No doubt we are coming to that, but as yet the modern girl is content to wear her miniature as a locket, a button, a belt clasp or as a medallion inserted on the cover of an ivory or tortoise shell note book card case or pet volume of any kind. A fashionable miniature painter in

London has received an order from an American millionaire to emblazon his watch case with flowers of rare enamel round the cherub heads of his two tiny daughters. The revival of the miniature has, by the way, opened up a new field of industry for women possessing the necessary talent for portraiture. The best ground for the work is ivory, which is practically indestructible. Great success has been attained by some living artists in this pretty and dainty art of miniature painting, though the brilliant and charming work that has been preserved since bygone days

can by no means be approached by modern methods.
