#### AN OLD PRECEDENT; A YOUNG PRESIDENT

Mr. Nealis Disregards One of the Most Religiously Observed Customs.

REPUBLICANS TOTALLY IGNORED

The Estimates Committee, the Most Important Sub-Division of Council Binds the Tax Payers and Tax Spenders, Is Composed Entirely of Democrats -- Did It on a Presumption .. Other Doings of Council.

Contrary to all precendent and in opcaltion to the most religiously obeyed of all the unwritten laws of municipal legislation, President Nealis, of common council, last night totally ignored the Republican members of that body in making up the most important of all the committees, the estimates committee, which virtually has all to do with the appropriation ordinance. Prefatory to the announcement of the committees, Mr. Nealls said:

"The chairman of the other branch did not appoint an estimates commitee, I have named every committee, When he glances over the estimates committee I have appointed he will have no cause to hesitate any longer as

o how he should proceed," Later to a Tribune reporter he said that he had assured Colonel Sanderson that he would treat the Republicans of mmon council in the same manner that the Democrats of the upper branch would be treated. Colonel Sanderson doubted his word, he said, and that vas only one way out of the trouble and that was to give the other side no opportunity for advantage in having he last say in the make-up of the joint stimates committee,

This action, it is generally conceded, eaves Colonel Sanderson no alternative out to appoint a full Republican com-

mittee on estimates. In the other committees the Republicans were treated with due consideraion. Every one of them was given a hairmanship and in some few committees the Republicans were given the majority. Mr. McGrail, the gentleman from the Twentieth, was put off with the chairmanship of the committee on offectors accounts, which never was known to have any business to do or any particular license to exist. AWARDING CONTRACTS.

Fully an hour was taken up with a liscussion provoked by the differences of opinion regarding the awarding of the contracts for which bids were re-

eived at the last meeting. For the Sanderson avenue sewer contract there were among other bids at some length to the many noble holes for \$75 and \$30 respectively. Messrs, Walker, Regan and Keller, the majority of the special committee to which the bids were referred, reported in favor of O'Hara Bros., saying that after consulting with the city engineer they arrived at the conclusion that Mulfigan's bid was not in compliance with the specifications, as he failed to give a price on extra basins and manholes, which is essential for the reason that the city engineer may see fit to cet along with less basins than the plans call for and must know the conractor's price so that he can make

Messrs. Flanagan and Zeidler presented a minerity report favoring the cheaper bld, and argued that the matter of extras was a mere technicality and should not enter into consideration with the saving of money for the property holders who would have to pay

All five of the committee made speeches and speeches pro and con and con and pro, but it all culminated Moir's famous saying, "votes count." The Mulligan bid had the largest folowing and Mulligan got the contract.

Ayes-Messrs. Reese, Gordon. Thomas, Gilroy, Flanagan, Wirth, Sweeney, Zeidler, Noone, Sheridan, Martin-11. Nays-Walker, Regan, Wenzel, Jack-

on, Oliver, Keller-7. O'Hara Bros, however, beat out Mul-igan on the Washington avenue sewer in the Fourth district. It was a tie bid at \$1.39 per lineal foot. Mr. Flanagan put up a fight for Mulligan, but

M. J. Rock received the contract for the retaining wall on West Market street, his figure being \$560 for the

BOULEVARD TOLL GATE. Mr. Wenzel introduced a resolution directing the Scranton and Elmhurst Boulevard company to remove its Nay Aug Park toll gate outside the city limits. At Mr. Keller's suggestion the matter was referred to committee in order to ascertain whether or not the company had ever received any authority for creeting its gate on city prop-

erty and within the city limits. He said he did not want to do anything to cripple the company. The boulevard was a good thing and should receive every encouragement from the city. an understanding between the company and the city and an assurance that

there would be no repetition of the

Providence turnpike bother. Mr. Wenzel said he felt the same way about the matter and introduced the resolution for the purpose of finding out where the matter stood. Mr. Wenzel also introduced ordinances for lateral sewers on Prescott avenue, beand the Link Which Most Directly tween Pine and Ash streets, and Farber court, between Olive and Ash streets,

The special committee to which was referred Health Officer Allen's letter on the unsanitary condition of the Phoenix Hose house, reported a resolution directing the chief of the fire department and building inspector to put the place in a sanitary condition, at the expense of the appropriation for repairs of engine houses. The resolution was adopted.

The local court said it was good law and nullified the appeal. Mr. Smith didn't think it was good law and when he took the matter up to the Supreme court, found that the justices thereof olneided with him. The appeal stood and Mr. Burns had to meet it.

Yesterday Mr. Burns made good use of the knowledge which he gained by this experience, giving another example an ill wind, etc. Mr. Burns, with Frank T. Okell, is attorney for Hopthey found themselves surrounded by flame and smoke, and, of course, a panic resulted. It was not until the made the following motion:

"Now, April 29, 1897, attorneys for plaintiffs move for a reinstatement of above case on the ground of after discovered law, as set forth in the case of Burns vs. Smith, No. 781, Sept. T., 1895. ommon pleas of Lackawanna county." Court saw the stability as well as the humor of the grounds for the motion, The groomsman was John J. Hogan, and forthwith granted a rule to show cause why the appeal should not be reinstated.

EXECUTORS WANT TO BORROW. Hon, Lemuel Amerman for the Handley executors, applied for permission to increase the amount to be realized by mortgage from the Wyoming house property, from \$50,000 to \$125,000, giving as his reason the recent arrangement made for the erection of a de partment store on the plot.

In his petition he says that experts give it as their opinion that the Wyoming house will always be a source of heavy expense for repairs and will never be saleable; while a new building such as is contemplated will be saleable when such is possible eighteen years hence. The rental of the present building would not be over \$5,000 if used for hotel purposes. By the department store arrangement a yearly rental of about \$20,000 will be realized.

The fact that court when granting the original petition for the privilege of mortgaging the property said it would much prefer if the mortgage was for a larger any such to the province of the privilege of the property said it is not acquainted with our beautiful fine and the extremely low prices, we are sure for a larger amount to crect a new building, is a pretty safe indication that the petition will be allowed.

The cases argued yesterday were Guernsey Bros. against Meredith Jones and others: exceptions; Common wealth against Martin Woyshner: exceptions to report of auditor; Thomas F. Smith against Joseph Fellows: rule to reinstate rule to satisfy judgment; A. J. McHugh against Bridget Mc-Hugh: rule for a new trial; A. Frothingham against W. Gibson Jones: rule for a new trial; John Moran against the Scranton Traction company; rule to strike off non-suit; William M. Loughlin against John Onopry: rule to
