TWO THOUSAND MINERS ARE IDLE

They Are Forced Out by Hungarians and Italians.

TROUBLE CAUSED BY FOREIGNERS

Collieries Near Hazleton, Pa., Closed. Bosses and Coal Police Unable to Protect the Property -- No Definite Reason for the Strike Known. Strikers Are Again Marching.

Hazleton, Aug. 27 .- The threatened strike at Van Wickle's Coleraine and Beaver Meadow collieries took place this morring. The Hungarians and Italians are masters of the situation, and 2,000 men are idle pending the decision of the foreign element. Last night the foreigners held a meeting, and at a late hour they visited the homes of their countrymen, pulled them out of bed and delivered the edict, When the officials arrived at No. 2 colllery this morning they found the mine closed and a placard bearing the word "Stragk" placed upon it. was the announcement of the strike.

Two hundred men marched to the canal this morning, where they were joined by 100 more. They then went to the breaker. The bosses and coal and iron police tried to stop them, but they were hustled aside, and the breaker was cleared. The carpenters and blacksmiths were driven from the shops and a squad of one hundred men marched toward the Evans colliery.

It is said that the strikers will invade the Milnesville district this afternoon. The strikers are without an intelligent leader, and their grievances are but partially understood.

A meeting is called for this afternoon, when the demands will take formal shape. The English-speaking miners are not in the movement, but

they can do nothing at present. When the Coleraine strikers reached Milnesville this afternoon after passing through this city they drove the one thousand men employed there from the strippings and breakers, shutting down the mines completely. The excitement was intense. The streets were crowdel with men and women, great crowds going from this city to Milnesville with the strikers. The mines here have been the best in the hard coal region and the only ones that have worked steadily during the past year.

Tonight a meeting was held and the Hungarians decided to stand by the Coleraine workers for an increase of wages. The dispatch relating to the decision of the supreme court declaring the alien tax law unconstitutional. was read and loudly cheered. This tax has figured conspicuously in the present strife. A joint meeting will be held tomorrow. The English-speaking miners would go to work at once, but the foreigners are in a large majority, and will not permit it. It is stated tonight that the uneasiness among the foreigners employed by all other companies here is becoming prevalent, While they have had no labor organization every man belongs to a society which is said to have had the present

movement in hand. The miners at Big Run and Punxsutawney went on strike today in sympathy with the Reynoldsville and Du-Boies miners.

Slabtown, the plague spot of Unity, where the negro railroad laborers have been holding high carnival for several weeks, still stands, but it will go up in flames and smoke before the day is over. Twenty deputies have been detailed to assist Constable Kersten in applying the torch, and if there is any resistance from the negroes the strikers stand ready to aid them.

SHOPS CLOSED BY STRIKE.

One of the Results of the Difficulty in

Soft Coal Regions. Lubois, Aug. 27.-The Buffale Rochester and Pittsburg railway shops at this place, closed down indefinitely tonight. This is a direct result of the miners' strike. The road's freight business is principally in hauling coal and there being no coal for shipment there will be no need to build or repair cars. Two hundred shopmen and many railroad men are out of employment on account of the strike and nearly \$2,000 per day are lost to citizens of this community.

Nothing has been done today by either the miners or operators. It is now pre osed for the miners who want work to try to hold a meeting Monday to reconsider the decision to strike.

He was found in his cell by Officer Geller this morning besmeared with blood from head to foot. The knife had penetrated his windpipe, and, as Geller told the sergeant at the desk, "he was breathing through his neck."

Several pieces of paper were strewn about the cell, on which Dolan had written paragraphs to the effect that e was out of his mind and woke up to find his throat cut. "She is the only friend I have in the world," was the sentence on another piece of paper.
