STREF SPECTION.

Examination of Thoroughfares by the Conneil Committee.

The joint street committee of the councils made their annual inspection of the streets throughout the city on Saturday, The party consisted of Messrs, Althout and Dilts, of the seleccouncil, and Messis, Corwell, Swingle and Brink, of the common council. They were accompanied by Mayor O'Nelll, City Engineer Frick and City Clerk Clifford.

They first examined the streets within the limits of the First, Fifth and Sixth wards. The party dined at the Hotel Harrison, as guests of Mayor O'Neill and then proceeded in the afternoon to inspect the lower wards. A thorough examination was made of the street pavements, which were found for the most part to be in good condition. The committee will probably recommend, in their report, some needed imprevements upon Eighth avenue. South Church street will be widened, and Pike street curbed and graded, Attention was given to the bridge over Fallbrook creek on North Brooklyn street, which is old and narrow, and must be replaced by a new and wider fron bridge. The bridge at North Church street, over the gravity plane, was examined, and it is thought that it should be replaced ere long by a new structure.
