Martin and he went down to the Kearney residence on Hazle street. He was taken up to the girl's room and found her ill in bed. She seemed flushed and excited and was constantly watched by other members of the family. Dr. Boyd Dodson was sent for and gave the sheriff a certificate that the girl was ill, suffering from nervous prostration and was unable to be moved. The sheriff returned without the girl and stated to the plaintiff's attorney that he would bring her into court when she was able to

SAND ON HIS TROUSERS.

An uncouth old rancher from the San Joaquin valley was making his weekly trip to Stockton the other day, and hanced to be sitting with an impertinent Bid. Asked 20 80 drummer in the smoking car. The old man helped himself to the matches from 100 the railroad box, and tried to strike one 95 and then another. 150 "You have to scratch them on the box,

COAL POLICE DOOMED.

Rumored the Companies May Dispense with the Famous System.

Hazleton, Aug. 2 .-- If the officials of the Lehigh Valley Coal company du rescind their decision to employ in the future only the regular watchmen about the collieries, and to dispense with its coal and iron police, it is feared the latter system will be doonud.

The system was organized by the various companies years ago, wher lawlessness and crime were common in this section, and great services have been rendered by the members of the force. It is understood that the main for the Lehigh Valley's action it that the company will save considerable money by reorganizing a force through its watchmen.

A meeting of the representatives of the companies will be held in this city this week at which the coal and iron policemen will endeavor to persuade the companies to break away from their decision for the abolition of the system.

WRECK ON THE "PENNSY."

Eight Londed Freight Cars Are Derailed at Mocanaqua.

Wilkes-Barre, Aug. 2.-At 6:30 o'clock this morning a Pennsylvania freight train coming toward this city was wrecked about a quarter of a mile below Mocanaqua. Eight freight cars, loaded with iron, lumber, etc., left the track. The wrecking crew from Sunbury was called out and it required the greater part of the day to clear the tracks. Both tracks were blocked and it was necessary to transfer passengers going in eiteer direction.

The wreck was caused by a drawhead pulling out as the train was crossing a switch. Nobody was hurt.
