LECTURE OF THE REV. DR. LUCAS

It Was the Last of the St. Thomas College Course.

SUBJECT THAT WAS DISCUSSED

Agnosticism and the Future Triumphs of the Church Was His Topic and He Maintained That Agnosticism Is Dead and That It Was Conquered by the Church -- He Looks Forward to a Day When There Will Be Universal Religious Unity.

Rev. George J. Lucas, D. D., of Blossburg, in College hall last night de-livered the last of the series of lectures arranged by Rev. D. J. MacGoldrick, the president of St. Thomas college. The hall of the college was well filled with an audience that followed with close attention the discussion of Dr. Lucas on "Agnosticism and the Future Triumphs of the Church." He treated his abstruse subject in a manier suitable for a popular lecture and succeeded in making it very instructve and entertaining.

Dr. Lucas was introduced by Pather MacGoldrick who referred to the success that had attended the lecture There was a kind of progress in the lectures which culminated in ast night's lecture when he said, the audience was asked with Dr. Lucas to consider the greatest issue that now occupies the minds of men. "He will speak to you," said Father MacGoldrick in conclusion, "of the principles of common sense as contradicted by the principles of not common sense."

DR. LUCAS' ADDRESS. Dr. Lucas was given a warm recepion as he stepped to the front of the stage and without any preliminary remarks he delved at once into his sub-

ect, beginning by a reference to God. the universe and man. Dr. Lucas said that the agnostic in one breath tells us that he is ignorant of the existence of these fourtains of knowledge and in the next by an odd paradox would have us believe that he is in advance of the enlightenment of the nineteenth

"The physical scientists of today have made great advances," continued the speaker. "They have swept the heavens with their telescopes and have not found God. They have examined the brain under the microscope and have not found a soul and because they have not been able to discover them by human agencies they doub their existence and say that all is mat Vegetable and animal life are different kinds of matter but matter nevertheless and nothing else."

The agnostic, Dr. Lucas declared, ays the moral law is only a form of pleasure and if this was generally ac epted merality would soon disappear n the quick sands of agnosticism and n his opinion it would be better that this age should be buried in the darkness of the jungles of Africa than that such a belief should become general. There would be nothing to spur man on to the highest excellence,

The speaker next referred briefly to the men whose brilliant minds for a time gave Agnosticism a dignified pocition in the world of controversy. Save Spencer they have all passed away and no one has come forward to take their places. Agnosticism in itself, he said, has departed.

WHAT CONQUERED IT.

"By what spirit was agnosticism conquered?" asked the speaker and his answer was that the Catholic church nad been the conqueror. He then at some length spoke of what the Catholic church has stood for since more than 2,000 years ago the twelve apostles were sent forth to conquer the world. The church had endeavored to make the world truly democratic. It found woman in a lowly position and it ennobled her, magnified the child and wiped out the distinction between the ondman and freeman. A new civilization was ushered in, a civilization that s never satisfied and for that reason mankind can climb upward and onward and ever go to higher ideals. The church of God knows no fear, for

is quickened by a fearless spirit. Science demands law and order and chance is the opposite of these, therefore when the agnostic says that chance or unreason were the cause of this universe he says there is no cience, no law and no order.

"The church has made mistakes," continued Dr. Lucas, "and she will robably make some in the future, but the mistakes of her human side should not be transferred to her divine side. If the agnostic can point out one single mistake on her divine side may the torch be stricken from her hand and may she be struck down by her adver-

"The church conquered agnosticism by calmness, patience and resignation. She did not need to pay much atten-tion to it for she knew their arguments would fall of their own weight. Brilliant minds like Huxley may dazzle men for a time, but there is nothing in this world as potent as truth and slowly but surely the mist of the unreal and the fabricated must disappear as truth makes itself apparent. There is nothing more certain than that truth will

conquer. UNITY IN RELIGION.

The speaker in closing his address said that the tendency in everything is towards unity and he looked forward to the day when the church will take into its arms all of the children

of earth. His percration was a beautiful word picture of the peace and happiness that will overspread the world in that day of universal ucity.

MANY CASES OF MEASLES

City May Be Called Upon to Take Extreme Measures to Prevent the Spread of the Disease.

If what Dr. Allen reported last night at the board of health meeting it right and there is no reason to doubt but what he knows-this city will ere long be called upon to take extreme measures to allay the measles epidemic. During the month there were 528 cases of the disease reported to the board and, Dr. Allen says, not one in en of the cases that exist are heard of by the authorities. Some families, when the disease first enters their home, call in a physician and in consequence the house is placarded. Maybe the physician will not be called to attend the four or five other members of the family who may contract the disease and these cases as a result do not reach the ears of fne board. The neighbors children take the disease, possibly, but Mrs. Smith tells Mrs. Jones there is no need of sending for the doctor; that the children have the prevalent measles; that Dr. So and So says there is no danger and here again there will be a half dozen other cases

that will not be reported. In this and other ways Dr. Allen arlast night. He is firmly of the opinion that there were over 5,000 cases of measles in this city during April; that there is an even greater number affected at the present time, and that unless some extreme measures are adopted the epidemic will not abate.

He said it would be necessary to close the schools as a first step, but the board thought inasmuch as the disease was virtually non-fatal this measure would not be adopted, or at least not until it was established that it was impossible to bring about the result by a strict enforcement of the laws regardng isolation of contagious diseases. Renewed efforts will be made along this line and of the returns show that these efforts are not successful the extreme measure will be considered.

The board was called upon to deal with a rather delicate matter. Connolly & Wallace appeared personally with a complaint against Carr's meat oiling establishment, which they say fills their store with such an offensive odor that customers frequently leave. unable to bear it, and clerks oftentimes are made so sick that they have to go home. The case was referred to the health officer with instructions to adjust the matter as best he could.

A communication was received from H. J. Gunster and John Schneider, a ommittee of the Master Plumbers' association, setting forth that the building inspector on account of his manifold duties cannot enforce compliance with the new plumbing code. and urging that the board of health, out of consideration for the conscientious plumbers, insist upon the immediate appointment of a plumbing inspector. The board directed Secretary Briggs to transmit the communication to councils with the board's recommendation that the office be created forthwith.

The frightfully unsanitary condition of Luzerne street in the Bellevue district was reported upon by Sanitary Officer Burke and the board resolved to send to councils a communication urging the immediate passage of the ordinance for the sewering of that ter-

Secretary Briggs' report for the nonth of April showed 158 deaths, which exceeds by 21 any preceding month of this year. There were 168 birth, 85 males and 83 females. The number of ontagious diseases reported was 569, of which measles numbered 528, scarlet fever 9, whooping cough 6, diphtheria 22. typhoid fever 2. membraneous croup , chicken-pox 1. There were 13 deaths from measles, 6 from membraneous croup and 2 from diphtheria. Only 39 marriages were reported, the Lenten period having had a depressing effect on the hymenal market,

of its sting. The most glorious truth of our religion—in fact, the fundamenof our religion—in fact, the fundamental principle of our Christian faith—is that St. Paul could say, and every Christian can say: "Death is swallowed up in victory." "O death, where is thy sting? O grave, where is thy victory?" The sting of death is sin, and the strength of sin is the law. But then the total conduction is the law. thanks be to God, which giveth us the victory through our Lord Jesus Christ. And the angel told John to write: "Blessed are the dead who die in the

IN THE BOOK OF LIFE. And so we come to this service with the assurance that those whose names we read tonight from our church roll are also written in the Lamb's book of life, and though not worshipping here with us in this earthly temple, are still joining in the song of Moses and the Lamb in the church of the first-born in heaven.

During the fifty years of the church life, eighty-one of our members have gone to their eternal reward. Some of them we have known as prominent citi-zens and conspicuous Christians, while others, whose names we read, have hardly been known as connected with the Christian church and work. Some have been observed by all as bright flowers in the garden of the Lord; and some Christian lives have been growing in solitude, covered with the leaves of domestic care and the humble duties domestic care and the humble duties of life, so that like the arbutu, of early springtime, it requires the lifting of the eaves of time to reveal the beauty and fragrance which has nevertheless been ascending as sweet incense to heaven.

And these have gone to the realiza tion of the assurance that "eye hath not seen nor ear heard, neither hath it entered into the hear, of man the things that God hath prepared for those who love Him." And yet they still belong to the church—the church triumphant in heaven. triumphant in heaven.

Of the four stated pastors during the fifty years, two are dead, Rev. Joseph Barlow, who was burned to death not and Rev. James B. Fisher, who a few years ago. Of the fifteen elves at the figures he gave to the board died a few years ago. Of the fifteer last night. He is firmly of the opinion ruling elders, three, Jonathan R. Wint Nathaniel B. Hutchinson and Elijah Weston, died while serving the church faithfully and well. Three others, Roswell E. Marvine, Joseph Crane and Da-ild T. Morgan, all beloved fellow work-ers for Christ and the church, were dismissed to the Green Ridge church efore their decease.

THE DECEASED MEMBERS. The roll of deceased members is so ong that time forbids us giving more than their names and year of death. We give the names in the order in which they were received into the church, rather than 'he order of their death: Jonathan R.
