QUARANTINE IS EFFECTIVE

A Check Placed on Yellow Fever at New Orleans.

HEALTH OFFICERS CONTROL

Arrangements Perfect for Prompt Reports.

Three Cases Reported at Biloxi. Placed Under Guard--No Alarm Felt--Quarantine Against Bay St. Louis and the Pass Raised.

New Orleans, Sept. 8.—The Louisiana board of health is today in full control of the situation. Although perfect arrangements have been made for the prompt report of either yellow fever or suspicious cases, up to 10 o'clock today there had not been a single case reported to the board, and the authorities frankly declare that any more sickness of virulent type will be imported. In the case of New Orleans' clean bill of health, however, towns in Louisiana and Mississippi continue to declare quarantine. There is much more alarm outside than in this city, where confidence is entirely restored. It is confidently believed, however, that immunity will bring back for eight or ten days from yellow fever and the Mississippi and the Louisiana towns to their senses, and move them to tear down their barriers.

CASES AT BILOXI.

A dispatch from Biloxi received at 10:30 o'clock today says that the three cases reported last night are the only ones that have so far developed at or around Biloxi. The people there are quiet and no alarm is expected. In the immediate vicinity of Point Cadet it is not unlikely that there will be others stricken besides those who are already on their backs. In the section mentioned the conditions are such as to invite an increase in the number of cases. In the meantime the measures are being taken to confine the disease there. An effective cordon will be instituted; there will be general disinfection and expert physicians will apply themselves to the task of treating the sick. Thus far there have been no pressing appeals from Mississippi for physicians to aid the doctors who are there and unless here is a wide spread of the disease the present force of physicians at Biloxi and Ocean Springs will be able to handle all existing cases. Both towns, however, are in need of supplies and are appealing to the railroad company to promptly arrange for the sending to them of needed supplies.

MAIL SERVICE.

The mail service was gotten into pretty fair shape yesterday. Postmaster Daniels proposes to have all mails regularly handled very soon. There are still some seven or five people at Ocean Springs from other points among them several prominent citizens of New Orleans now there. They were caught by the quarantine and unable to get out, and the board of health there are so strong and so great that even high influence is unable to get over them. Dr. Guiteras, the government expert, arrived in Ocean Springs this morning. Dr. Shedy, who attended the Tillman case in Ocean Springs, is reported sick with fever at Perkinston. Mayor Harry Howard issued a proclamation to the people of Biloxi, announcing three cases of yellow fever and three suspects. He says they are all isolated and that no facts will be withheld. Residents of North Back Bay have appealed to the Biloxi council asking that quarantine be raised so they may secure supplies. They say they are suffering. Biloxi people are impatient to have Dr. Guiteras and other experts visit them, so as to determine if the fever in Biloxi is really yellow fever.

THE LUETGERT TRIAL.

Chicago, Sept. 8.—The defense in the trial of Adolph Luetgert, for wife murder, was surprised by a move of the state today. Mrs. Christina Luetgert's one time sweetheart, identified a pocket-knife, the blades of which were stained and rusted, as one Luetgert had given her for safe keeping the day of his arrest. The prosecution asserted that it was with this knife Luetgert murdered his wife before placing her body in the boiling potash, where it was dissolved.

Tobacco Company Fails.

Detroit, Sept. 8.—The American Tobacco company, successors to K. C. Barker & Co., assigned today without preference to the Union Trust company. The assets are \$155,000; liabilities \$155,000. There are no preferred creditors. The gradual prostration of the tobacco trust is given as the main cause of the failure.

WAS IT A STOLEN FORTUNE?

Property with a Face Value of More Than \$200,000 Seized in a Valise. Laredo, Tex., Sept. 8.—On Aug. 8, 1897, a valise, heavily packed, arrived in this city on the Mexican National passenger train. Customs Inspector Naylor boarded this train at the bridge and went through it, inspecting all grips and packages. In the second-class coach was a large, well dressed American, and on the floor was a grip on which the man was resting his feet. Inspector Naylor requested him to open the grip for inspection. The passenger said that it was not his. An effort was made to find the owner, but no one appeared to claim it. Today Deputy Collector of Customs Judge F. E. Thompson started to make out a report of all seized goods on hand, and came to this grip. It was opened. It contained jewelry, consisting of diamond rings, breast pins, earrings, etc., valued by Mr. Funk at \$2,500; gold coin, mostly \$20 pieces, \$600; Mexican currency, \$20; several checks against a bank in San Luis Potosi, Mexico, in \$5.00 bills, amounting in all to about \$100,000; three rolls of mining and water works bonds, amounting on face value to about \$100,000. The valise is supposed to have been stolen from a Spaniard named A. S. Trueta by an American in Laredo. It was found, and who was afraid to claim it because of the theft.

DR. ANDREWS RESIGNS.

Thinks His Influence at Brown Is at an End, and He Prefers to Take Charge of Walker's New Scheme of Popular Education. Providence, R. I., Sept. 8.—President Andrews is to sever his associations with the Brown university. That decision was arrived at today during a conference of trustees, Dr. Andrews and all members of the executive committee of the university. Dr. Andrews, it is understood, declared that he believed his influence at Brown was at an end. He expressed his desire to be president of the new Walker university in preference to remaining here. The committee has been somewhat prepared for this ever since Dr. Andrews hurried last week from this city to meet Mr. Walker. In fact, it is said here that after the recent meeting of the corporation the request to Dr. Andrews to withdraw his resignation vindicated the university and placed it all right before the public. It was only yesterday that Dr. Andrews took, because the corporation was satisfied that the public would understand that the charge that the university was opposed to freedom of speech was unfounded.

There were only six members of the executive committee at the conference this afternoon and it is asserted that each agreed to keep mum about what happened at the meeting, as Dr. Andrews had sent an official communication to the board yesterday morning. Nevertheless, the fact that Dr. Andrews was not to withdraw his resignation was whispered about town tonight and subsequently verified. Dr. Andrews positively declined to say anything for publication. The members of the executive committee were not officially notified of the call for the meeting till this morning. It was called by Dr. Andrews, but he really intended to give the course Dr. Andrews took, because the corporation was satisfied that the public would understand that the charge that the university was opposed to freedom of speech was unfounded.

It was pretty generally understood that the corporation would not tolerate anything that would serve as a division of labor between educational schemes. The trouble over the presidency of Brown has in no way interfered with the enrollment of students, the number being fully up to that of last year. The college year will begin on Sept. 15, and it is altogether likely that Dr. Andrews will remain until his successor is elected.

LOVED AND LOST FORTUNE.

Cast Aside Thousands for a Railroad Brakeman. New York, Sept. 8.—Because she loved a poor railroad brakeman and married him against the wishes of her really rich father, a young woman, Russell Hart now finds herself cut off with a small income by the terms of her father's will. The will of the aunt, Mrs. Mary M. Gayer, a widow, who lived in Brooklyn, was filed today for probate for \$242,000 in personal property and \$8,000 in real estate. The bulk of Mrs. Gayer's estate is bequeathed to two nieces-in-law and two nephews-in-law, who live at Norwich, Conn., and to a score or more of charitable institutions in Brooklyn, New York and Connecticut. Mrs. Hart, who is the only surviving blood relation of the testatrix, is left \$8,000 in trust, the income from which is to be paid to her during her lifetime.

COOPER STILL A PRISONER.

But a San Francisco Hotelkeeper Fails to Prove Him a Liar. San Francisco, Sept. 8.—"Sir" Harry Westwood Cooper appeared before Police Judge Lowe on a charge of obtaining money on false pretence from the landlady of a hotel in this city, who testified that Cooper told him that he had \$85,000 to his credit in a New South Wales bank. The landlady was forced to admit that she did not know that Cooper's story was false. The charge, therefore, was dismissed. Two charges of forgery are pending against Cooper, one for having in his possession instruments for use in counterfeiting and one for trying to procure a forged bill. He will be examined on one of these charges today.

Havana Prefers War.

Madrid, Sept. 8.—It is officially denied that Premier General Canagaze has written to the leaders of the political parties saying that the government at Havana would prefer war with the United States to the intervention of the country in the affair of Cuba.

GENERAL LEE BACK FROM CUBA

Will Not Talk About the Political Affairs of the Island. PUNCTURES SOME CURRENT LIES. Case of Evangelina Cisneros Very Much Exaggerated--Well Clothed and Well Fed--Relief for Americans in Distress on the Island.

New York, Sept. 8.—General Fitzhugh Lee, the United States consul general at Havana, returned from Cuba this morning in the Wind line steamship Segurana, accompanied by his son, Fitzhugh. He went at once to West Point to visit his son, George M., who is a student at the Military Academy. The Segurana reached her pier at 9:30 o'clock. General Lee was not nearly so spruce a man as when he first went to the Pearl of the Antilles. He wore an old black diagonal suit and a black silk string bow, very much frayed. The well-known "goatee" beard had been removed, and there remained but the luxuriant gray mustache. The general is very proud of his Spanish, and laughingly sandwiched it into his conversation.

"I know what you want, boys," he said to the reporters, in reply to their questions about the condition of affairs in Cuba. "I know exactly what you want, and if I were not an official I could swap stories about Cuba with you until the cows come home. As it is my lips are sealed, can't talk until I get my English back," he added, facetiously. "There will be no prosperous times in Cuba," continued General Lee, "until the war is over, and when that event is likely to occur I cannot say. There are 1,400 distressed Americans in Cuba, and so far about \$15,000 of the \$50,000 appropriated by congress for their relief has been expended.

THE FAKE STORY CASE.

"There is one thing that I am at liberty to speak about, and I do it cheerfully and anxiously, as I wish to correct a false and stupid impression which has been created by some newspapers," refer to Senator Cisneros. This young woman in plain dress, in the Casa Recohidas, and is well clothed and fed. It is all tommy-rot about her scrubbing floors and being subjected to cruelties and indignities. She would have been pardoned long ago if it had not been for the rubbish created by American newspapers. "I do not believe the Spanish government ever for one moment intended to send her to the penal colony in Africa or elsewhere. I have her name in my own book for pardon."

SHOOTING AT HYDE PARK.

Michael Leonard Badly Wounded and G. A. Cronick Arrested. Hyde Park, Mass., Sept. 8.—A mysterious and probably fatal shooting affair occurred here about midnight. Michael Leonard, a middle-aged man, who, it is thought, lived at 70 Kosciuszko street, Providence, was shot in the abdomen and was taken to the Massachusetts General hospital, a dangerous condition. James A. Cronick is in custody on suspicion of having shot him. When found Leonard was unable to tell who his assailant was. It was reported, however, that the previous to the shooting a dog's bark was heard, followed by two shots. It was also learned that Cronick, who was intoxicated at the time, had been seen in the vicinity, accompanied by a dog. Cronick denies that he did the shooting.

Ford, formerly pastor of a church in this city, on the charge of intimacy with his servant girl, word has been expelled from the church, the vote being twelve to one.

LYNCHED AN INNOCENT MAN.

Henry Wall was the Victim of Unjust Suspicion. Richmond, Va., Sept. 8.—Henry Wall, a young white man about 22 years old, was lynched by a mob near Friend's Mission on Sunday for an alleged assault on a colored woman. Cook on Saturday last. He was probably innocent. Miss Cook was found in an unconscious condition with fourteen gashes on her body and head and her skull fractured. Forester investigation proved that she had been assaulted. Young Wall was arrested on suspicion and was in charge of Constable Childress. Early in the night Sheriff Woolwine went to sleep within half a mile of where Childress was guarding the prisoner. A mob came and took away the prisoner without encountering any resistance on the part of the constable, and the latter did not report the fact to the sheriff until the next day. That night Wall was lynched. The mob simply a suspicion being the ground for this cruelty.

MAN WHO AVOIDED WOMEN.

Made Provision in His Will for a Steer and a Black Horse. La Grange, Ind., Sept. 8.—The will of George Harwood, a wealthy farmer, of Clear Springs township, has been admitted to probate. Harwood always had an aversion to women. His sole companion was a hired man named Frane, who assisted in all the household duties. The will bequeaths to Frane the use of sixty acres of fine land on which Harwood resided, and in consideration of which Frane is to provide for a steer and a black horse which Harwood owned. When the two animals die they are to be buried in a three-acre lot, which is set aside as Harwood's burying ground. An elaborate monument is to be erected at the head of the graves and Frane is otherwise to beautify the spot.

IN A BURNING BLANKET.

Demented Michigan Woman's Method of Ending Her Existence. Awassa, Mich., Sept. 8.—Miss Millie Comstock preferred death to spending the rest of her life in an insane asylum. She adopted a sure method of ending her existence. Saturated a blanket with kerosene and she wrapped herself in it. She placed a match to the blanket and drew her head into its folds, completely enveloping herself in flame. She died in great agony. The blanket was a music teacher. She had been in poor health for some time and preparations were being made to remove her to the pontiac asylum.

Twelve or Fifteen Persons Are Killed in the Smash-Up. COLLISION OF TWO FAST TRAINS. The Fast Mail and California Express Collide Head On--The Boilers of Three Engines Explode--Seven Postal Clerks Killed--W. J. Bryan on the Train.

Emporia, Kan., Sept. 8.—One of the worst wrecks in the history of the Santa Fe railroad occurred three miles east of here at 7:30 o'clock tonight. Twelve or fifteen persons were killed and as many more badly injured. The fast mail train going east and the Mexico and California express, west bound, collided head on. The Mexico and California express was pulled by two locomotives and the rear door was jammed tight in the wreck of the fast mail, the boilers of all three engines exploded and tore a hole in the ground so deep that the smoking car of the west bound train went in on top of the three engines and two mail cars and balanced there without turning over. The passengers in the smoking car escaped through the windows. The front end of this car was enveloped in a volume of stifling smoke and steam rushing up from the wreck below and the rear door was jammed tight in the wreck of the car behind. The wreck caught fire from the engines and the cars in the hole and the smoking cars were quickly burned to ashes. In climbing out of the smoking car several men fell through the windows and it is impossible to tell whether they escaped or were burned to death.

Bellaire, Ohio, Sept. 8.—At the meeting of the miners in this city and the Wheeling Creek mines last night the proposition to instruct the delegates to the Columbus convention today to favor the ratification of the sixty-five-cent basis of settlement was defeated by a large majority. There was a very large attendance at the Wheeling Creek meeting, and among the lot the only one to vote to accept this scale was the English-speaking miners, while all the foreigners voted against it, they being in the majority. Massillon, Ohio, Sept. 8.—The Massillon district miners held a mass convention here yesterday and appointed John Adley, James Parks and J. J. Mossop delegates to the national convention in Columbus, representing 2-100 miners. These delegates were instructed to work and vote against the acceptance of the proposition to return to work at sixty-five cents. The mass convention voted to re-enter the organization of the United Mine workers.

YORK LEAVES IRELAND.

The Duke and Duchess Enthusiastically Greeted at Belfast. Belfast, Sept. 8.—This was a very busy day for the Duke and Duchess of York, and it was the last of their stay in Ireland. In anticipation of their departure, the city was in a state of holiday enthusiasm; flags and other decorations were to be seen on nearly all the side streets, as well as on the main thoroughfares. The party, on arriving here from Mount Stewart, the County Down residence of the Marquis of Londonderry, drove to the town hall, where they received no less than eighteen addresses from different public bodies belonging to the Province of Ulster. The Duke and Duchess were then entertained at lunch by the Corporation of Belfast, after which they were present at the formal evening of the new dock here. No sooner was that ceremony concluded than the royal travellers inspected the famous ship-building yards of Harlan & Wolff. From there they were escorted to the grounds upon which the lord mayor of Belfast gave a garden party in their honor. After this they went to Belfast Lough, where they embarked on board a royal yacht for Glasgow, Scotland, thus ending a very successful and popular visit to this portion of Her Majesty's dominions.
