ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney, and bladder remedy is soon realized. If you need a medicine you should have the best. At drugists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention The Tribune and send your urine to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

OLYPHANT.

A special meeting of the council was held last night. The members absent were: Gallagher and O'Halloran. A bill is from Alfred Cooney for taking loose carriage to fire was ordered paid. A communication from Borough Attorney C. P. O'Malley was read, notifying the council of the decision of the supreme court regarding the electric light case and recommended that they proceed as soon as possible to get the plant in operation. Mr. Lewis then offered a resolution that the electric light and building committee be empowered to furnish the plant forthwith. The resolution was adopted. The tax levy for the ensuing year was fixed as follows: Five mills for general borough purposes, four for water works, and four for bonds, series C. Mr. O'Brien wanted to know why the levy of one mill was not included in the list, as a resolution was passed at the last meeting to that effect. Chairman Patten replied that the resolution was illegal, as it would require an ordinance to create a sewer district, according to the borough attorney's advice. Mr. Tinsley moved that the borough attorney be instructed to participate in the company to repair the roads in the borough where their tracks are laid. Councilman Tinsley stated that the gravel cars at the foot of Bell street are continually standing on the crossing, impeding traffic. Messrs. O'Brien and Tinsley were appointed a committee to confer with the Delaware and Hudson regarding the matter. President Patten stated that the contract with the Olyphant Water company had expired and suggested that a new one be drawn up. Councilman Lewis recommended that a few fire plugs be placed in the water main, so that residents of that section are without any fire protection whatever. The finance committee was directed to draw up a contract.
