Washington, April 4.-The bankruptcy bill will be given first place in the senate programme this week, but on appropriations reports them then, as is expected, and urges consideration. but they are scheduled to pass with comparatively few changes. There has been an effort on the part of some members of the house to impress the senate with the importance of pass-ing these bills as sent over from the house without any change whatever. This suggestion is resented, especially by the appropriations committee, which is determined to make some charges, if only for the purpose of demonstrat-ing the senate's independence of the

The finance committee will press forward its investigation of the Dingley tariff bill, and the various parties will continue their efforts to reach an understanding on the organization of the senate committees, ome attention may be given to the arbitration treaty in executive session, but there will not be any effort to get a vote upon it during the week. Senator Elkins will speak Monday on his bill for discriminative duties on goods carried in American vessels.

Any legislation which may be proposed in the present situation would be blocked by a single ebjection and while it is not likely that there would be captious opposition to a bill which would appeal so directly to the sympathy of congress an objection might be made.

This would necessitate a special order from the committee on rules for its consideration and all the attendant

One of Mrs. Pinkham's Talks Concerning a Mother's Duty to Her Young Daughter. Together with a

Chat with Miss Marie Johnson.

The balance wheel of a woman's life is menstruation. On the proper performance of this function depends her health. Irregularity lays the foundation of many diseases, and is in itself symptomof disease. It is of the greatest importance that regu-

larity be accomplished as soon as possible after the flow is an established fact. Disturbance of the menstrual function poisons the blood. In young girls suppression develops latent inherited tendencies to scrofula or con-sumption, and no time must be lost in restoring regularity. Many a young girl goes to her grave because this difficulty has been thought lightly of, and mother has said, "Time will bring about a cure; she is young, I don't worry about her."

Mother, when you see your daughter languid and indifferent to things that usually interest a young girl, when you note that flush on her cheek, that glassy appearance in her eyes; when your daughter tells you that even the weight of her dress waist oppresses her, and that she has terrible pains in her stomach shortly after eating, don't ignore these signs! If you do, you will be follow-

ing your daughter to the grave, for she will die! This is gospel truth-she is developing consumption of the bowels! Lydia E. Pinkham's Vegetable Compound is the greatest regulator known to medicine. Make haste to use it on the first appearance of the tell-tale symptoms; it will restore all the female organs to their normal condition.

Miss Marie Johnson's letter to Mrs. Pinkham, which follows, should inter-

est all mothers and young ladies. She says: "My health became so poor that I had to leave school. I was tired all the time, and had dreadful pains in my side and back. I would have the headache so badly that everything would appear black before my eyes, and I could not go on with my I was also troubled with irregularity of menses. I was very weak, and lost so much flesh that my friends became alarmed. My mother, who is a firm believer in your remedies from experience, thought perhaps they might benefit me, and wrote you for advice. I followed the advice you gave, and used Lydia E. Pinkhum's Vegetable Compound and Liver Pills as you directed, and am now as well as I ever was. I have gained flesh

and have a good color. I am completely cured of irregularity. Words cannot express my gratitude, and I cannot thank you enough for your kind advice and medicine."-MISS MARKE F. JOHNSON, Centralia, Pa.
