

RANKS OF THE

TWO CENTS.

THE CRISIS IS

SCRANTON, PA., WEDNESDAY MORNING, AUGUST 11, 1897.

WARNING TO GOLD SEEKERS.

TWO CENTS

APPROACHING Next Few Days Will Determine if Strikers' Object Is to Be Realized. RAIN AT TURTLE CREEK

Interfered with Programme of the Marchers.

Conditions Much the Same As On the Day Previous -- The Company Claims to Have Made a Further Break in the Rank of Strikers -- De-Armitt Withholds Pay and Becomes Sympathetic -- Debs to Speak at Irwin.

Pittsburg, Aug. 10 .-- A crisis is fast approaching in the miners' movement against the New York and Cleveland Gas Coal company. The next few days should determine whether or not the strikers object will be realized. To-day's work, was not viewed in a disappointing light by the campers at Turtle Creek, Sandy Creek and Plum Creck, yet the happenings were not of the most encouraging sort. They had to contend with their first spell of had weather. A heavy rain drenched the camps and prevented the marchers from carrying out their regular programme. At Plum Creek, the rain and continued absence of a band, kept the men in their quarters with the result that little, if any, missionary work was undertaken. The storm also had the effect of preventing the march to the Spring Hill mines, between Wilmerding and Wall Station, which are owned by Alex. Dempster. The only march of the day was made by the 150 men at Camp Determination, who left camp shortly after 5 o'clock and marching close to the Oak Hill tipples, spent two hours in the vicinity of the miners' homes. There was not even ordinary excitement attached to the invasion

along Thompson's run. A summary of the day's development finds conditions much the same as they were yesterday save that the company claims to have made a further break in the strikers' ranks at Turtle Creek and Sandy Creek.

The Plum Creek mine was running

and Cleveland Gas Coal company to take the miners' strike into the United States the miners' strike into the United States court here, ask for an injunction in be-haif of the New York stockholders of the company and thereby secure the aid of United States troops in dealing with the strikers, has been abandoned, if it was ever entertained. William P. De Ar-mitt says he never had any intention of going into the United States court. The company's attorney is quoted as say-ing he would take the case to court if ing he would take the case to court some one would show him a way to get it there. Other lawyers say the com-pany would have no standing in the fedthe Department of Labor -- The eral court in this matter. Coal is in slow demand this week, as compared with **Progress of the Wage Earner in the** last week. Buyers are not so numerous Social Scale Noticeable. nor are sellers able to get such high prices. River coal is "off" from 10 to 25 cents a ton, and slack sold down to 45 cents per bushel. Virginia is in light de-mand, and prices have greatly weakened. The Labor Tritune has received a let-ter from a correspondent at Blemingham. Washington, Aug. 10 .-- Comparative figures compiled by the department of Labor in the form of deductions from ter from a correspondent at Birmingham, the last census statistics, relating to Ala., stating that agents are at work there securing negroes to take the places workers at gainful occupations, point to the fact that persons at work, esof the striking miners in the north. The letter says that small-pox is prevalent among the colored people in that section pecially females, have increased very much faster than the population at large. As a result the statement shows and asks that the authorities be warned of the danger of spreading the discuse through the north by permitting the imthat a portion of workers relative to the total population and to the whole number of people of the respective

Bloomsburg, Pa., Aug. 10.-A large and exciting Democratic county convention was held here this afternoon. R. G. F. in the two rooms in the rear of the store, Lemon slept in one room and it is Kashinka, of Bear Creek, was chosen chairman. William W. Black, of Rohrs burg, vas nominated for sheriff on the first ballot. Alexander Herring, uncle of are no powder marks upon Lemon's lector Grant Herring. WA nominated for associate judge on the third ballot; George B. Homer, for jury com-missioner, and W. A. Gerrity, of Cen-tralia, for coroner. The rules, as formulated by Senator C. R. Buckalew twentyurday night we closed the store about midnight. I was tired, but I fixed Lem-on in his chair and went to bed in the vote of 73 to 20. Mr. Buckalew, who was a delegate, made a strong fight and a lengthy speech, defending his old rules and trying to defeat the new, whereby the people vote direct for the candidate. The convention endorsed the Chlcage platform and William J. Bryan, "as the bold and fearless leader of a glorious cause and who will sweep the country in 1900 and replace the reign of trusts by the reign of the people."

Large Amount Received at Philadelphia During the Month of July.

THE HAWAIIAN

SUGAR IMPORTS

A FACTOR IN PRODUCTION

Will Affect Western Interests to a Marked Degree.

The Beet Sugar Interests Threatened -- Producers Will Now Feel That They Have Good Reason for **Opposing the Annexation of Ha**waii--Shipments of Sugar to Eastern Markets Is Regarded with Apprehension.

Washington, Aug. 10 .- The evifence of a new factor in the production and distribution of sugar is believed to have been found in the port records of invoices in this country during the month of July. This consists in the entrance at Philadelphia of 13,441,478 pounds of Hawallan sugar, as against 29,564,635 pounds at San Francisco. The significance of these figures is found in the fact that this is only the second month in which involces of sugar from Hawaii have ever been recorded at Philadelphia, and in the further fact that the receipts at San Francisco show a considerable fall-ing off. Only six or seven times has Hawallan sugar been received at the port of New York.

The official figures were given out at the Treasury department today. A fact to be noted in connection with the imports of Hawalian sugar at Philadel-phia in July is that the invoices were not the result of anticipatory tariff legislation, for all Hawalian sugar is admitted to this country free of duty. The talk of abrogation of the ireaty cruld have had no effect in rushing sugar hither, for the abrogation, as was well known, could not take effect ustil after a year from the time notice should be given.

An official of the treasury said today that he regarded the shipment of Hawalian sugar to Eastern ports, which was a thing unheard of up to a few months ago, as a sign of the growth of the beet sugar interests in the West and of the fact that the Pacific coast market is becoming overstocked with the local production and the Hawaiian importations combined. He believes that this shipment of the Hawaiian product to the east is a matter of great moment to the beet sugar producers of the far West, BEET SUGAR INTERESTSTHREAT. ENED. "It seems to me," he said, "that the beet sugar men will now feel that they have more reason than ever to oppose the annexation of Hawaii, The production of sugar in those islands is limited only by the extent of the cultivation of the industry, and the production seems likely to increase greatly within the next few years. It is well known that transcontinental rail freight rates are very high as compared with ransportation by water. So I should say, in an offhand way, without having investigated the question of rates arefully, that there was great danger that the beet sugar producers will be seriously handicapped when they are eady to expand their trade so as to include the East as part of their mar-

considerable coal today and the number of men reported at work equals that of vesterday. The failure to hold a meeting at Camp Isolation was an anticipating feature of the day and the men are loudly clamoring for the presence of the officials. The batch of Italians that struck camp yesterday are expected to do much good among their fellow countrymen at work in the Plum Creek mine, but active labors are being withheld until tomorrow morning, when it will be positively known whether or not the men propose remaining away from the pits.

This afternoon District President Patrick Dolan accused the operators of the Pittsburg district of having broken faith with the striking miners in this district. He also outlined the policy to be pursued by the United Mine Workers in their fight in the Central Pennsylvania district, where it is proposed to close down all the mines. He cannot predict when the strike will be settled, but claims his organization can stand the strike until the last of September.

DE ARMITT WAS SYMPATHETIC.

The operators, he said, had promised to pay the price when the supply at De Armitt's mines had been off. This has been done, but the operators did not keep their part of the contract. The miners who have been working regularly at Oak Hill mines, were paid this afternoon. Those who joined the strikers did not get their cash, the sion and the men were sent flying through the air. The other men in the quarry company holding it as under the conran to their assistance after they had re-covered from the shock and found them mangled and bleeding from numerous tract the men forfeited their wages by striking. There was no excitement. Between 300 and 400 employes were on ugly wounds. hand, but few of them received any Lillis' right hand and Weir's left hand were blown completely off and the fingers of their other hands hung by shreds of torn flesh. Lillis also lost his noney. Mr. De Armitt made a speech to the men, telling them he sympathized with them and that the money was withheld, not because the company wanted it, but because it had to carry will probably dis out the terms of the contract. He denounced the midnight marching and the encampment and said it was a blot upon the history of the country that the laws are not enforced and such movements stopped.

An epidemic of typhoid fever prevails in the Turtle Creek valley and it is feared that the disease will break out in the miners' camp. The health authorities have warned the citizens not to use the water from Turtle Creek as it is known to contain typhoid germs.

Turtle Creek is the only stream within several miles of the camp and the strikers are compelled to use the water for drinking, cooking and bathing pur-Altoona, Aug. 10 .- The fact that Eu-

gene Debs is to address the coal miners at Irwin tomorrow evening causes uneasiness among the mountain operators. Although there is no apparent dissatisfaction in this district, except at the Mitchell mine at Gallitzin which is working below the regular mining rate, the near approach of the agitators may change the situation. Some of the mountain miners stopped work Monday to attend a meeting advertised to be held at Tunnel hall for the pur pose of giving assistance to the striking Gallitzin miners, but no meeting was held. They were all at work again today.

AUSTRIA'S WHEAT CROP.

ket."

Infavorable Harvest Prospect, Aggravated by Floods. London, Aug. 10.-A dispatch to the Times from Vienna says that the un-favorable harvest prospects in Austria-

Hungary, which have been aggravated by

the floods, have caused a rapid rise in the prices of cereals, which are now standing higher than any figure they have reached for many years. This is especially the case with wheat, which

was freely offered months ago for autumn delivery at six florins per cental. It is now purchased at eleven. With a view of

allaying anxiety the Hungarian minis-try of agriculture has issued a report to the effect that the condition of crops

is less unfavorable than has been sup

The total wheat yield is computed at

27,000,000 metric centals. This, however, is far below the average and will leave almost no margin for export: whereas
