Susquehanna, May 25.-While he was feeding his stock on Sunday, Farmer Thompson, of the Casade, had his attention called to a squirrel on the ground, whose strange actions interested him. He approached near, and the produce the popular drama entitled squirrel was evidently unaware of his presence. He soon discovered a large rattlesnake in front of the little animal. Nearer and nearer the squirret approached the reptile, continuing its strange actions, until the snake opened its mouth and seized the animal. After the rattler had partially swallowed its prey, Mr. Thompson grabbed a pole and attempted to kill the snake, pole struck a limb, when the snake threw the squirrel from its mouth and eight feet. The second blow killed the reptile, which was six feet in length.

A PECULIAR FACT.

Thousands of People Have Dyspepsia in Its Worst Form and Do Not Know It.

A weak stomach is the cause of about nine-tenths of all disease, yet in most cases the wrong thing is treated and the

true cause overlooked. This is because a weak digestion produces symptoms resembling nearly every disease because it weakens and disturbs the action of every nerve and organ in the body; poor ligestion causes heart trouble, kidney troubles, lung weakness and especially nervous break down or nervous prostration, the nerves cannot stand the wear and tear unless generously

ity I want to say that from a child I had a very weak stomach, threw up my food very often after eating and after a few years nervous dyspepsia resulted and for more than twenty years I have suf-fered inexpressibly.

I tried many physicians and advertised remedies with only temporary relief for nervous dyspepsia and not until I commenced taking Stuart's Dyspepsia Tab-lets last September, six months ago, have I been free from suffering caused by the

I write my honest opinion and I will gladly answer any letter of inquiry at any time and feel that I am, in my small way, help-ing on a good cause.

Stuart's Dyspepsia Tablets is not a pat-ent medicine, but they contain only the fruit salts, digestive acids and peptones necessary to help the weak stomach to promptly and thoroughly digest food.

Wall Street Review. New York, May 25.-There was more ant mation shown in the dealings on the Stock Exchange today than for many weeks past and some buying by commission house agents gave evidence of a slight awakening of outside interest in the markets. The market is still in control of the professional traders. Total sales of stocks today were 202,050 shares.
