Action on the constitutional questions created no little interest. The general conference is in session once every four years. Any change in its rules must he ordered by a three-quarter vote of the annual and a two-third vote of the general conference.

The question of granting to women the right of representation at the general conference was negatived by the overwhelming vote of 44 to 2,

opportunity which he announces in these columns will give the worthy people of Scranton abundant chance to become acquainted with him and with his work. This opportunity is plainly set forth herewith. Regarding Doctor St. John's reasons for establishing a practice in Scranton this may be said: He desired a city of homes in which to show by the proofs of tangible results what can be accom-plished by skill in applying the very latest discoveries in medical science, and the marvelous effect of his True Homeo-pathic Treatment for Catarrh. He decided to come to Scranton because this was distinctively a city of homes and residences, where the proofs of the work in which he has so unbounded a confi-

dence can be seen and visited and veri-fied by all. Doctor St, John desires to show from the results under his own school in America, but he also has the en-dorsement of the most celebrated and most conservative Homeopathic school in Treatment for Catarrh originated by himself does accomplish.

As is well known throughout the coun- | dies and treatments have failed in successfully coping with it.

"To begin with, Catarrh is a disease that often invades the entire system. Wherever it starts, whether it be in the head or throat, it tries to extend fur-ther, and if not cured it is liable to pass into the lungs. If Catarrh starts in the tional disease in its different forms-one of the worst being the grip-to explain briefly the narue of the disease, its causes and why the old school physicians organs, and often extends into the Blad-"Every person who knows anything, and who is taking pains to investigate the subject," said Doctor St. John. There Is No Disease So Badly Treated as Catarrh.

"Catarrh is a disease of the mucous membrane that almost invariably starts with a cold. It is like this: The cold is taken, it is stubborn and refuses to get well, and while the membranes lining the Nose and Throat are still inflamed, Catarth attacks them and becomes seated. From the Nose, where Ctarth usually begins. It spreads to other localities along the breathing apparatus. Some-times it passes down the Throat and into the Lungs, like the spread of a prairie fire. Oftener its course is slower, travel-ing by degrees through the Nose to the Throat, then a fresh cold is taken in the Throat and the Catarrh passes on to Vocal Chords. A new cold is taker and the Catarrh extends into the Windpipe; another cold is taken and the Ca-tarrh basses into the Bronchial Tubes and Lung Cells.

"I have found that Catarrh is liable to attack any mucous surface of the body. The lining membrane of the Stomach, the lining of the Howels, the lining of the lining Tubes in the Liver and the (InII of the Bladder, are each composed of just the sort of membrane that Catarrh lives m.
