Our fault as Weishmen is that we tolerate such actions. Were a German justice guilty of such actions in Hungary of Bohemia, it is doubtful whether his life would be safe in journeying home from the court. In Beaumaris the witness did not insist upon his right, but cowed like a whipped dog. The Welsh barrister, too, in-stead of standing up fiercely and pertinaciously for the rights of his countrymen, contented himself with a mild the appointment of Mr. Legard as and velvety protest, of which the John chief inspector for Wales, and that Bull that sat on the bench took the slightest notice."

SHOULD REFUSE TO TESTIFY.

"The Beaumaris incident," states the lymro, "was a fair, though somewhat ld-fashioned, sample of the customary arrogance of the official Saxon," and ir contemporary's only regret is that the witness did not persist in his refusal to give evidence in a language in which he was not well conversant, and so dare his lordship to commit him for contempt of court. "The laws of England," continues the Cymro, "extends over many nations; but the Weish, so far as we know, are the only people who are refused the right to tender their evidence in their own language. The chief reason for this is the serand every other official, that he is the servant, not they. Possibly Sir Edward Ridley is a brilliant lawyer, but it is doubtful whether he has been endowed with much common sense, or to the good nature of a gentleman."

LAW MUST BE CHANGED. The Gwalia (Conservative) regards the incident as "unfortunate," and declares that no one with any regard for justice can condemn "the many hard and strong words that will be used to desribe it." The Gwalia strongly condemns his Lordship, and points out that his action was all the more uncalled for seeing that there were present in the court very many people who could have acted as interpreters. "If the law as it stands," continues the Gwalla, "supports Sir Edward Ridley, and compels the Welshman to give his evidence in a language of which he knows nothing, then by all means must be changed so as to allow a witness to choose his own language, and not allow the question to be decided by any individual judge." Mr. Justice Ridley is a brother of the Tory home secretary, and the Gwalia therefore fears "that the incident will be seized upon and utilized for party pur-

poses. "The 'foolish and ill-advised' action of the judge," says the Tarian, "has aroused the country from end to end; all parties and people of all countries suicide, came to his death "during temunite in condemning it. . . . scarcely believe that he intended to inthat was the effect of his conduct, and the nation has

THE INNOCENT CONVICTED. Shot While Defending His Master and Hanged as a Murderer. rom the Chicago Post.

"Appearances are deceiving," said an ld lawyer the other day. "The strongest case of circumstantial evidence ever knew was against an innocent man. My father was a lawyer, and in the criminal practice. One of his clients was hanged for a murder which he never committed.

"Just at the edge of our town lived rich old man in a grand old house. He had no family, and was alone with his servants. One night there was a fearful disturbance in his house, and neighbors hurried in. Several pistol shots had been fired. The rich old man was dead, with a bullet in his brain and the butler lay, with his hands full of jewelry and watches, right in the doorway of the old man's room, with a bullet somewhere in his head, but he was not dead.

"His revolver lay by his side, and, so far as could be seen, the whole story was told right there. The butler, who had been in the house only about six months, had attempted to rob his master, had been caught in the act and shot, but had killed the old man in the fight. That was the only translation of it, and there was no other for several days, because the butler had a very serious wound and was delirious for a week. However, it was not fatal, and as soon as he was himself, he made a statement to the effect that he had been awakened in the night by footsteps, and had taken his pistol, which had only two loads in it out of five, and gone down into the hall below to see

what the noise was. "He noticed that his master's door was partly open, at the far end of the hall, and hurried toward it. As he approached it he heard his master speak some one, asking who was there, and with that there was a pistol shot and he jumped into the room, grabbing a burglar as he did so, and at the same time getting a shot in the head from his master's pistol. Beyond that he remembered nothing more. His story was generally believed, for there was no evidence of any person in the house with evil designs, and all the plunder that he had not caught in his hands was lying on the floor about him, so that there was no apparent reason why burgiar should be there. All the doors

were found locked by those who came in response to the alarm, and there were absolutely no signs of any burglarizing from the outside. "Another strong point was that the

bullet which was found in the butler's head exactly fitted the pistol of his master, showing conclusively that it was the master and not the burglar who shot him. This was the condition of the affair when my father took charge of it, and, though he really believed the butler's story and tried to prove it, he could not do it, and the man was finally hanged. A year later a burgiar was shot by a policeman in the city mearest us, and he confessed on his deathbed that he was the murderer of our rich man. He had hidden in the house early in the evening, had collec - all he could of jewelry and tempted to commit suicide by cutting other portable valuables, and was about her throat with a knife, but though a getting out when he was caught both by the old man and the butler, and that the butler had got the bullet intended for him, as he had run into the room just as the old man fired. Dropping everything in his sudden surprise, he had rushed downstairs and hidden in the hallway, from where he had slipped out as soon as the front door was opened. In the excitement he was not observed, and he got away without any trouble at all, as the nearness to the city made strangers so common that their presence excited no suspicion. I'll never forget that incident, and I'll never be in favor of the death penalty on circumstantial evidence, I care how strong it is. Even lynch law is less unjust."

A Sufferer Relieved.

Tale of Suffering and Subsequent Relief.

From the Press, Columbus, Ohio.

One of the many persons in Columbus, Ohio, who have been benefited by the use of Dr. Williams' Pink Pills for Pale People is Miss Jerusia McKinney, of 50 South Centre Street. Miss McKinney is well and favorably known, especially in educational circles, as she has been for a number of years a faithful and progressive school teacher.

For some time she has been very ill and the sufferings and tortures endured by her for months have been unusually severe.

The tale of her sufferings and the subsequent relief and final cure which she derived from the use of Dr. Williams' Pink Pills for Pale People, aroused considerable sajistion among her many friends and others.

A reporter was detailed to obtain a reliable account of this marvelous case, and when he called he found fliss McKinney at her comfortable and cozy home where she cheerfully complied with his request. She said:

"The first indication that I had that anything was radically wrong with me was about tree years ago. I suffered the most exeruciating pains in different parts of my slody and was almost crazed at times. My sleep was disturbed by horrible dreams and I had begun to waste away to almost a shadow. To add to my other afflictions the malady assumed a catarrhaj turn and I was soon a victim to that horrible as well as disgusting disease.
