The Powers Urging the Sultan to Withdraw His Troops.

A PROTEST FROM COLONEL VASSOS

He Appenis to Europe to End the Powers' Policy -- Mobilizing the Greek Fleet -- Western Naval Division Ordered to Assemble at Lucas.

Athens, April 1 .- A royal decree issued last evening orders the western naval division, under Captain Kriezi, to ssemble at Lucas. It consists of the Acteon, the Eurotes, the Basilcos Georgios, the Nauarchos Miaulis and the Ambrakia Aphoroessa, with four torpedo boats. The torpedo flotilla, under the command of Prince George, is now cruising at the entrance of the Gulf of

Canea, Island of Crete, April L.-Colonel Vassos, in pursuance of the promse he made in his heliograph message to King George, has sent a strongly worded protest to the admirals. He charges the representatives of the powers with violating the pledge that Mussulmans released at Candamos and disarmed should not be allowed to attack the Christians again. He condemns the shelling of Cretans by the foreign fleets and appeals to the people of Europe to end the present policy, which he says, is fraught with untold horrors. and threatens the entire population of the island and with extermination.

Colonel Vassos has written to the Odthodox Bishop, offering to surrender two Turkish officers and ninety-two soldlers, who were captured at Malaxa on condition that they are removed

from Crete. The foreign admirals refused to permit the Christians of Akrotiri to sell their produce in Canca until they surrender their arms.

The Fort of Izzedin has been occupied y the Austrians. Berlin, April 1 .- A dispatch to the Berliner Tageblatt from Constantinople says that five of the powers, not including Germany, delivered a note to the sultan yesterday requesting the immediate withdrawal of the Turkish

troops from the Thessalian frontier. DISCORD IN THE CONCERT.

London, April 1 .- The Daily Chronile published a dispatch from its Rome correspondent saying that great divergence of opinion is appearing among the powers with respect to the details of the action to be taken against Cirecce. The cleavage is so pronounced that a rupture of the concert is expected, especially in the event of a war between Turkey and Greece,

A dispatch to the Standard from Salonika says that the increase of troops on the east flank of the Turkish army indicates that an attack will be made upon Larissa in the case of the outbreak of war. The troops are divided into three parts, holding Katisvina, Litochori and Karya. They are commanded by Hassan Pasha, ex-governor of Crete. The men appear cheerful and are contented to live chiefly on bread, sugar, beans and raisins. Several of the nattalions, it is said, declare that they do not want pay, but will fight for their country as long as it is neces-

The Westminster Gazette this afternoon publishes a dispatch from Constantineple which says that acting upon the instruction of their respective governments, the ambassadors of the powers have opened confidential nego-tiations with the Turkish government for a definite withdrawal of the Turkish troops from Crete.

THE WARSHIPS IN ACTION. The Canea correspondent of the Standard says, in describing the bombardment by the foreign warships of the position taken up by the insurgents on the hill to the south of Suda

"When the Cretans began the attack Colonel Bor proposed to the admirals that they should land a mixed force of 500 men to drive the insurgents from the position they occupied behind a strong stone wall along the ravine. The Austrian and French admirals were opposed to taking the offensive, and they decided to confine their action to bombarding. By 8 o'clock in the morning the engagement was in full swing. The Turkish guns in Fort Izzedin could take only a small part in the firing, as most of them are directed eawards. But a Turkish frigate shelled the insurgents freely, though with little effect. An hour later the foreign men of war signalled their intention to bombard. The Groziastchy fired-first, then H. M. S. Ardent, and finally the Austrian gunboat Tiger. Each vessel fired In its turn, aiming chiefly at the Greek flag which was hoisted above the stone wall. The Ardent ceased firing at 9.30, but the Groziastchy, ranging close in shore, by degrees pounded down the wall yard by yard, every shot tell-

"In spite of the heavy cannonade the Cretans neld their ground stoutly, even throwing out skirmishers to repel the Turkish outposts, though they were compelled to abandon their own principal position behind the stone wall.

The Cretack thereupon retired slightly, but continued a heavy fire until 10 o'clock. when the Camperdown, at a range of 6,400 yards, fired her big guns. The effect was instantaneous. Three out of four of the percussion shells burst directly in the center of the insurgents' position, and the Cretars fled helter skelter.

"The alm of the gunners was perfect, while the formidable noise of the enormous shells hurtling through the air was alone enough to frighten any en-Things were now getting too hot to last and the insurgent flag was speedily lowered. positions lately held by the insurgents, hoisted the Ottoman flag with great manifestations of delight, and even ad vanced across the open with great coolness, though exposed to the continuous fire of the insurgent sharpshooters, who remained in the ravine up to the last

moment. "At 11.30 a. m. the Turks were still pouring a rattling rifle fire upon the retreating masses of the insurgents who replied with wonderful spirit. Their splendid defense of the position excited the admiration of all. Until the Camperdown began to fire heavy shells the insurgents rather gained than lost ground in spite of the tremendous fire of the Russian and Austrian ves sels. Altogether about 100 shells were

Several other minor amendments were offered, but rejected with the exception of one or two immaterial changes in the verbiage

of the text. The debate today was devoted almost entirely to Mr. Bacon's amendment. that senator making an elaborate speech in support of his suggestion. It was antagonized in an exhaustive speech by Mr. Lindsay, who discussed the legal phase of the case and also by Mr. Gray. When the vote was taken the amendment prevailed by a majority of five votes. It adds at the end of article four of the treaty a proviso

reading as follows: "No claims of a citizen of Great Britain against a state or territory of the United States shall be a subject of arbitration under this treaty.'

The treaty is now beyond the amendment stage and when the senate takes the final vote it will be upon the instrument as now constructed.

#### SNOW STORMS IN THE FAR WEST

Worst Blizzard of the Winter In Nebraska and Wyoming.

MANY TRAINS ARE SNOWBOUND

Four Feet on the Level and Drifts Twenty Feet High--Immense Damage to Cattle and Fears That Hunting Parties Have Been Frozen.

Omaha, April 1.-The severest blizzard of the entire winter has prevailed for the last thirty-five hours in western Nebraska and adjacent territory, on three Omaha railroads, the Burlington, the Union Pacific and the Rock Island, in that section. The interrupenting the most important provinces tion to train service, and the best means of getting trains, through, engages the entire attention of officials at the Union Pacific headquarters.

Throughout the Union Pacific system the storm extends along all the lines in Colorado, Wyoming and Kansas. The only part of the system on which trains were moved was between Omaha and Sidney, Neb. The Overland limited is snowbound at Hillsdale, Wyo., twenty miles east of Cheyenne. The fast mail is lying helpless in a

snowdrift near Sidney, this state. The passengers on the snowbound trains are suffering no discomfort, one of the first orders going from headquarters being that the passengers should be well looked after and that no expense should be spared to make them as comfortable as possible under the circumstances.

SNOW FOUR FEET DEEP.

The weather reports of the Burlington and Missouri lines showed great depths of snow in Wyoming, Colorado and South Dakota. Belmont reported night, and notwithstanding the efforts six inches, Ardmore two inches, Custer three inches, Deadwood fifteen ages to put them out, they continue to inches, Gillette eight inches and Holyoke four inches. Most of the points in the southern part of Nebraska reported heavy rain, with the weather growing colder. Great piles of snow cover the plains of western Nebraska. It is four feet deep in many places. The mercury is above zero, but a very high

wind prevails. Laramie, Wyo., April L.-The most severe snowstorm in twenty years has struck this section, doing immense damage to cattle and sheep. Business here is practically suspended, and yesterday even the daily papers were not issued. On the main streets the snow n places is ten feet high, while residences on the outskirts of the city are in some instances completely buried by drifts. Several buildings collapsed in consequence of the weight of the snow on their roofs. The storm extends from Medicine Bow to Pine Bluffs, Wyo., a distance of 175 miles. Laramie and Sherman Hill appear to be the very

center of the storm. All freight trains on the Union Pacitie have been suspended for the past forty-eight hours, and officials are making strenuous, but apparently futile, forts to keep passenger trains moving. Trainmaster Culross, of the Union Pacific, hopes to have trains moving some time today. On Sherman Hill the big rotary snow plow has been kept oving all day plowing through drifts fully twenty feet high in numerous places. Several snow plows are working west of here, making an endeavor

to keep the main lines open. Fears are entertained for the safety of several hunting parties in this secion. Sheep are scattered all over the plains, and it is expected the loss will reach into the thousands. Severa herders reached town, having deserted their herds, and only with the greatest difficulty escaped from being frozen to It is feared that the driver of death. the North Park stage has been frozen, although he may have reached some
