

Neighboring Counties.

NORTHEASTERN PENNSYLVANIA

About 100,000 piks fry have been deposited in the river near Windsor. Calvin Sterling, aged 77, one of Meskopp's prominent citizens, has passed away.

Whittington Brothers, of Buffalo, will establish a steel stamping plant in Susquehanna. It is sufficient financial encouragement is given them.

Pickpockets relieved Colonel W. J. Harvey of Wilkes-Barre, of a \$20 bill. J. B. Barr lost \$12. The picking was done on a crowded street car. The Susquehanna Trotting association has just organized, with James Payne as president and J. Driscoll secretary. Grounds are being fitted up for the development of trotting stock. The following will constitute the new Susquehanna County Medical Pension Examining board: Dr. Charles Newton, of Montrose; Dr. D. C. Ainey, of New Milford; Dr. M. L. Miller, of Lanesboro. Negotiations are now pending between some New York capitalists and the owners of the Lithia water well at Carpenter Hollow, Wyoming county, for the purchase of the entire product of the well, which is about 1,100 galls a day. The price agreed upon is 2 cents a gallon. The purchasers claim to have a contract for supplying fifty-two line steamers on the Atlantic, as well as other large markets. If the purchase is concluded the water will be piped to the Delaware, Lackawanna and Western railroad and conveyed to the seaboard in tanks.

DEATH BY ASPHYXIA.

Charles R. Higgins, of Wilkes-Barre, died at 7:30 o'clock, at his home, 24-Carlton St. Charles R. Higgins, who boarded with his brother, W. L. Higgins, of Gildersleeve Alley, was found dead in bed at 6 o'clock this morning. Death was due to asphyxiation by gas.

Higgins arrived home about twenty minutes of 12 last night at which time the other members of the household were all asleep. This morning the servant girl knocked at the door of his room to wake him for work. His door was locked and after repeated ineffectual efforts to arouse him the girl became alarmed, aroused W. L. Higgins and his wife and told them of her failure to awaken Charles. They forced open the door. The gas was escaping full force from the bed room, which was permeated with the noxious element, and Higgins lay on the bed apparently dead or unconscious. Dr. Smith was summoned.

Although there was no sign of life the doctor worked over the prostrate form for two hours. In the meantime Dr. Matlack arrived. Both made a thorough examination and pronounced the man dead at about 7 o'clock. The cause of death was asphyxiation by gas.

A grand concert is to be given in the Opera house Wednesday evening by a chorale of seven voices composed of the choirs of the different churches, under the direction of Mr. E. R. Hall, with Mrs. H. T. Dolmetsch accompanist. Honesdale can furnish singers for a good concert, as was demonstrated by the St. John's choir concert. Now let our people show their appreciation of this in a like manner by filling the Opera house.

HARVEY CREEK HOTEL BURNED.

With All Its Contents, Which Included \$100 in Cash. Wilkes-Barre, May 24.—The old Harvey Creek hotel, West Waterloo, owned by Colonel W. J. Harvey and his brother, H. H. Harvey, of this city, was burned this morning. The hotel was conducted by R. H. Stout, who with his wife and two children and a cook occupied apartments on the second floor. Shortly before 5 o'clock this morning Search Womelsdorf, a neighbor, who was getting ready to go to work, noticed a bright light in the hotel, and hurried over. On reaching there he found the rear end in fire and gave the alarm. Mr. Stout had considerable difficulty in getting his family out on account of the stairs in the kitchen being on fire, and had to take his wife, the children and cook, Miss Moyer, out through a second story window. There being no fire fighting apparatus at hand, the building and its contents, which included \$100 in cash, were totally destroyed. Stout's loss is about \$200, but he carried \$2,000 insurance, with the Post Brothers agency of Shickshilly.

THE BODY RECOVERED.

Remains of Boy Drowned Last Tuesday Found at Plymouth. Wilkes-Barre, May 24.—The body of Richard Morgan, the 10-year-old boy who was drowned in the river near Plymouth last Tuesday, were found this morning by Thomas E. Pryce, who was fishing near the steam boat landing back of the plant mill. Parts of the face and fingers had been eaten away.

NICHOLSON.

The Ladies' guild of the Presbyterian church will serve a 10-cent supper in the lecture room of the church Wednesday evening, from 5 to 7:30 o'clock. Frank Pratt, of this city, spent the Sabbath in Nicholson with his parents, Mr. and Mrs. F. D. Pratt. Mr. and Mrs. Ezra Pratt and Mr. and Mrs. George Pratt, of New Milford, were the guests of their brother, Mr. and Mrs. P. D. Pratt, last Saturday. Mr. and Mrs. Fred Stephens, of Wilkes-Barre, were entertained by the parents of the former, Mr. and Mrs. Holloway Stephens, on Sunday. The Nicholson baseball team will go

DRUNKARDS CAN BE

The craving for drink is a disease, a marvelous cure for which has been discovered called "Anti-Jag" in the intricate life, as it can be given secretly in tea, coffee, soup and milk. If "Anti-Jag" is not kept by your druggist and you do not have a chemist, call on Broadway, New York and it will be posted in plain wrapper with full directions how to give secretly. Information mailed free.

CARPET SALE

1,000 yards Ingrain Carpets marked to 18c, 23c, 25c, 29c, 35c, worth from 25c to 50c. OIL CLOTH SALE—500 yards Floor Oil Cloths marked to 15c, 20c, 25c, 30c, Square Yard, worth from 20c to 50c. MATTING SALE—200 yards assorted Matting, 8c to 25c. Just one-half their value.

This sale to last one week only. Tapestry Carpets at cut prices.

J. SCOTT INGLIS,

to Great Bend next Thursday to play their initial game of this season. We expect to have a stronger team this season than last, although it was very satisfactory last season.

Miss Emma Harding visited the Electric City Monday.

FOREST CITY.

Thomas J. Pentecost, who had his arm so badly injured in a runaway one day last week, was taken to the Emergency hospital at Carbondale. There had been a rupture of some of the veins in the arm and it was very much swollen. An operation was performed, which gave the relief needed and he will soon be able to again attend to business.

A strawberry and ice cream festival will be held by the Epworth league at parsonage hall tonight. Thomas Kilrow, the Great Bend politician, was here Saturday looking over the field. "Tom" usually manages to keep pretty good watch of the general situation throughout the county.

C. Freedman, who has been conducting a grocery and clothing store under the opera house, was sold out by the sheriff yesterday afternoon. The number of creditors who were present to see what they could save out of the wreck could not have been much less than fifty.

Mr. and Mrs. E. J. Monroe, Mrs. J. C. Brown and Mrs. S. Menhennett spent Saturday and Sunday at Lake Como, Wayne county. District Attorney W. D. B. Ainey and J. M. Kelly, of Montrose, were professionally engaged here yesterday.

W. J. Davis, of Scranton, was in the town on business yesterday. The funeral of little Ray Allen, who died from injuries received by a fall, was held in the Presbyterian church Saturday morning at 7:30 o'clock. The remains were taken to Prompton, Wayne county, for interment. On Saturday evening, at Davis' opera house, occurs the presentation of the cantata, "Esther, the Beautiful Queen." One hundred and fifty people will take part in the elaborate costumes have been secured. The diagram will open at Davis' drug store on Thursday. The proceeds will be used to establish a free circulating library.

HONESDALE.

The Grand Army Memorial services will be held on Saturday next. A small steam yacht from Roundout will be the stagecoach up the canal on Friday, and on Saturday morning Mr. Kirk Rose took a small party of ladies on a pleasure trip down the canal.

Rev. James P. Ware, rector of St. Paul's church, Plymouth, Pa., conducted services at Grace Episcopal church on Sunday.

Mr. David Doney, of Upper Park street, died Monday morning of consumption. A former Honesdale lady, now Mrs. Henry, of South Orange, N. J., sang a solo at the morning service in the Presbyterian church on Sunday.

The Whatsoever society of the Methodist church will hold a social in the church parlors on Friday evening. Mr. C. E. Decker, of New York city, spent Sunday with his parents on East street.

A grand concert is to be given in the Opera house Wednesday evening by a chorale of seven voices composed of the choirs of the different churches, under the direction of Mr. E. R. Hall, with Mrs. H. T. Dolmetsch accompanist. Honesdale can furnish singers for a good concert, as was demonstrated by the St. John's choir concert. Now let our people show their appreciation of this in a like manner by filling the Opera house.

The congregations of the Baptist and Methodist churches on Sunday evening joined with the Presbyterians in the annual memorial services, and listened to an eloquent sermon by Rev. W. H. Swift. There was a large attendance of Grand Army members.

WYOMING SEMINARY.

The lecture on "Alaska," given by Colonel French, at Nelson Memorial hall last Friday evening was very instructive. The speaker had a number of stereoscopic views which represented the occupation, the religion of the people and the scenery of the country. Professor Elliott, Mr. Hatloy and Mr. Reed were at Scranton Saturday. The commencement is approaching and many of the students are looking forward to a vacation.

Mr. W. I. Andrews is at his home, Binghamton, N. Y., on account of sickness. Professor Thurston has recently received a very fine rattlesnake to add to his many zoological specimens.

The base ball team played a very good game with the Bloomsburg team at the Athletic field last Wednesday. Score, 15-5, in favor of Wyoming.

Mr. Koons, of Freehold, Pa., is a recent graduate from the commercial college.

The students of the short hand and typewriting department are doing very good work under the direction of Mrs. Hard.

Mr. Richard Gendall spent Sunday at his home, Jersey.

Professor Ries, of Wesleyan university, preached a very good sermon at the Methodist church last Sunday morning. He took as his text I Philippians 3: 2; "A name which is above every name."

Dr. Sprague spent a few days last week at Drew theological seminary, Madison, N. J.

Robert Spencer was at the seminary last Saturday after having just recovered from a severe stage of typhoid fever.

Mrs. Bebee spent Sunday at Tunkhannock, Pa.

Professor Stevens was the leader at the Young Men's Christian association meeting last Sunday morning. He gave a very interesting talk on "Spiritual Life."

TUNKHANNOCK.

Sam Day has just purchased a new ice wagon from T. C. Miller. Robert Bardwell had his herd of cat-

Royal makes the food pure, wholesome and delicious.

It is examined recently by Veterinary L. E. Meade, and no signs of tuberculosis were found. The Mansfield State Normal school played base ball at Sayre on Saturday and were beaten by a score of 8-2. Mr. and Mrs. Roys, of Bloomsburg, spent Sunday with Mrs. Roys' parents, Mr. and Mrs. George White. Charles Berge Little, of Scranton, visited his parents here on Sunday. Mrs. Bebee, of Wyoming seminary, spent Saturday and Sunday with James W. Platt and family. Tracy Roberts, of West Pittston, was in town Sunday. On account of the cave-in work on the sewer was continued on Sunday.

RANDOM REMARKS ON HEALTH AND HYGIENE

There's a cunning young bacillus and a nasty little germ, Or some frisky diatom or a microscopic worm, Or some scientific wonder dragging 'round a Latin term. In our food and air and water and, by jings! it makes me squirm. And the sun will be much colder in about a million years, And a portion of earth's moisture slowly dries and disappears, And its crust is slowly cooling and excites our human fears, So, by jings! you needn't wonder if it fills my eyes with tears.

In a hundred generations man will have no teeth at all. And his skull will be as naked as a shiny billiard ball; His superfluous sins will vanish, he will be but four feet tall. So, by jings! you cannot wonder if my flesh begins to crawl.

He will travel with electric, bicycles and cable cars; With his airships he will wander like a stray, And he'll explore navigation on the waterways of Mars. And, by jings! where will you stop him when he once lets down the bars?

And now Edison's inventing patent food, If it won't knock out the farmers and the wheat fields of the West, But I'll go to Philadelphia, where my brain can take a rest.

For burns nothing can equal lime and lard. Take sifted air-slacked lime and mix with lard. Spread on a cloth. If the burn is deep, must make another plaster at once to lay on. As soon as the lard gets warm it will begin to burn again. Scrape the plasters off, and mix in more fresh lime. After the wound gets burning the plasters should be kept on and will heal the sore. Air-slacked lime is valuable and should be kept in the house at all times, as it affords instant relief for burns.

The appetite for alcohol can be dissipated by eating apples at every meal, says a physician. Apples, if eaten in large quantities, possess properties which entirely do away with the craving that all confirmed drunkards have for drink. The doctor says under his notice he has been able to effect a cure by this means, the patient gradually losing all desire for alcohol.

Professor Snellison says that only 900 people die according to medical authority, die from old age, while 1,200 succumb to cholera, 18,400 to measles, 2,700 to apoplexy, 7,000 to erysipelas, 7,500 to consumption, 48,000 to scarlet fever, 25,000 to whooping-cough, 30,000 to typhoid, 27,000 to cholera, 7,000 to rheumatism. The averages vary according to locality, but these are considered accurate as regards the population of the globe as a whole.

Dr. Donlin, in speaking of a man who recently dropped dead while riding on his wheel, said: I found that the immediate cause of death was heart disease, but I am of opinion that if he had never ridden a bicycle he would have been alive today. Bicycles are not a violent form of exercise, and no person suffering from heart disease should ride a wheel.

Professor Billing says: Linseed oil is a good thing for corns. A piece of lint dipped with the oil should be wrapped round the part and kept constantly applied. It gives great relief where the corn is soft, and is not long in radiating it.

Middle-aged and all old persons and those with weak hearts and impaired lungs have often experienced a feeling of suffocation when there is too much water in the atmosphere. Those who breathe it are, to a certain extent, deprived of their due supply of oxygen. The air of bed rooms is exceedingly liable to be overcharged with watery vapor, the most obvious reason being that many bed rooms are never warmed with fire, and that their windows are often left open until dusk, and sometimes even to the hour of going to bed. A delicate or an aged person leaves, say, at 11:30, a sitting room in which the temperature was 65 degrees, and enters a cold damp bed room with a temperature of say 35 degrees. The air in the sitting room was dry, but when it is cooled by the air of the bed room is loaded with cold, watery vapor. So soon as the person enters the bed room he chokes and gasps and coughs for half an hour at least, and sometimes brings on such an attack of asthma, or as he calls it, "stiffness" of the chest, that he can hardly breathe at all. He may even lose his night's sleep, and be ill for some days after such an exposure. Common sense says: "Make an effort to bring the atmosphere of the bed room nearer in point both of dryness and of warmth to the atmosphere of the sitting room, and then the occupant will neither gasp nor choke nor cough, but will go to sleep with ease and comfort."

Bacteriological science has, says the New York Tribune, freed the world

from another boggy—to wit, the pestilential character of graveyards. It has long been imagined that the miasma in which human bodies were literally returned "earth to earth" were veritable breeding-places of disease. The germs of the miasma that had caused the death of the bodies and innumerable other germs and poisons generated by the processes of decay were supposed to permeate the soil, to rise from it in noxious exhalations, and to contaminate the streams of water that might flow near by. Great cemeteries were supposed to be a serious menace to the health of cities, and one of the strongest arguments in favor of cremations has been that all these evils would be entirely abolished. Without entering into any controversy regarding the processes of decay, the inclination and inhumation, it may be said that this old notion of graveyards was ill-founded. "Nature" reports the results of a more careful and elaborate investigation of the subject which was presented to the Academy of Medicine in the experiments the actual conditions attending ordinary burial were adhered to as faithfully as possible, both as regards the depth of the grave and the inclosure of the body. The duration of vitality of the various pathogenic bacteria was carefully observed, and was found to vary considerably. Thus the microbes of cholera lived only 23 days, and those of typhoid bacilli, of which there has been an especial dread in connection with cemeteries, perished after 96 days of burial; and those of tuberculosis after 95 to 122. Tetanus bacilli, supposed to be an insidious foe in the soil, and indeed, after 264 days they were found in a highly virulent condition; but after 361 days they could no longer be detected. The germs of anthrax alone survived for 90 days, and those of the bacillus of gas and of the bacillus of the gas, which was the most persistent of all. Attention was also paid to the possible spread of the germs through the adjacent soil and into streams of water. Generally speaking, they did not spread, or, none of them but those of anthrax. The last named were found in the soil at some distance from the body and also in water. None of the others were to be found, not even a few inches from the infected corpse. If these results are safe to conclude that burial is, in general, a sanitary method of disposing of dead bodies, and that cemeteries are not to be regarded as centres of infection or contagion.

The following rules are given by an authority for the care of the mouth in sick persons: (1). Patients with good disease powers, if the disease is not in the mouth, and ordinary care of the mouth, (2). In children and very old patients the less said the better. (3). Patients with the care with the mouth. They should rinse the mouth out several times a day with lukewarm water containing a little bicarbonate of soda, or a solution of Cologne added, to stimulate secretion. When there is a tendency to bleeding of the gums, or when the teeth are bad, a pinch of powdered boric acid may be twice daily rubbed in between the lips and gums. Patients with false teeth should brush them twice a day, after eating, with soft soap, to remove the film which, owing to loss of appetite or chronic gastric disturbance, they cannot take solid food. (4). In patients with partial loss of consciousness the mouth should be washed several times a day for small sores, such as may arise from the pressure of dentures or from the use of unclean cups should be powdered with a little boric acid or chlorate of potash, and the cracks at the corners of the lips healed with a mixture of castor oil and vasoline. The mucous membrane may be stimulated by wiping the tongue and mouth, and pressing the tongue with a moist towel every two or three hours; if necessary, the hinder part of the tongue should be kept moist with the tip of a finger, and a moistened layer of muslin should be placed on the mouth, and service. (5). Patients with fever should have something to drink—cold water or weak lemonade—at least every hour; one must not wait until the patient asks for it. Besides preventing dryness, the fluid maintains the activity of the glands and the joints of the mucous membrane. Many patients are prevented from drinking by a painful dry and cracked condition of the lips, and therefore all febrile patients should have their lips kept moist with diluted glycerine.

500 Dozen Untrimmed Hats In all the leading shapes and in all the fine straws and combinations, every color. Regular prices 75c., \$1, \$1.25 and \$1.50. Sale Price 25c each
