The cry of competitors going out of business proves we have demoralized prices on shoes and we are doing the shoe business of the town, and why shouldn't we. We are doing business on a wholesale scale, buying in enormous quantities for spot cash, not always in a regular way, but from concerns in need of ready money. Then, we are satisfied with small profit. Besides, our business is growing larger every day, for the reason that we keep faith with the people. Goods always go at the prices advertised. It is just such unapproachable prices as the following that have people. made us famous, and this week's great values will further tend to spread our fame.
