The miners working in the twentythird level had put seven cases of dynamite in a box for future use. At noon a miner, accompanied by Thomas, went to the box and found it on fire. Thomas went to his post, gave the alarm to the miners in the level Lelow and ran his engine until he had hoisted them out. He then fled. ## Due to Apoplexy Brought on by Shock

at Duchesse's Death.

WAS A SON OF KING LOUIS PHILLIPE

An Exile in England for Years -- His Military and Civic Career -- Twenty of the Victims of the Charity Bazaar Fire Are Buried.

Paris, May 7.-The Duc d'Aumale died yesterday at Zucco, Sicily, of cardiac apoplexy, induced by the shock of hearing of the death of the Duchesse d'Alencon.

The attack which caused the death f the Duc lasted only a few moments, and he expired without suffering. The Princess Clementine of Orleans, wife of Prince Auguste of Saxe-Coburg and Gotha, and sister of the Duc d'Aumale, at whose villa at Zuzzo she has been staying for some time past, is very ill. The princess is 80 years age and the shock caused by the sudden death of her brother, following

closely upon the tragic death of the Duchesse d'Alencon, wife of the second son of Prince Louis Philippe d' Orleans, Comte d' Eu, the elder brother of Princess Clementine and of the Duc l'Aumale, may prove fatal. Henri Eugene Phitippe d' Orleans,

Due d'Aumale, prince of the family of Orleans, was born in Paris on Jan. 16. 1822, and was the fourth son of the late King Louis Philippe and Queen Marie Amelie. He was educated for the army, and in 1840 he accompanied his brother, the Duc d' Orleans, to Algeria and took part in the campaign which followed. From 1842 to 1843 he was again in Algeria, where, at the head of the sub-division of Medeah, he conducted one of the most brilliant campaigns of the war, capturing the camp and all the correspondence of the famous Arab leader, Abd-el-Kader, together with 3.600 prisoners and immense amount of treasure, for which he was made a lieutenant general and was appointed to the command of the province of Constantine. He directed the expedition against Biskara in 1844, and in the same year married Marie Caroline Auguste de Bourbon, daugh-

ter of Prince Leopold of Salerno. She died at Twickenham, England, in 1869. The Duc d'Aumale, in 1847, succeeded Marshal Bugeaud as governor general of Algeria. On receiving the news of the revolution of February, 1848, he re signed his command and joined the ex-royal family in England. The woman believed the story, took her hild and went with the men, and both have disappeared and are be

lieved to have been murdered. The party was traced to Spencer and from there to the house of Bradley Vineyard, near Looneyville, Here they inquired the way to Carlos, and were directed across the hills. ## DUN'S REVIEW OF TRADE.

Actual Sales for April Only Ten Per Cent. Below Those of 1892---Encouraging Business Gains.

New York, May 7 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow

Nearly all will be astonished to learn that actual sales in April by leading houses in each line of business in the principal cities east of the Rocky Mountains averages only about 10 per cent, less than in April, 1892, the year of largest business hitherto, and were 6.1 per cent, more than in the same month last year. Yet this is the summary of 357 reports, each covering actual sales of leading merchants in a line of business in one of fourteen cities. They are especially encouraging in view of the great fall of prices within the five years and the exceptional floods and other retarding influences this year. While speculative business in nearly all lines is small, and does not swell clearing house receipts as in previous years, the volume of legitimate trade shows no corresponding decrease and the fact is one of the highest importance in all business calculations. Moreover, returns of failures for April by branches of business, given only by the mercantile agency, show decrease in number, amount and average of liabilities in almost every branch of trade and in cept cotton, although failures of five New Bedford mills for \$7,990.734, make the total defaulted liabilities for the month 40 per cent, larger than last floods and the increase of acreage elsewhere, and for spring wheat because the customary accounts of injury of winter wheat begin to appear

wheat as usual. The anticipation of better prices and great increase in demand pushed production so far in iron and steel manufacture that four furnaces in eastern Pennsylvania and others in the Pittsburg region and Ohio have stopped. Bessemer rig at Pittsburg has declined to \$9.40 and grey forge to \$8.40, pressure to sell billets lowers them to \$14, tank steel plates have sold below one cent, and common bars at 90 cents per hundred pounds, with black sheets in light demand at \$1.80 for No. 27. Yet the structural works are well employed on old orders with others coming in. one of 20,000 tons for the Montreal bridge, and others at the east and at Chicago, The rail works are all busy on orders taken months ago, though there are efforts to revive the pool. One contract for 10,000 tons steel plates is reported and some of the tin plate works are sold ahead for the year. Failures for the week have been 221 n the United States against 228 las
