When the appetite fails there is no use in trying to tempt the palate with delicate food No matter how good and well-cooked and "appetizing" the food may be, it cannot give any nourishment unless the stomach is le to digest it. Nature indicates the state

able to digest it. Nature indicates the state of the constitution by the loss of appetite. This is an unfailing indicator. It shows that something is fundamentally wrong with the nutritive functions.

The only true natural relief must be as searching and fundamental as the trouble it aims to overcome. It is the thorough deep-searching character of Dr. Pierce's Golden Medical Discovery, which causes the marvelous efficacy in all bilious and digestive difficulties. It creates that healthful vitality of the entire digestive and nutritive organ. of the entire digestive and nutritive organ-ism which produces both the natural desire for food and the organic capacity to assimi-late and transform it into nourishing, reviv-ifying blood and healthy tissue. It gives appetite, digestion and sound sleep, and builds up solid muscular strength and vital nerve-energy.

I heard a friend speak of Dr. Pierce's Golden Heard Discovery, and thought I would give it a trial. I used about five bottles of it and think it is the only medicine that did me any good, as I have a splendid appetite now, and am not using any medicine at all and don't think I need any more."

A man who is suffering from the evil effects of constipation doesn't feel like work, and can't even enjoy his leisure hours. Dr. Pierce's Pleasant Pellets are a hours. Dr. Pierce's Pleasant Pellets are a sure, swift, safe, and permanent cure for constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, and two a mild cathartic. MRS. LYNESS ESCAPES

The Hospital and a Fearful Operation.

Hospitalsingreatcities are sad places to visit. Threefourths of the patients lying on those snow-white beds are women and girls. Why should this be the case?

Because they have neglected themselves! Women as a rule attach too little importance to first symptoms of a certain kind. If they have toothache, they will try to save the tooth, though many leave

even this too late. They comfort themselves with the thought that they can replace their teeth; but they cannot replace their internal organs! Every one of those patients in the hospital beds had plenty of warnings in the form of bearing-down feelings, pain at the right or the left of the womb, nervous dyspepsia, pain in the small of the back, the blues," or some other unnatural symptom, but they did

not heed them. Don't drag along at home or in the shop until you are finally obliged to go to the hospital and submit to horrible examinations and operations! Build up the female organs. Lydin E. Pinkham's Vegetable Compound will save you from the hospital. It will put new life into you.

The following letter shows how Mrs. Lyness escaped the hospital and a fearful operation. Her experience should encourage other women to follow her example. She says

to Mrs. Pinkham: "I thank you very much for what you have done for me, for I had given up in despair. Last February, I had a miscarriage caused by overwork. It affected my heart, caused me to have sinking spells three to four a day, lasting sometimes half a day. I could not be left alone. I flowed constantly. The doctor called twice a day for a week, and once a day for four weeks. then three or four times a week for four months. Finally he said I would have to undergo an operation. Then I commenced taking Lydia E. Pinkham's Vegetable Compound, and

after one week I began to recover and steadily improved until I was cured completely.' By taking the Pinkham medicine, I avoided an operation which the doctor said I would certainly have to undergo. I am gaining every day and will cheerfully tell anyone what you have done for me."-Mrs. Thos. Lyness, 10 Frederick St., Rochester, N. Y.
