FLOOD NEAR THE WHEEL WORKS.

Beer Kegs and Other Thin, Block ade the Mouth of the Sewer.

Yesterday's storm caused the usually unpretentious Pine brook to become or a while a very respectable sized scream, and as is usual with small things when given a little power proevded to made itself feit.

On its way down from Dunmore and Petersburg, it gathered up all kinds of old things such as railroad ties, beer kegs, stumps, tomato cans and the like and out of pure cussedness deposited them in such a manner at the mouth of the fourth district sewer that it blocked the opening and caused a flood of the flats near the Boles wheel works, A telephone message from the wheel

hurried City Engineer Phillips and a gang of city laborers to the scene and after half an hour's work the blockading debris was removed and the sewer allowed to perform its customary function, which it did in a very successful sort of way, relieving the verflow in very short order.

Three beer kegs were among the things which escaped through the opening when the clog was being renoved. As the sewer is made up of two twenty-four inch pipes the city engineer says the kegs will find their way to the river all right.

A project is under way to carry this ewer on up through the fields of the Dunmore road. When this is done these floods will be a thing of the past,

WHERE THEY ARE AT.

City Solicitor Torrey Advises the Board of Revision and Appeals with Reference to the Court's Decision.

The board of revision and appeal is n receipt of the following communication from City Solicitor James H. Torrey, explaining the effect of Judge Archbald's decision and suggesting to the board a course of proceedure;

To the Board of Revision and Appeals, As you have noticed the court has over-uled our demurrer and have granted an njunction restraining the city authorities from letying and collecting tax upon in-reased assessment reached under the new assessment just completed. This deselson affects the power of your board in no respect except so far as it decides that such portion of the act of 1895 as pur-ports to give you power to corder a comelete new assessment in years other than riennial years is unconstitutional. If borts to give you power to order a comdete the assessment upon which you have seen working there is nohing in the presat order of the court to prevent your aking them, but no tax can be levied pen any assessment other than the triunial assessment, as modified to meet changes in ownership and improvements. I await instructions from yourselves and from the councils as to whether the case shall be carried to a higher court by appeal. In the meantime in case such apeal should be taken, I advise that the reerved that the tax which may be levied can be computed upon it, if it should be sustained by the higher court,

James H. Torrey, City Solicitor.

Councils also received official notice of the decision last night from Mr. Torrey, an account of which appears in the report of the common council

WHITE SQUADRON MONDAY NIGHT.

PROBING THE STATE

Legislature's Anthracite Investigation Committee Begins Its Work.

SESSION AT HOTEL JERMYN

"Senator" McGuinness, of This City. Sent Out from Harrisburg to Serve Subpoenas, Fails to Do His Work and Seriously Hampers the Investigation -- W. H. Stores, of the D., L.

One "Senator" McGuinness, as he is known in Scranton, or, James Mc-Guinness, superintendent of the pasting and folding department as he is known at Harrisburg, was the sprag which temporarily but effectively blocked and delayed the work of the legislative Anthracite investigation committee in this city yesterday.

'The "senator" is a lieutenant of Senator J. C. Vaughan, of this district, and was quite naturally selected to come on to Scranton to subpoena the witnesses. He was started on his mission from the state capitol Tuesday night but failed to reach Scranton until late Wednesday night. He left his home on Water street early yesterday morning but without any effort to serve his subpoense and the result was that it was nearly noon when the wheels of investigation of the big commonwealth began to move and then only through the aid of Detective Mc-Sweeney, of the firm of Barring & McSweeney, who was engaged by the ommittee to summon witnesses, the desired sources of information.

The committete was in session in the writing room at the Hotel Jermyn. Thanks to "Senator" McGuinness' mysterious disappearance only two witesses were examined. They were W. H. Storrs, assistant general coal agent the Delaware, Lackawanna and Western company, and Captain W. A. May, the Hillside Coal and Iron company's superintendent. The committee finished with these two at 12.30 o'clock and then adjourned to meet an hour later. It was found, however, that no adequate examinations could be finished in time to permit the committee to catch a train for Philadelphia and so the session ended in a postponement to next week.

MEMBERS OF COMMITTEE. The committee is composed of Senator W. B. Meredith, chairman, of Kittanning: Senator H. W. Haines, of York; Representative J. Roberts, jr., Wilkes-Barre; Representative H. T. Dunlap, of Philadelphia, and Representative J. C. Campbell, of Westmoreland county. With them were T. Larry Eyre, sergeant at arms, of Westchester, and Edgar L. King, stenographer,

The committee has already visited coal centers in the Schuylkill region and Wilkes-Barre.

The witnesses who were to have been examined here were as follows: R. J. Beamish, O. S. Johnson, John Jermyn, J. C. McClure, W. H. Storrs, A. H. Vandiing, T. V. Powderly, W. A. May, W. J. Burke, Frank Toole, M. J. Ruane, Thomas Hogan, P. B. Calpin, Dennis Judge, M. T. Sheridan, Michael Donnegan, Ananiah Evans, Alfred Powell, John T. Jones, James E. Thomas, Jacob J. Jones, Richard Shevlin, R. A. Elory players, who will appear Maloney, F. D. Hayes, Michael Mcmee and Griff. Jones. These will be

At 3.30 o'clock the committee left via the Delaware and Hudson and Lehigh Valley railroads for Philadelphia where the great naval play the 'White Squad- they will join the members of the senate and house and participate in the ing of the Washington monument. They will return to Scranton next Wednesday night and continue their investigations on Thursday morning at the Hotel Jermyn.

THE FIRST WITNESS.

Mr. Storrs was the first witness to be sworn. His duties as assistant general coal agent, he explained, consisted of a general supervision of the shipments of coal by the Delaware, Lackawanna company. The company operated twenty-three mines in this and Luzerne counties. Its output last year was about 3,500,000 tons. The shipments this year have been comparatively less. The wages of mine employes are higher now, much higher than in past years. Inside laborers earn from \$1.61 to \$2.05 per day, and outside laborers about \$1.45 per day. About 12,000 men are employed in and about the mines. Of these the majority are largely foreign. The Americans, English, Irish, Scotch and Germans, whether foreign born or not, are in the majority. There is no discrimination in wages for or against the Poles, Slavs, Hungarians, Italians, etc. Mr. Storrs could not tell how much cost his company to put a ton of marketable coal on a car at a breaker. The necessary figures could only be obtained at the New York office. The tonnage rate charged individual companies to tidewater is *1 " ton from Scranton.

The mine law of 1889, said Mr. Storrs. had not changed the efficiency of labor employed. It is the exception when even a small proportion of the employes of a given mine cannot speak English. Houses are rented employes for 20 per cent. less than they would have to pay individuals. Coal is sold them for less than to other persons,

AVERAGE NUMBER OF DAYS. During January, February, April and March the average working days per month were 7 7-10 days. Miners have recently been earning about \$19 per month, and company hands a little more. It was hardly possible he thought for the miners to have lived within their pay recently, though the laborers, on account of extra inside work, might have done so. He had heard of but comparitively few cases of destitution. The Moses Taylor hos-40 in a vial.10 cents. Sold by Matthews | pital treated free all patients from the

company's mines and railroads. Very few of the employes were no at work when the mines were in operation. Mr. Storrs explained the endowment of the Moses Taylor hospital The witness in response to a ques tion wished to quolify later his information on the tonnage rate to tidewater. Individual operators are now paid 60 per cent, of the market rate returned by the Lehigh Valley company. Later Mr. Storrs appeared and gave the tonnage rate as \$1.60. He knew of no combinations or trusts. The output of the mines was regulated by his supervisors. The falling off in sales in 1896 as compared with 1895 was due to business depression, the use of gas and competition with the

bituminous interests. The next witness was Captain W. A May, superintendent of the Hillside

Coal and Iron company. He described DECISION WILL NOT eral supervision of work at the com-OF THE COAL TRADE pany's mines. The company has six mines, two in Susquehanna county, three in Lackawanna, and one in Luzerne. In 1896 800,000 tons were mined. The output has shown a decrease so far this year, 25 per cent, less than last year. There has been an average

of eight working days per month this

PRICE FOR MINING. From 67 to 73 cents per ton, of coal mined is paid employes and a widely varied rate per yard. The coal is weighed by a company employe, a weighmaster. A miner averages from four to six cars per day, a ton and and W., and Capt. W. A. May, of the are paid by the miners. Miners earn H. C. and I. Co., the Only Witnesses from \$2.75 to \$2 per day. The schedule paid the miners and by the latter to laborers would be forwarded to the

year.

committee later at Harrisburg. To his knowledge there was no discrimination in railroad rates. He was not in a position to state what it cost his company to place a ton of coal on a car at a breaker. The company operated no stores. It paid its emoloyes once a month in cash. Inside laborers earned from \$1.25 to \$2.02 per day, outside laborers \$1.45, engineers \$60 per month, and skilled labor the ruling current prices. Miners earn from \$25 to \$60 per month. Many laporers are empoyed when the mines are not working. Inside laborers earn from \$15 to \$20 per month and outside laborers about \$15 per month.

Captain May knew the employes had a hard time to thrive but knew of but comparatively few cases of destitution There were rumors to the effect but on investigation his company has been unable to find such cases. The Hillside company has no means

of providing for its sick and injured employes, but there are free hospitals which admit them. About 2,500 employes work for the

ompany, the majority being Irish-Americans and British-Americans. The other nationalities, while not as inteligent, are a satisfactory class of labor. The recent stagnation in the coal trade n business.

NOT GENERALLY ABUSED. Captain May saw no objection to the mine examining law of 1889 It was tot generally abused, though he did not doubt it was sometimes evaded. A repeal of the law would not benefit the miner. It sustains a degree of efficiency. He had heard no complaint of the board of examiners. A law providing for the examination of miners night be a benefit. He did not believe

t would do any harm. The present price of coal does not permit coal companies to make any naterial profit. He did not believe his ompany made any money in 1895 or 1896. The recent increased price of coal is positively not too high, but it has lessened the demand. If the price was less the result would be a reduced

cale of wages. Mr. Storrs was recalled and said he inderstood that the Delaware, Lackawanna and Western company had in recent years lost money on its coal interests. The dividends paid by the company have been as a corporation operating a railroad and mines. The company's profits, he understood, came

only from its railroad interests. There was a further qualification by Mr. Storrs, His statement relating to the average wages of \$20 of a miner per month related to the first four months of this year. Miners earned less from December to April inclusive than in other months. The wages during the summer would be double that figure. Perhaps a miner's average pay for twelve months would be \$400.

MEREDITH QUESTIONED. Chairman Meredith conducted the examination, though a few questions were put by the other members. Only the representatives of newspapers were permitted in the room while the examinations were in progress.

From the committeemen a Tribune reporter ascertained their opinions were that the condition of mine em-ployes in the Wyoming and Lackawanna regions did not apear to be as serious as in the Schuylkill district. The committee proposes to gather informatiin from every possible source, from railroad officials, mine owners, superintendents, foremen, miners, laborers and

TO TOUR EUROPE.

Party of Scranton Young Ladies Will Sail Tomorrow.

A party of well-known Scranton young ladies and several of their friends from other cities sail tomorrow from New York city on a fivemonths' European trip. There will be seven of them: Miss Clara Simpson, of this city, and her friend, Miss Holmes, of Albany; Miss Augusta Archbald and her friend, Miss Box, of Buffalo; Miss Winton, of this city and her friends, the Misses Caldwell, of Troy.

They will sail on the Allen of the North German Lloyd line. Miss Mc-Cartney, a friend of Mrs. E. S. Moffatt, of this city, will chaperone the party. The tour is to be one of large extent but rapid flight, and will cover Great Britain, France, Switzerland, Italy Austria, Germany, Holland, Denmark and Norway and Sweden.,

DAMAGES AWARDED.

New City Assessment Is Doomed to Assured Death.

COMMONERS DON'T WANT TO APPEAL

Mr. Torrey's Communication Suggesting a Test of the Validity of the Ruling Was Simply Received and Filed -- Approvat Given the Plumbing Inspection Project -- The T Rail Resolution Is Referred to Committee -- Bellevue Sewer Matters.

Judge Archbald's decision in the board of revision and appeal case will izing the big room in the Wyoming. not goup to the Supreme court. At least not if common council has the say so At last night's meeting a communi cation was received from City Solicitor Torrey formally notifying the counell of the decision, suggesting that it was desirable to test the validity of the ruling and announcing that he waited instructions as to whether or not he should take an appeal.

Mr. Keller made a motion that it be eccived and filed. Some one seconded it and the communication went into scure whenceness,

"We don't want to appeal it," re-marked Mr. Keller, We never wanted the new assessment in the first place. In the face of common council's adverse vote it is not likely that select council will instruct the city solicitor to take an appeal, even if it was so disposed. Such instruction must be concurrant or it is not binding.

Approval was given the request of the Master Plumbers' association that a plumbing inspector be appointed and the communication containing the request, transmitted by Secretary Briggs. of the board of health, was referred to the sanitary committee with instructions to draft an ordinarce coverhe attributed to the general depression | ing the ground, if in the committee's opinion, the creation of the office is feasible at this time.

SEWER FO REELLEVUE. Another communication came from he board of health urging the speedy

consideration of the proposed sewer in the Sixth and Eighteenth wards, An invitation was received from Mayor George E. Green, of Binghamon, requesting the presence of the city fficials and members of councils at the laying of the corner stone of the new municipal building in the Parlor Mty. It is to occur on July 5, and in onjunction therewith a big old fashoned hip-hip-hurray Fourth of July elebration is to be held. The invitation was very unsociably "received

and filed." Mr. Wenzel asked council to postoone action on Peter T. Mulligan's bill of \$384.33 for the construction of the new Petersburg sewer, alleging that he had not completed the contract according to plans and specifications, Upon learning that the city engineer withholds 10 per cent, of every bill until the work is proven to be satisfactory in every respect Mr. Wenze withdrew his request and the bill was

ordered paid. Under the head of concurrent busi ness the resolution changing the location of the two new lights in the Twentieth ward, and the resolution permit ting the Scranton Railway company to lay a T rail on Mulberry street, were referred to their respective com mittees.

NEW MEASURES INTRODUCED. New measures were introduced and approved as follows:

Mr. Zeidler-A resolution instructing he joint paving committee, in conjunction with the city engineer, to prepare a plan for repairing aspnalt that is out of bond.

Mr. Noone-A resolution calling for plans for a new sewer district to drain the territory lying between the river and the "Bloom" division of the Delaware, Lackawanna and Western railroad, and between a point one hundred feet south of Seventh street and a point opposite 133 South Seventh street. Mr. Keller-An ordinance compelling the laying of flagstone sidewalks and paved gutters on the southerly side of Bank street, between Jefferson avenue and Linden street, where such improve-

ments have not been already made.

Mr. Wirth—A resolution directing the Scranton Railway company to repair pavements which it has torn up or Cedar avenue and Hickory street. Adjournment was made at 8.30 o'clock ifter a half hour's session, the shortest general business session the lower branch has held in years.

Special hat sale today and tomorrov at Dunn's, Wyoming house-open Sat urday evening, and each evening next
