CROCKERY TO BE ADVANCED.

New York, July 27.—Crockery is to be advanced in selling price because of the new tariff law. This was decided upon by a resolution passed today at a meeting of the importers of earthenware of New York, held at the crockery board of trade. There have been general reports of late to the effect that importers have brought out enormous stocks in anticipation of the change in tariff. This was denied at today's meeting, and the figures from the freight and shipping circular issued by John Edwards & Co. of Liverpool, England, were produced to show that no importers nor dealers had anticipated their needs. The figures show the excess of shipments from Liverpool to the United States for the first six months of this year, is but 2 1/2 per cent. increase over 1896, and 1 1/2 per cent. decrease as compared with 1897.

Transparent Fish.

New London, Conn., July 27.—A new fish for this latitude has struck in at Saybrook. Hundreds have been caught in nets this week. The fish is transparent as though X-rayed. Captain William Flint, an old southern fisherman, says the fish resembles a fish found in the St. James river in Florida called wapes, but these fish were never known to come north before.

ATTEMPTS MURDER.

Arrested for Beating a Boarder, She Tries to Kill Her Own Offspring. Phoenix, N. Y., July 27.—Smarting under the shame of arrest and conviction for brutally clubbing a 10-year-old boy boarder, and perhaps crazed with the thought of the death and consequences, Mrs. Frank Horr attempted suicide yesterday by eating Paris green. She also declared her intention of murdering her children, aged 4 and 5 years, by cutting their throats. This timely arrival of the husband prevented her doing harm to her offspring, but she herself may die.

FIRE AT YONKERS.

New York, July 27.—Fire at Yonkers, N. Y., this afternoon destroyed two large factory buildings owned by William Reed & Co., hat manufacturers; Rowland Brothers, silk manufacturers; Pass Brothers, silk manufacturers; and the Yonkers' Hat company. There were 90 men and girls in the building, the third, fourth and fifth floors of which were occupied by the silk factories. Intense excitement prevailed while the employees left the building by the fire escapes, the girls being taken out first, and all losing their shoes. A fire alarm was given. The lowest estimate of the losses is \$400,000, and the others run as high as \$500,000. The insurance will probably nearly cover the loss.
