The conduction of the business of the association has been in the hands of prominent and influential West Side men and the above stated report is ample proof of the safety and soundness of the association. It is owing to a desire to avoid any future complications that no second series will be issued. The present stress in the business world is in a large measure accountable for the closing up of business.

GREEN RIDGE.

How the Weight May Be increacd in a Healthful Natural Manner.

All people who are thin are not ne starily so from disease, it is natural for some to be thin, and no amount of treatment would add an iota to their weight, but the great majority of people are thin because their digestion is not perfect, their stomachs do not thoroughly digest flesh-forming foods, they may not have chronic dyspepsia, out their digestion is not vigorous nough to assimilate the food necessary for robust health and to keep up their weight

For all such, the new discovery for dyspepsia and indigestion comes as a welcome addition to the list of meritorious remedies. The new discov ry referred to is Stuart's Dyspepsia lablets, which is not only a pleasant and certain cure for indigestion, but sses the peculiar power of digestng flesh-forming foods, like meat, eggs and similar ordinary foods, so that the increase in weight is a perfectly natural process. One grain of the diges tive principle in Stuart's Dyspepsia Tablets will digest 3,000 grains of fleshforming food. Dr. Jennison recently stated that he depends altogether upon these tablets for the cure of dyspepsia and stomach troubles and that they not only cure the indigestion, but in every case a gratifying increase in weight was noticed, not fat, but the proper amount of fiesh for health and ymmetry, Dr. Harlandson speaks highly of the tablets, not only because they build up flesh and cure indigestion, but they are absolutely safe and harmless, no matter what the condition of the stomach and are excellent not only for the ordinary dyspeptic, but for invalids and children Stuart's Dyspensia Tablets are sold

by all druggists at 50 cents per package and a trial will convince anyone of their merits.

By this time a large crowd of men, women and children had gathered, and several narrow escapes were had. The danger to the children, who had grown bolder and bolder, was very great, and the police were taxed to their utmost in preventing them from running over the wire. A dog, owned by Oscar Ludwig, received so terrible a shock that it will in all probability have to be shot. The doz had, in crossing the road, accidently stepped upon the wire. It was thrown for several feet, and its cries were most painful to be heard. The accident to the dog was sufficient to show to the crowd their great danger, and until the current was

turned off the greatest excitement pre valled. Up till a late hour a force of men were busily engaged in repairing the broken wire. The wire fell in a thickly populated district, and that there was not more accidents is a

mystery. James McAndrew, of Pine street, is
