THE TARIFF BILL Many Important Schedules Have Been Rewritten.

DIFFERENT FROM THE DINGLEY BILL

Date for the Mensure to Go Into Effect Has Been Changed to July 1, 1897 .- The Retroactive Clause 1s Stricken Out-- Anthracite Coal Will Receive the Same Protection as Bituminous.

Washington, May 4 .- The tariff bill was reported to the senate today to the surprise of senators and the pub-He. When the senate finance committee met today the idea prevailed that the bill would be held in committee for To this several sailors died and whe two days. All the members of the committee were present. The Democrats examined the bill for nearly an hour, making running comments upon it. They announced that they were against the bill as a whole. They soon understood that Senator Jones of Nevada, was going to vote with the Republicans and realized that there

was no posibilsity of changing the bill. All the Republicans with Senator Jones, of Nevada, voted for the motion and all the Democrats voted against it, the vote standing six to five. Later in the day Mr. Aldrich announced that he would call up the bill Tuesday, May 18. Republican memers of the committee say there is no statement to be made now as to the effect of the bill, the amount of revenue to be raised by it or the reductions. When the bill is taken up in the senate Mr. Aldrich will make such a statement in the opening speech. It is estimated that the increased revenue to raised from beer would be \$13,000,-

000 and from tea \$10,000,000. Senator Jones, of Arkansas, the Demecratic Richard W. Meade was born in tariff leader, said that he expected there would be about six weeks debate on the bill, Several sections in the last part of

HE KILLED SIX WOMEN.

A Female-Hater Whose Crimes Rival Those of Holmes---Strangled His Victims with a Rope.

Gibson City, Ill., May 4 .- Fred Hallman, who is under sentence of death for the murder of Mrs. Fred Geddes, is believed to be another H. H. Holmes.

Altogether six brutal murders of German women are laid at his door. These crimes occurred in country districts in Wisconsin and Illinois, and in almost every case the woman was strangled with a rope, the other end of which was tied to a door knob.

In one instance the woman's husband is in the penitentiary for what is now thought to be Hallman's crime, and in the Geddes murder, Geddes came nearly being hanged for the murder of his own wife. Hallman has not confessed, but in each case he was known to be

in the vicinity of the crime, and in some instances had worked for the victim's husbands. He is a woman-hater, and has often been heard to say that this or that woman should be killed. Hallman's supposed victims have all been German

women. The prisoner's name is Freiderich William Hallman, his allases being William Holman, Fred Lang and Fred Hartman. He started on his career of crime by

nearly beating his wife to death and then showing her how he would hang her by practicing on a dog. He is suspected of killing Mrs. Moore,

woman of 70 years, at Somers, wis.; Mrs. Seifkin, aged 60, near Melvin, Wis.; Mrs. Hillendorf, near Kenosha, Wis.; Mrs. Carrie Leaz, at Danforth, III., and Mrs. Geddes, for whose death

Was Told That Under No Circumstances Would His Name Be Sent to Councils for the Office of Street Commissioner -- A. B. Dunning, Jr., Seems to Have the First Place in the Race, but at Present He Is Not Satisfactory to the Democratic Members of Select Council.

There is the liveliest kind of a fight in progress among the Democrats over the office of street commissioner. Mayor Balley says C. R. Kinsley's resignation went into effect April 39 and that he will name his successor at Thursday night's meeting of select council. Whether or not he will do so remains to be seen. Mr. Kinsley denies that he has resigned as will be seen by the following statement he made to a Tribune reporter yesterday: "No, I have not resigned. The mayor has not received my resignation and if he communicates to council that he has such he is stating things as they are not."

Mr. Kinsley went on to explain that he agreed with Mayor Balley to hand in his resignation to take effect April 30 if councils would pass an ordinance changing the time for the commencement of the street commissioner's term from June 1 to May L. Council failed to do this and Mr. Kinsley refused to resign. Mr. Kinsley's idea in insisting on the change of the running time of street commissioner's term was to protect himself. He wanted it to be understood that he resigned on April 30 as an accommodation to the city and not because he had to.

Mr. Kinsley holds that he is still street commissioner and will be such until the first day of June. Any man who will be chosen to fill a present acancy will be chosen, he contends,

to fill something that does not exist.

Notwithstanding this Mayor Bailey

says he will present Mr. Kinsley's

The whole wood structure was blazing before the firemen could approach haznar, the roof and almost the whole building collapsed, falling on the unfortunate people, many of whom are supposed to have previously succumbed to the stiffing smoke.

In spite of the efforts of the firemen, some time elapsed before the charred bodies could be pulled from the smoking and burning mass of debris covering the spot which but a short time before had been the scene of so much galety.

One hundred corpses have been laid out in the Palis D'L'Industrie. It is believed that another hundred are beneath the ruins.

The building was crected in the flimsiest manner, the nudity of the scaffolding inside being concealed by tapestry hangings of the most inflammable material. Moreover, there was only one exit. The bazaar was in full swing, when suddenly about 4 o'clock the cry of fire rose in the quarter where the kinematograph was being exhibit-One of the survivors tells his ex-**Derivitee**:

"The place was crammed full of peple, and the heat was sufficiating. Of a sudden, the shout of fire was raised. Instantly all was commotion.

"The flames spread with startling rapidity through the whole building, which rumbled like a living furnac but the uproar of the conflagration could not drown the groans and cries of the agonized crowd. Gradually I found myself pushed back against the wall of the building, and finally succeeded in scrambling through an opening made by some of those who were near me. Hardly had I struggled through the hole before 1 heard a dreadful crash as the blazing roof fell in.

"No words can depict the horror of the scene. The whole thing was over in twelve minutes, and nothing remained but the charred and blackened ruins of the bassar."

The dead were piled in heans, especially near the exit where the charred remains were four feet deep, arms, legs and skulls mingled in inextricable confusion. In some cases only the trunks remained, with no yestige of clothing on any of the bodies. The firemen arrived at six, and a company of infantry followed, to enthe ruins and search for corpses. All the cabinet ministers now in Paris went immediately to the scene, There were many heart rending scenes of grief and despair. One lady rushed about frantically calling her daughter by name. Some one told her the girl was safe, whereupon she jumped, danced, screamed, then rushed to the coachman to tell him to drive home, and fell in a dead swoon.

Another lady went insane. A third imagined in her frenzy that she recognized her daughter's dress, and hysterically called upon her husband to tell the police to prevent the child from going to the bazaar. Cabinet minis-

WOOLSON MORSE DEAD.

The Author of Wang and Other Well-Known Operas Passes Away.

New York, May 4 .--- H. Woolson Morse, the composer, died yesterday at his residence, 30 West Twenty-fourth street, of hemorrhage of the stomach He had had such hemorrhages for years, and had been seriously ailing for a year. The last six weeks he had spent mostly in bed, although able to drive out occasionally. He drove to lrant's tomb a week ago Monday. He leaves a widow.

Mr. Morse was born at Charlestown Mess., thirty-nine years ago. After graduating at the Massachusetta in-stitute of Technology he went to Paris eith an idea of becoming a painter but gave that up, came to New York, and devoted himself to music, for which he had a natural gift, very little trained by study. The musical comedy, "Cinderella at School," produced at Daly's fifteen years ago, was

that he had been turned down their temperature became several degrees warmer and when it was whispered about that A. B. Dunning, jr., was likely to be named as Mr. Kinsley's successor they said they would show the mayor a trick or two. The most formidable candidates now in the field are Joseph Taylor and Mr. Dunning. It is charged by the ex-sheriff's friends that Taylor has no

standing in the fight and that he was injected into it for the purpose of killing off Mr. Fahey. The Taylorites laugh at that story and say their man is a shining possibility.

At present the indications are that Mr. Dunning will be named and if he is it is more than probable he will be confirmed although a strong effort will be made to prevent such action. A. G. Gilmore, formerly in the wholesale grocery business, was spoken of yesterday as a person on whom the mayor was likely to confer the office as one way out of the dilemma.

Mr. Dunning when seen by a Tribune reporter yesterday said: "I expect to be appointed street commissioner." and he said it in a way that left no doubt that he meant it. Further than that he declined to make any statement concerning the situation.

WILL CAUCUS TONIGHT.

The Democrats of select council will hold a caucus tonight and request Mayor Balley to give them the name of the man he intends to nominate for treet commissioner.

If he informs them that it is A. B. Dunning, jr., they will tell him to go to and it is said will serve notice upon him that they will refuse to confirm his appointment.
