# A 16-Year-Old Girl has **Nervous Prostration**

### THE REVIVIFYING EFFECTS OF A PROPER NERVE FOOD DEMONSTRATED.

From the Era, Bradford, Pa.

Several months ago, Miss Cora Watrous, the sixteen-year-old daughter of Mr. I. C. Watrous, a locomotive fireman, of 6l Clarion Street, Bradford, Penna., was seized with a pervous disorder which threatened to end her life. The first symptom of the ailment was a loss of appetite. For some little time Miss Watrous had no desire to eat and complained of a feeling of extreme lassitude. This was followed by severe pains in the head. For three weeks the young lady was nearly crazed with a terrible headache and nothing could be procured to give her relief. Finally, after trying numerous remedies, a physician was called and began treating the patient. He said the trouble was caused by impoverished blood, but after several weeks of his treatment the young lady's condition had not improved and the parents decided to procure the services of another physician. In the meantime Miss Watrous' nervousness had increased, the pains in her head had grown more severe and the sufferer's parents had almost given up hope of her recovery.

It was at this time that Mr. Watrous heard of Dr. Williams' Pink Pills for Pale People. He found that the pills were highly recommended for nervous disorders and concluded to give them a trial. A box of the pills was purchased and before they had all been taken there was a marked improvement in the pill's condition. After a half dozen boxes had been used, the young lady's appetite had returned, the pain in her head had condition that the pills were highly recommended to give them a trial. A box of the pills was purchased and before they had all been taken there was a marked improvement in the pill's condition. After a half dozen boxes had been used, the young lady's appetite had returned, the pain in her head had ceased and she was stronger than at any time previous to her illness.
