Rev. P. J. McManus, of St. Paul's,

Celebrates His Silver Jubilee.

Children of the Parochial School Gave an Entertainment in His Him a Dinner -- Congratulations and Presents Showered Upon Him engineer. Yesterday .- High Mass with Special

Yesterday marked the twenty-fifth anniversary of the ordination of Rev. P. J. McManus, of St. Paul's Roman Catholic church, Green Ridge. The occasion was quite elaborately celebrated and Father McManus' general popularity makes it safe to say that the jubilee would have been even more elaborately celebrated if its approach had been known in due time.

Father McManus made no announce ment of the event but his congregation learned of it a few days ago and at once began preparations to observe it. The newspapers made note of its approach and despite the modesty of the jubilarian the day was made to him one that he will ever cherish.

On the eve of the jubilee the children of the parcehial school gave an entertainment in his honor at the school hall. Father McManus occupied a seat n front of the stage, his assistant Rev. J. F. Dunn, and Rev. J. S. Moffitt, of St. John's, South Scranton, sitting on either side of him. The hall was filled to overflowing. The programme opened with a song of greeting by the chil-dren. It was entitled "Ring Out Glad Bells" and was composed and set to music for the occasion by the sisters of the parochial school, who also prepared all the other numbers with which the children entertained.

ADDRESSES AND PRESENTATION. There were addresses, allegories, diaogues and choruses, all prepared especially for the occasion, and a presentation of a gold pyx and oil stocks by the graduating class of 1897. The entertainment concluded with an allegory in which twenty-five little girls, each representing a year of the quarter of a century Father McManus has been in the priesthood, offered congratulations.

Father McManus, when called upon for an address, spoke feelingly of the joy the occasion afforded him and thanked the children and the Sisters for their kind remembrances and wellwishes. He said he regretted that he had not made his jubilee of a public nature, that all his friends might have enjoyed the pleasure which the evening had afforded him.

Yesterday morning Father McManus elebrated a high mass in honor of the day. The altar and sanctuary were beautifully decorated and the music for the mass, which was of a high order of merit, was rendered by the children's choir. A jubilee hymn, composed by the Sisters, was rendered during the mass and at its conclusion the Te Deum

was sung. During the day Father McManus was the recipient of many congratulations and substantial remembrances. The Sodality also gave furniture; a tea and coffee set was received from the ladies of St. Joseph's society; a silver water set from the Sisters of St. Joseph's Foundling Home; a burse and stole of gold embroidered white silk from the Sisters of St. Paul's school,

MANY REMEMBRANCES. There were also presents from many

individuals of the parish and from priests of other parishes; also letters of congratulation from a number of Protestant neighbors and friends. Last evening the girls of the gradu-

ating class tendered a dinner at the convent in honor of the jubilarian. Father McManus was ordained at St. Peter's cathedral, July 14, 1872, by Rt. Rev. William O'Hara, D. D. Five other priests were at the same time raised to holy orders. They were Rev. P. J. Murphy, of Olyphant; Rev. P. C. Hurst, of Lovelton; Rev. T. J. Rea, of Sugar Notch: Rev. P. J. O'Rourke, who died in Olyphant some years ago, and Rev. John McDermott, who died in Plains, ten years ago. Rev. Father Rea, of Sugar Notch, had a big celebration of his jubilee yesterday, a parade of the Catholic societies being among the fea-

tures. TO DETECT "LEAN" MILK.

Babcock Tester Secured Yesterday by Food Inspector Culien.

Food Inspector Cullen yesterday received a Babcock milk tester, which was authorized to procure by the board of health at its last meeting.

It is a chemical-mechanical tester and is said to be infallible. A sample of the milk to be tested is mixed with sulphuric acid which causes the fat and caseine to separate from the other substances which may be in the milk. The whole mixture is placed in a long-necked bottle and this bottle is set in a pan which is made to revolve rapidly by means of multiple wheels. After being churned in this violent fashion for seven minutes the pan is filled with hot water and whirled again for another minute or so.

This causes the fat which is the lighter of the two materials to pack itself in the long neck of the bottle and by means of a scale marked on the bottle, after the manner of a measure on a pharmacist's vial, the percentage of fat is readily discernable

Inside of ten minutes the inspector can tell if old "Brindle" has been fed on the surplus potato crop; if the milk cans were left out during the rain storm, or if the big hearted dairyman's wife skimmed off a little cream for Tabby and the little ones.

After the joint meeting, or attempted joint meeting of councils Tuesday night, a number of the Democrats adjourned to Lane's cafe on Spruce street and while lunching Select Councilman Robinson dropped in. Common Coun-cilman Sheridan, of the Nineteenth ward, made some slighting remark to the effect that Robinson was a renegade Democrat.

Robinson retorted by calling Shertdan a boodler. Sheridan rejoined with a blow that sent the selectman to the floor. Friends interfered at this juncture and prevented further dam-

MORE WORK FOR MINERS.

Ten Hours Now Constitutes a Day's Work at the Collieries of the D., L. and W. Co.

Orders have been issued by General Coal Agent W. R. Storrs, of the Delaware, Lackawanna and Western company, directing the collieries of that company to work 10 hours a day and a full week. This order will continue for an indefinite length of time so far as any one knows. The officials seen, state that it represents really nothing more than the usual summer demand which comes this year later than usual. To all appearances the bituminous strike has nothing whatever to do with the increased demand for the effects of the strike are not yet apparent hereabouts.

There has come a general demand for nearly all sizes of coal and this accounts for the issuing of the increased time order. The William Connell, William T. Smith and Pancoast collieries will also work full time.

The conclusion to work about three quarter time in the Delaware and Hudson collieries had just been reached when The Tribune reporter appeared yesterday. This time which stands for the present may at any time be increased to full time in all collieries. It entirely depends upon the continued demand now current for all sizes.

In some casez this demand is greater than the supply. In other cases a winter surplus is available to a certain limit. In answer to the question as to how far the bituminous coal strike effected them, it was stated that no effect whatever is felt.

The Delaware and Hudson coal trade is far removed from soft coal influence and exists in a hard coal burning terriand substantial remembrances. The Blessed Virgin's Sodality presented a by the strike unless long continued

HE WAS AFRAID TO GO HOME.

New York Lad Picked Up Here After

Tramping for SIx Weeks. Lieutenant Spellman and a squad of officers from the North End precinct picked up a gang of five tramps in a freight car on the Ontario and Western road near the Park Place station early yesterday morning.

One of them was a thirteen-year-old boy who gave his name as Emil Swartz and his residence New York city. He told the police that he left home six weeks ago. He went to Coney Island one day and because his chum who had the fare got separated from him and left him at the island over night he feared to go home and started out to seek his fortune.

He falled to find it in Jersey City, Fort Jervis, Lackawaxen or Hawley. So he decided to move farther west. He was thitherward bound when halted by the police. He says he does not know the four men who were in the car with him and avers that they came there after he had arrived. His father, Frank Swartz, a cigar

maker living at 124 Stanton street, was reached by telegraph and will come on for his truant boy. The young wonderer is at present occupying a cell in the woman's ward of the central station house.

CLYMER MEANT TO COMMIT MURDER

Slashed Peter Donahue in the Side with

a Keen-Edged Razor.

INJURED MAN IN THE HOSPITAL

There Is a Deep Gash in His Side Running from the Shoulder Blade to the End of the Ribs .- Donnhue Remonstrated with Clymer Because the Latter Had Threatened to Kill His Sister, Mrs. Bezie Smith -- Cut-

ter Placed Under Arrest.

The dwelling house situated in the rear of the lime yard, near the West Lackawanna avenue crossing of the Delaware, Lackawanna and Western rallroad, has again come under police surveillance. A few weeks ago it will be recalled a man who was in the habit of calling at the house struck one of Keller's drivers with a brick on the head, just in front of the house. Last evening Peter Donahue, who boards there with Mrs. Bezie Smith, was assaulted and slashed with a razor by Jacob Clymer. Clymer is a brother

of Mrs. Smith and boards with her. Donahue was seen at the West Side hospital, where he was taken by the police to have his wounds dressed, and he said that there had been no fracas. CLYMER MADE THREATS. He came home from work shortly before and found Clymer, Mrs. Smith and Bridget Joyce, of Dodgetown, who was visiting there, all engaged in conversation. Mrs. Smith told him that Clymer had threatened, for some unknown

and went to his room and coming back with a razor, told Peter he would disembowel him on the spot. He followed his words by slashing Peter in the left side from the end of the shoulder blade to the end of the ribs. The keen blade cut through clothing, flesh and muscle to the bone. The wound is about eight inches in

cause, to kill her. Donahue sat down

at the table and remonstrated with

Clymer, as a friend, for making such

threats. Jacob soon afterwards got up

length and at the lower extremity quite The police had to force an entrance through barricaded doors and all four parties were arrested. They seemed more or less under the influence of

liquor. DONAHUE IN HOSPITAL.

Donahue was taken to the hospital by Lieutenant Williams and Patrolman Gurrel and the rest were confined in the station house. Clymer immediately went to sleep, apparently unconcerned. They will be given a hearing in the morning.

The injured man cannot account for his assailant's vicious assault. "Why," said he, "I kept that man in food and home all winter, and what should he cut me like this for."

THE ROAR OF CANNON.

It Will Be One of the Features of Buffalo Bill's Wild West Show.

Have you ever heard the roar of The "rattle of musketry" quite common enough, but how about the "roar?" Every man, woman and child, who can read at all has read about it. Those who live in the vicinity of military posts have heard merning and evening the sunrise and sunset guns. But have even these heard the real roar of artillery in action? Not many. Well, you can now both hear and see the real thing, for among the many novel additions made to the programme of Buffalo Bill's Wild West and Congress of Rough Riders of the World are batteries of flying artillery, and it is Uncle Sam's

own srtillery, too. You will see these modern cannons handled exactly the same as they are upon a field of battle. The horses will dash cuto the immense arena with the enormous guns, the cannon will be unlimbered, sighted, loaded, aimed, you will see the lanyard string pulled and the gun fired, you will see the re-coif of the gun; the steam-like puff of vapor at the muzzle, caused by the smokeless powder; in short every absorbingly interesting detail of the most effective, destructive and awful warfare will be seen more clearly than it could be seen amid the smoke and crash of a battlefield and you can see it all without having to witness the terrible carnage and dreadful horrors

of actual war. This one feature alone will more than repay any one for the visit they may loake to this entirely unique and marvelcus exhibition. It will be here on Friday, July 30.

NORTON WANTS HIS CHILDREN.

They Are Now in the Possession of His Mother-in-Law.

John Norton, of Carbondale, was tefore Judge Edwards yesterday demanding the possession of his two children who are now in the custody of his mother-in-law, Mrs. Michael Devine, of the same place.

Some time ago Mr. Norton secured writ of habeas corpus and the hearing was held yesterday before Judge Edwards. After listening to the testimony the Judge announced that he would give his decision latter. The mother of the children died several months ago.
