TUNKHANNOCK.

A large number of the Knights of Pythias attended the Grand Lodge at

Scranton on Wednesday.

Mrs. Charles Terry, of Forty Fort is visiting Mr. and Mrs. George Heck-Miss Susie Schoonover, of Weatherly,

is visiting in town. Ziba Billings and wife attended the Squires' family reunion near Nichol-

son, on Wednesday. Miss Verne Mack, of Weatherly, is visiting friends here.

Mrs. Z. Wells Reynolds and son, Stewart, returned to their home in Procklyn today.

Mrs. Brown and daughter, Amy have returned to their home, in New Haven, after spending a month with friends here. Mr. Brown has been engaged to occupy the pulpits of the Meshoppen and Mehoopany Presbyterian churches for a time.

On Monday afternoon the Tritons g to Nicholson to play their fifth and last game of ball with that team. The game is being looked forward to with much interest as it will decide the best three out of five. The Tritons went over to Nicholson on Monday of this week and some one, whose name it would hardly seem just to mention here, telegraphed the Nicholson manager to look out for Tunkhannock, as they were coming over well prepared. It was a trifling matter and probably had no significance, but it showed clearly a lack of forethought for person at home, although in sympathy with the opposing team, to incur th displeasure of his fellow citizens by The Nicholson such a movement. manager, after having torn the namof the sender off, displayed the telegram on the ball ground. Tunkhannock will play about the same team on Monday as usual, and whichever wins, it is hoped the same friendly feeling which has heretofore existed will continue.

The largest crowd that has attended the Grangers' picnic in many years was at Lake Carey yesterday. Montrose railway did a thriving business. On the train which left here at 8 30 a. m., there were about 600 passengers, and a special train went up at 12.30 a. m. in addition to the regular trains. The steamers on the lake did a rushing business.

Mr. and Mrs. Howard Hungerford have been in New York city for a few

A. H. Sterling and family, of Me hoppen, are occupying a cottage at

Lake Carey. Charles Wintermute, who has of late been making his home in Watertown. Conn., is visiting relatives here. Steven D. Streeter is visiting hi parents for a few days. Mr. Streeter

is employed by an electric light con

### WYOMING.

cern in West Philadelphia,

A quiet wedding was held in the Presbyterian church on Thursday evening at 7 o'clock, the contracting parties being George Glutz and Miss Emma Goode, daughter of John Goode all of Wyoming. The ceremony was performed by Rev. W. Scott Stites, the pastor of the church. Only a few friends were present besides the immediate relatives of the bride and the groom. After the ceremony Mr. and Mrs. Glutz were driven to the home of the latter's parents, where they will remain for a time

The Sons of Temperance gave a mu sical and literary entertainment in their rooms on Wednesday evening and was largely attended. Among those who participated in the rendering of the programme were the Misses Cora Lloyd, Nellie Totten, Altheda Lloyd, and Frank Gray. Frank Nuss gave an address. At the close of the exercises ice cream was sold and quite a sum was realized.

On Tuesday evening of next week a fine entertainment will be given in the Presbyterian church by Misses Tillie Evans, elecutionist, and Anna Thomas pianist. The price of admission will be

25 cents. Mrs. Charles Penny is spending a

week at Lake Carey. E. J. Howell has been given the work of re-erecting the chimneys on the graded school building, which were blown down by last Sunday's wind and rain storm.

Mrs. Frank Rozelle, of Scranton, is visiting her parents, Mr. and Mrs. Geo. Wilson, at Mount Zion.

Workmen have been engaged during the week relaying the crossing on Eighth street over the D., L. & W.R.R. Albert Smith and family returned home this week from a trip to Danville.

Harry Laycock is enjoying an outing with the Illenild club, which is camping at Bloomsburg. Mr. and Mrs. J. I. Shoemaker left yes-

terday to attend the G. A. R. encampment at Buffalo

Rev. Robert R. Thompson, pastor of the Baptist church, and Rev. Claude G. Langford, pastor of the Baptist church of Pittston, will exchange pulpits on Sunday evening.

#### FACTORYVILLE.

The Baptist church is undergoing quite extensive repairs.
S. M. Reynolds, of Terre Haute, Ind.

was a very pleasant visitor here a few days this week. Mr. Reynolds is a prominent attorney, and real estate agent of the above-named place, Steve, as he was commonly called here, got his education, and spent the earlier part of his life in this place. He was a brother of our townsman N. B. Reynolds, and also of H. C. Reynolds, of

Mr. William Thompson, of West Pittston, was looking over things up at Keystone academy, where he was once a student. Mr. Thompson will enter Bucknell college this year. Burgess Klinefelter held his first

ourt last Thursday morning, and gave the two men from Scranton a hearing for disturbing the peace and rioting the night before. He said two dollars and a half apiece, and they promptly paid their fines, and were discharged. They were not fortunate enough to go their way rejoicing then, but were confronted by a Nicholson constable, who already had them under arrest for stealing chickens the day before. With the assistance of one of our officers they were escorted to Nicholson, where the chickens were stolen. There they settled their case for ten dollars and gave as security for the same their team of ponles,

Norman Brown and Harry Brenton both of West Pittston, were up on their bikes and spent a couple of days this week at the home of A. A. Brown. Our town was nearly deserted last Thursday on account of the Grangers picnic at Lake Carey, which was reported to be the largest ever held

H. B. Zweizig, of Mayfield, is over for a few days visiting his parents. Dr. Paul Wilson, of New York city,

is home for his vacation. F. L. Foster and company have pur chased the right to the ice cream parlor and fruit stand in the basement of the grand stand, at the Wallsville Driving park. The fair will be held this year Sept. 7, 8, 9 and 10. They offer a premium to the lady baking the best loaf of bread made from Censota flour, and, of course, it will come to Factoryville, as we certainly have some of the most expert bread manufacturers that can possibly be produced.

Dr. Peter Winters, the well-known and prominent physician, of Dunmore who died last Thursday, was a brother of our neighbor, N. B. Winters, of Clinton township, who will leave today to attend the funeral, which will be conducted Sunday afternoon.

The Missos Phoebe and Emma Armstrong, of Scranton, are at the home of their parents for a few days. Any comrades of G. A. R. post, No. 11 can avail themselves of the use of free quarters at Buffalo during the national encampment by providing themselves with a blanket and towel. and joining the special train from Scranton Monday, Aug. 23, which will leave this place about 19.30 a. m.

Rev H. H. Wilbur has been attendng camp meeting at Caramel Grove, near Binghamton, this week. He will also visit Sidney, N. Y., before returning home. The Ladies' Circle, Grand Army of

Lake Sheridan yesterday. Mr. and Mrs. Will Capwell, B.oomsburg, will spend next week with elatives here.

A very pleasant guthering occurred iast Thursday at the home of George Siscon, it being a family reunion of the Manchester family and their decendants. This pleasant occasion rought together relatives of the family that had been unable to meet tocether for twenty-seven years, makng it a most pleasant as well as a grand, good social time. The usual entertainment and good things to eat were included in the day's programme. Those present were as follows: Wilham Earl Manchester and wife, the misses Alice and Gertrude Northup, George Sissen, wife and children, Robert, Earl and Ruth, Dr. A. B. Fitch wife and children, Allan and Violan W. N. Manchester, wife, sons, Earl, Roy and Edwin, and daughter. Dorothy, all of Factoryville; Mr. and Mrs. Myron Dean and Mrs. E. L. Dean, of Scranton, Pa.; Mr. F. N. Manchester, Wilkes-Barre, Pa.; Mrs. Sarah Man-chester and daughters, Fannie and Lucy, Boston, Mass.; George E. Manchester, wife and daughter, Mary, of Providence, R. I.; Mrs. Mary Eaton, Lalton, Pa., and Mrs. A. C. Sisson, La Plume, Pa.

### NICHOLSON.

The Salvation Army will hold a camp neeting today and tomorrow on Potter's Island, near Glenwood. A large delegation from Scranton came up last vening to assist Mrs. S. W. Harding, of Binghamton

was calling on friends here Friday. Taylor, of Binghamton, passed through here yesterday on her was to Russell Hill, to visit her sister, Mrs. Provost.

Professor C. A. Jacques, of Providence, R. I., will lecture on "Man's True Position" at the opera house, Sunday afternoon at 3 o'clock. All are invited.

The annual Dimock camp meeting will begin next Wednesday and continue eight days. Soloman T. Walker has received the appointment of postmaster at Keelers

A WONDERFUL MACHINE.

Which Engraves Microscopic Lines

With Absolute Exactness. Recently a large defraction grating spectroscope, for use by a German astronomer, was finished in the shops of John A. Brashear, of Allegheny, Pa., and the New York Tribune takes the occasion to call attention to the unique and remarkable piece of machinery with which the instrument was made Rev. William Trieble has returned The machine referred to is the rul-

## CARPETS.

We have the finest line of carpets ever brought to Scranton, all grades and prices. We also carry a full line of Draperies and Window Shades that we can save you money on by purchasing of us. Fancy Chairs in Upholstery, Willow and Rattan at about one-half the prices others are asking for them. For cheap Stands and Tables see our surely save money by it. window display. Remember we are closing out our Wall Paper stock at less than half price.

from his vacation and will occupy his pulpit to-morrow both morning and

ing engine of Professor Hopkins university. The grating in question is a metal plate, slightly concaved and engraved with microscopic lines. Bras-hear prepared the plate and then sent Baltimore for treatment in Professor Rowland's laboratory, where it was engraved with lines so fine and so close together that there are 110,000

of them to the inch. A similar comparision will enable to realize what this means. In the majority of books there are from 200 to 250 leaves to the inch when the covers are pressed firmly together. In a small minority, the number will targe from 300 to 350. Now, if we could split one of the very thinnest of these leaves into 300 layers of uniform thickness, the product would be equiva'ent to 105,000 to the inch, or a little less than the number of lines in this spectroscope grating. It must be remembered, moreover, that there must be a little space between the lines, if one is to be distinct from the other, Therefore, if an inch be divided up into 1,000,000 equal parts, nine of them would be covered by a line and a space. It is stated that the space was 3,000,000ths wide; from which it must be inferred that the line was 6,000,-000ths of an inch wide. Of course, it is impossible to see such lines with the naked eye. Only a very powerful microscope would reveal them. But they are there, and as smooth, straight

and regular as one can imagine. The ruling engine is kept in a dark chamber, underground, in a dust-proof glass case, and when in service is guarded against temperature changes with almost inconceivable caution. No one is permitted to enter the dungeon at such times, and only a very few on any other occasion. The principle of the apparatus, however, is very simple, A diamond point, whose selection occupled months of time, because of the need that it should possess a certain prescribed shape, has been mounted. a tiny carriage that is driven to and fro over the mirror, propelled at an exceedingly uniform speed by means of a hydraulic motor. After each trip, the carriage is moved a little to one side, so that the diamond will cut its next line in a new place. This adjustment is made automatically, at the right instant, by a screw, which is the crowning glory of the whole mechanism. It is the perfection of accuracy. The screw remains motionless while a line is being engraved, is then turned a small fraction of a revolution by gearing, and again keeps still while the dia-

mond is at work. In several of the best gratings now in use, there are only from 10,000 to 40,000 lines to the inch; 110,000 has thus far been attained in only two or three instances. One instrument in which the ruling had this degree of fineness was completed about two years ago, and went to the Royal Observatory in Dublin. Another was ordered for Magill university in Montreal. The one just finished is to go to Hans Hausawaldt, a wealthy scientist of Magdeburg.

## THE MARKETS.

Wall Street Review.

New York, August 20 .- The process of realizing profits, on the long continued advance in the market went on today and was reflected in the heavy tone of the market and the cessation of active outside buying. The selling was much of it by commission houses, and is persumably of holdings by the outside public who have grown fearful of a decline. Although offerings on the Republic, No. 104, picnicked at this account was large and although the day's sharp decline uncovered large numbers of stop loss orders at times the offerings were pretty well absorbed. Orders are apparently waiting in the market to buy on a scale down so that prices meet a resisting force before they have receded far.

Prices in the stock market did not respond to the sensational rise in wheat as is sometimes the case. So far as this rise was due to buying for export and to the jump in the price of wheat in England and the continent. it was a favorable influence on stocks as indication increased purchasing power in the hands of the farmers.

Total sales were 408,200. Furnished by WILLIAM LINN, AL-LEN & CO., stock brokers, Mears build-
