CITY NOTES.

Two building sites for the proposed silk mill have been procured on the West Side. One plot on the Farview tract and one on the Fellows estate. An unknown forger, supposed to have been a resident of Mill Creek, was killed while attempting to board a coal train at that place last night. Lieutenant John Davis will act as chief of police during Chief Robbins' absence from the city at Camp Merrill, Mt. Gretna. The chief will return on July 17. The baby carriage which was supposed to have been stolen on Wednesday was picked up by Special Officer Spielman and placed in the Delaware and Hudson depot baggage room. The owner called yesterday and took it away. The Delaware, Lackawanna and Western company pays its trainmen today and Monday. The Delaware and Hudson Canal company paid the employees of the White Oak mines at Archbold and the Horseville division of the Gravity road yesterday. The general committee of the recent British-American celebration of the queen's jubilee at Farview met in Pittston last evening. Several bills were considered, but no definite business was transacted. The committee will meet again on July 23, here. Colonel C. W. Calkins, Dr. O. L. Dates, Robert T. Logie, J. H. Hoskins and P. C. Campbell, who constitute the board of health of Grand Rapids, Mich., called upon Mayor Bailey yesterday. The gentlemen are looking up information in view of the erection of a crematory at Grand Rapids and have already visited Port Wayne, Richmond and Dayton, Ohio. Colonel Calkins is president and Dr. Dates health officer of the board. The other members are city aldermen. HOMEOPATHIC M. D.'S HAVE ORGANIZED

Will Work in Conjunction with the Ladies' Association.

DR. J. W. COOLIDGE IS PRESIDENT

Dr. Anna C. Clarke Secretary--Committees Appointed to Aid in Establishing the Proposed Hospital. Physicians of Other Schools to Be Permitted to Practice There--\$10,000 Subscribed for Two Years' Maintenance--Way the Movement Was Started.

For a number of years the homeopathic physicians of this city have felt the growing demand for a hospital where patients needing special care could be treated by the physicians they would employ in their own homes. This demand grew until scarcely a day passed without some of the physicians having asked when a hospital would be established.

Some of the physicians secured an option on the Home of the Friendless and were about to open a private institution, but the secret leaked out and some of the ladies asked the privilege to open a hospital in which every homeopathic physician of good standing would have an interest. Accordingly a meeting was called at Dr. H. B. Ware's office in April and a society of the physicians of Scranton and neighboring towns was organized for the purpose of promoting the establishing of a hospital.

Dr. Ware, acting as chairman of this meeting, with some very happy remarks regarding the excellent service rendered the new school by Dr. J. W. Coolidge, as the city's oldest resident physician, nominated him for president. He was unanimously elected and Dr. Anna C. Clarke was elected secretary.

A committee, consisting of Drs. Ware, Lange and Brewster, was appointed to aid the committee from the ladies' organization to select a location. Several properties are now in view and an option has been secured on the James Blair property.

At a meeting held on Thursday it was reported that \$10,000 had been pledged to the ladies' organization in support of the hospital for two years. This sum is \$2,000 more than was estimated as necessary. In compliance with a request that committees be appointed to act in conjunction with the general association Drs. Ware, Lange and Brewster were appointed a committee on location, and Drs. Coolidge, Roberts and Brewster a committee on by-laws and constitution. Other committees are to be appointed later.

It was the sentiment of the meeting that patients desiring the attendance of physicians of a school other than homeopathic should be granted the privilege of being attended by such physicians who are in good standing. The next meeting will be held subject to the call of the president.

FATHER MATHEW CONVENTION.

Committee of Arrangements Holds an Enthusiastic Meeting.

The general committee, having in charge the arrangements for the twenty-seventh annual convention of the Catholic Total Abstinence Union of America, which will be held here during the third week of August, met last evening at the residence of Rev. E. J. Molloy, spiritual director of Scranton Diocesan union, and heard reports from the sub-committees appointed to look after the details. J. C. Gallagher, of the committee in charge of the scenic, reported that the work of compiling is under way and progressing nicely. John Devine, of the committee on public meetings, reported that the principal rally will be held at the Lyceum on the evening of August 19. Hotel Jermyn was chosen as the headquarters. St. Thomas college hall will be utilized for the reception of delegates. McLean was given the contract for furnishing refreshments at the Farview excursion. The parade will take place August 19 and it is expected will be the largest Father Mathew parade ever seen in this city. A detailed report of the committee meeting was made to the quarterly convention which assembles tomorrow in St. John's hall, Pine Brook.

WERE IN A JOKING MOOD.

Burglars Send Deputy Sheriffs on a Wild Goose Chase.

Before leaving for the "pen" the three burglars, Murphy, Desmond and Harris, had their little joke. Deputy Sheriffs W. V. Lewis and John Reese tried to pump out of the prisoners the hiding place of the goods stolen from Schläger's, which it will be remembered the trio were convicted of robbing.

Thursday one of them opened up to Lewis and to the great delight of the latter presented him with a map showing just where the booty was hidden. The spot indicated is about three miles above Carbondale in the woods. After the deputies had it to get the booty the prisoners told the others about the jail what they had done and also convinced the fact that it was all a huge joke. The fact that the deputies returned footsore and weary, without the booty, would indicate that it was certainly a joke.

REPAIRING THE ASPHALT.

Dunn Brothers Are Anxious to Get Started at Once.

Dunn Brothers, who were awarded the contract for repairing asphalt pavements in the city are anxious to get to work at once and were at the city hall yesterday to ascertain if Mayor Bailey had signed the resolution passed Thursday night by council awarding them the contract for the work. Inasmuch as the measure had not been signed by the chairman of councils the city clerk was unable to serve a certified copy of it on the mayor. That action will probably be taken today. The mayor has expressed his willingness to sign the resolution.

MULBERRY STREET PAVE.

Work of Putting in Curb Stones Stopped by City Engineer.

Work on Mulberry street is again at a stand still. The curb stones that were being put in did not come up to requirements and City Engineer Phillips condemned them. The contractor is now hunting for more suitable stone. When the Columbia Construction company wanted to begin excavating several weeks ago the city engineer refused to allow it to do so until assured that the company had an asphalt plant on the way here. He did not want the

street torn up for an indefinite period pending the arrival of the plant. He told the officers of the company that whenever they could assure him that in two weeks from that time their plant would be in the city he would allow them to begin excavation. Up to last night such assurance had not been given to him.

SPLIT THE HOSE CONTRACT.

The Holloway Company Is to Furnish the Combination Wagon.

At the meeting of the joint fire department committee last night it was decided to purchase \$750 worth of white Anchor Brand hose, manufactured by the Columbia Rubber Works, Akron, Ohio; \$750 worth of the Maltese Cross brand, manufactured by the Guttapercha Rubber company, of New York; \$400 worth of the Revere brand, manufactured by the Maltese Cross company, of Boston. The two former brands cost \$1 a foot, the Revere brand 95 cents a foot.

A 100-foot piece of hose for the chemical engine was bought of William Pierce, of the city, and 900 feet of garden hose, for use in washing apparatus at the engine houses, was bought of the Columbia Rubber company.

The \$1,500 Holloway combination chemical and hose wagon was selected by the committee for the Columbia Hose company. This is the same company that furnished the Phoenix chemical engine.

There were about twenty bidders for the hose contract and five for furnishing the combination wagon. The recommendations of the committee will have to go to council for adoption.

TWO INQUESTS HELD.

Verdicts Reached in the Fiach and Howells' Cases--Testimony Heard Concerning the Accidents.

Two inquests were held by Coroner Longstreet, at his office on Wyoming avenue, last evening. One was in the case of Leander E. Finch, who was killed at the Marysville breaker June 14, and the other was in the case of Thomas D. Howells, of Nanticoke, who died from injuries received at the Queen's Jubilee excursion to Farview June 22.

Finch was killed by being squeezed between a car and the side of the wall on the lump coal train. The car was broken. He was the section boss at the time and had only a few days before changed the location of the track so that the rails were placed in close proximity to the wall, against which he was squeezed. The jury in the case of the accident he found a dirt car had struck against a stone protruding a little from the side of the wall. He thought "bump" it loose and for this purpose had some of his men bar another car up the grade and let it run against the car that was stuck. He climbed over the wall and onto the car to make the coupling after the "bump," and shouted "let her go." He was in some manner caught between the car and the wall and squeezed to death.

It was shown by a large number of witnesses that there was no necessity of Finch being where he was, and that he, better than anybody else, knew of the danger he was courting and on the strength of this the jury brought in a verdict that death was due to his own carelessness. The jurors were W. G. Moser, Charles L. Teeter, James Frable, Patrick Cusick, F. J. Suidman and A. H. Atkins. The Howells case was also heard and produced to show that the drawhead, which broke and caused the derailment of the train, had been inspected both at Carbondale and Wilkes-Barre, on the day of the excursion; that the drawhead was not inspected after being administered by the conductor; that there were vacant seats in the car, from which he was thrown, and that there was no sudden start of the train at the time it broke in two. The jury, consisting of W. G. Moser, T. J. Duffy, C. T. Kirtland, Fred Kilduff, C. M. French and W. H. Rinehart, brought in a simple verdict that the death was the result of the breaking of the drawhead on the car.

In neither case did the friends of the deceased make any appearance. The Delaware and Hudson on the other hand, was represented at both inquests by Special Officer Martin Crippen.

MERELY RECIPROCITY.

Jones Prosecuted Kelsea, He Says, and Kelsea Prosecuted Jones.

In reference to a case brought on Thursday before Alderman Wright, R. H. Jones said that he had been arrested at the instance of J. Kelsea, for whom he works, and he by order of A. H. Ordway, the South Framingham, Mass., chair manufacturer. Mr. Jones says he does not buy chairs from Ordway. His arrest by Kelsea he claims is in retaliation for his recent prosecution of Kelsea for assault.
