### THE MARKETS

Industries Staggered by the Decision of the Supreme Court.

RAILROAD EARNINGS INCREASING

Reports for the Quarter Have Been Encouraging .- Vote of the House Made No Impression on Business. Market for Products Has Been Variable and Uncertain.

New York, April 2.-R. G. Dun & Co. will say tomorrow in their weekly Review of Trade: The markets are still waiting, some sagging downward and others recovering. There is much dis-position to use the decision of the Supreme court against raffroad combinations as an instrument for depressing stocks and yet the buying has prevented a decline exceeding one dollar per share and for trust stocks 20 cents per share. The reports of ratiroad earnings for the quarter have been somewhat encouraging, the aggregate than last year and the March returns those for January or February.

The vote of the house in favor of a new turiff bill has made no impression in business. The market for products has been variable and uncertain.

The iron and steel industry has been staggered, so to speak, by the decision of the Supreme court affecting railroads, since it is aprehended that purchases not only of rails, but of cars, locomotives and bridge materials may be affected. The great struggle between the ore producing companies of Masaba has not yet so far developed that anybody can feel confident as to the future cost of iron. The new combination" in our nails daily affects selling prices in eastern markets. Fallures for the first quarter of 1897 number 3,992 against 4,031 last year.

### PROF. COLES FOR APRIL.

From Storms and Signs.

The vital force of all animal and vegetable life will be at "high flood" nearly two-thirds of the whole time this month, which is a very unusual occurence, and, whether it forbodes much good, or much evil, time alone will tell; as the planets are all one one side of the heavens and in positions to give Old Mother Earth terrible punishment should they choose so to do. We have outlined the position of each planet showing just how and where each one will bear upon Earth, in our planetary chart, which we will send, free, to any one particularly interested in our

A wave of evil doing will pass over the untry this month and cause untold anguish, and innumerable annoyances. Let Anulty, Mrs. George B. Smith, Mrs. G. Christian men and women everywhere, do DuB, Dimmick, Mrs. A. D'O. Blackinton. Christian men and women everywhere, do all that they possibly can to check the growth and progress of these evil microbes that were scattered broadcast all over the country last month by cyll deers; as there were enough evil thought germ seeds sowed by the united press to offset the good that God would have us enjoy, "but ye would not." If there be cany more evil microbes in preachers' brains they will come out for an atring this month again and more religious battles will be fought.

VENUS WILL DISAPPEAR.

The bright shining star Venus, now so conspicuous in the golden west, will disappear on, or about, the 28th inst., and will not appear again for several weeks; when she will be seen in the east, as and where does she go? How can she get over to the east without being seen by us? are questions that can be easily explained. On the evening of the 4th inst., Venus will be just north of the new moon and present a grand sight to those living where the sky is not clouded at that time. This will be your last opportunity, for a long time, to see Venus and young Moon wooing, on a Sunday

THE COMING STORMS, AND SIGNS. The gaseous matter passed off the sun and caused unprecedented storms and and caused imprecedented storms and floods last month at the very time that we predicted it would. This month the planets are all on one side of the heavens and trouble is promised, further to the east, From the 1st to the 10th; from e lith to 19th and from the 21st to 28th will be the most dangerous periods of the month, with sudden local disturbances ap-pearing between the above dates. Strange phenomena and a new comet will appear in the heavens; while an earthquake and a meteor fall will cause the earth to tremble. Our Storm and excel the Wilkes-Barre audience. A great Sign Calendar, showing the very days of these approaching disturbances will be Barre, however, over the coming there terested in them.

A PICTURE OF BLACK LIGHTNING. Black lightning appeared last month upon the very date that we predicted, and caused the din! on the compass to point southward, for more than a minute of time. This will cause an early record of tornadoes, hurricanes, hall storms, windstorms, flerce thunder storms, etc. prepared thousands of pictures of this black lightning taken from a photo-graph, which we would like for all of our by those present. graph, which we would like for all of our friends to see; as this is the first picture of blick lightning ever before seen of heard of. Truly a strange year is 1356 proving thus far.

### What Cured Little Stanley Nichol of Chorea.

From the Republican-Journal, Ogdensburg, N. Y.

A letter was lately received at the office of the Republican-Journal from Hammond to the effect that the cure of an extraordinary severe case of St. Vitus' dance had been effected on the person of little Stanley Nichol, the eight-year-old son of Mrs. Charles Nichol of that village.

effected on the person of little Stanley Nichol, the eight-year-old son of Mrs. Charles Nichol of that village.

A reporter was accordingly dispatched in that direction who, after some inquity, found Mrs. Nichol's residence about a mile outside the village. Mrs. Nichol said:

"A little over a year ago my boy. Stanley Nichol, who is now only eight years old, alarmed me one day by being tuken with a strange gurgling in his throat. After the first the attacks became quite frequent. Stanley did not complain of any pain, but said that the could not help making the noise. At that time there was a New York doctor stopping in the village who was a specialist on throat and masal diseases. I took my son to binn and after a careful examination he said that there was nothing the matter with the boy's throat. The gurgling in his opinion was caused by a nervous contraction of the muscles of the throat. He asked who our family physician was and said that he would consult with him before he prescribed.

"Stanley rapidly grew worse. He was always a sickly boy. One day I noticed that he was jerking his arm up in it very peculiar manner. A few days later he seemed to lose control of his legs, first one and then the other would be pulled up and then straightened out again. He was a perfect bundle of nerves and was rapidly losing all control of himself. When eating at the table or drinking, his arm would often twitch to a pull what he was drinking. One

### MARKETS AND STOCKS.

Wall Street Review.

New York, April 2.-Stocks in the main was firmer today at intervals. The market was inclined to heaviness. The im-provement in the market was due more to a desire on the part of recent sellers to accept profits than to any material change in the situation. The authracite coalers was benefited by official state-ments that the Jersey Central will not

pass the dividend. Western Union was also influenced by dividend rumors. Furnished by WHLLIAM LINN, AL-LEN & CO., stock brokers, Mears build-ing, rooms, 705-706.
